## **Monastery A Study Of Freedom Love And Community:**

The Monastery George A. Hillery, 1992      The Monastery George A. Hillery, 1992-07-30 Monasteries are one of the few types of communities that have been able to exist without the family In this intimate first hand study of the daily life in a Trappist monastery Hillery concludes that what binds this unusual and highly successful community together is its emphases on freedom and agape love The Monastery reintegrates sociology with its allied disciplines in an attempt to understand the monastery on its own terms and at the same time link that with sociology Hillery delves into the history the importance of the Rule of Benedict the strictness of the Trappist interpretation and the significance of the Second Vatican Council Throughout he uses a holistic anthropological approach The work begins with a detailed sociological analysis of freedom love and community Other topics include ways in which candidates enter the monastery their relation to their families economic activities politics prayer asceticism recreation illness death and deviance Comparisons are made with nine of the other eleven Trappist monasteries in the United States Anthropologists and sociologists especially those interested in community comparative analysis and religion are challenged by The Monastery to move beyond the arbitrary limits they have placed on themselves which maintain that all knowledge must be capable of being physically perceived and statistically measured

**Love in the Time of Ethnography** Lucinda Carspecken, 2017-11-15 Love in the Time of Ethnography explores love variously defined as an important facet of human life and a worthy focus of study The authors look at love in association with an Alevi and Sunni couple in Turkey organizers of Mexican American and immigrant youth movements Christian missionaries

in China an elderly man with dementia two women coming home to queer identity a White researcher working with Black women in the US the common ground between Dogen's Zen teachings and Habermas's critical theory an Albanian Sufi community in Michigan and interactions between humans and the natural world It also includes theoretical writing on the place of love in social analysis whether this involves relationships between researchers and participants or the nature of human connection itself The authors argue that social research is an affective process as well as a cognitive one and that fellow feeling is an essential component of making sense of the world Along with more traditional scholarly forms the contributors to this book use auto ethnography life stories archival research and poetry noting that style itself conveys information and emotion Writing is always to some extent partisan While anthropologists and other social researchers have explored this idea over the last few decades they have more often explored it with an eye to critique than to the ideals underlying that critique This is a collection of essays about what ethnographers are aiming for as well as the problems they address and the authors discuss ethical principles like *agape* *hizmet* and *cari o* as rationales for ethnography and rationales for social change

**Community** Suzanne Keller, 2018-06-05 This book tells the story of how a human community comes to be and how aspirations for the good life confront the dilemmas and detours of real life Suzanne Keller combines penetrating analysis of classic ideas about community with a remarkable and unprecedented thirty year case study of one of the first planned unit developments in America and the first in New Jersey Twin Rivers this pioneering venture featured townhouses and shared spaces for children's play and adult work and play in a society that stresses individual over collective goals and private over public concerns Hence the timeless questions asked over millennia How does an aggregate of strangers create an identity of place shared goals viable institutions and a spirit of mutuality and reciprocity What obstacles stand in the way and how are these overcome And how does design generate or deter community spirit Inspired by the legacy of Plato Rousseau de Tocqueville and T nnies Keller traces the difficult birth and the rich unfolding of Twin Rivers from a former potato field into a vibrant contemporary community Most community studies remain at a highly descriptive level This book has both broader and deeper aims endeavoring to develop principles of the common life as we enter the age of cyberspace Keller reveals the community of Twin Rivers through a multidimensional social microscope having monitored the community from the day it opened by participant observation attitude surveys the study of collective records and nearly 1 000 in depth interviews with homeowners She offers fascinating insight into how residents maintain privacy relate to neighbors cope with social conflict and develop ideas about the common good She shows that Twin Rivers residents remain hopeful about the possibility of community despite variable success in achieving their desires Indeed she argues that the hard won experience more than the utopian ideal is the true measure of community Keller concludes that despite the homogenizing effects of mass communication and globalization local communities will continue to proliferate in the foreseeable future due to changing lifestyles and the continuing quest for roots This important and engaging book will be appreciated by social scientists

architects physical planners developers and lenders and community leaders as well as by the general reader interested in creating a bridge between individualism and community

Celibacy, Culture, and Society Elisa Janine Sobo, Sandra Bell, 2001 What does celibacy mean for individuals and for the people around them What function does it serve This is the first cross cultural inquiry into the practice of celibacy around the world and through the ages among groups as diverse as Kenyan villagers and U S prisoners Mazatec Shamans and Buddhist nuns and monks Shaker church members and anorexic women The examples of celibacy described here illustrate the complex relationship between human sexuality and its particular sociocultural context Ideas about the body gender family work religion health and other dimensions of life come sharply into focus as the contributors examine the many practices and institutions surrounding sexual abstinence They show that though celibacy is certainly sometimes a punishment or a deliberate ritual abstinence it also serves many other social and material functions and in some cases contributes to kin group survival and well being Celibacy Culture and Society represents a significant step toward understanding the functions and meanings of sexuality

Monasticism in Modern Times Isabelle Jonveaux, Stefania Palmisano, 2016-10-14 This book presents a broad sociological perspective on the contemporary issues facing Christian monasticism Since the founding work of Max Weber the sociology of monasticism has received little attention However the field is now being revitalized by some new research Focusing on Christian monks and nuns the contributors explore continuity and discontinuity with the past in what superficially might appear a monolithic

tradition Contributors speak not only about monasticism in Europe and the United States but also in Africa and Latin America a different landscape where the question of recruitment does not figure among issues considered as problematic **The Rise and Fall of Catholic Religious Orders** Patricia Wittberg,1994-01-01 A sociological analysis of the periodically recurring cycles of Roman Catholic religious life applying the theories and research on large scale social movements and on the internal dynamics of other intentional communities to the data presented in historical works on specific periods Following an introductory chapter The Extent of the Problem *The Oxford Handbook of Christian Monasticism* Bernice M. *Mysticism and Witness in Koinonia* Maria Clara Bingemer,2023-11-10 Testimony until the end in a radical donation of life and blood can be communitarian and not only individual That is the case for the two communities of Trappists and Jesuits so different in their form and so close in their radicality One is contemplative the other active one is in Africa the other in Latin America Both are religious Catholic orders Nevertheless the cause of their violent death is secular For one there is love and dialogue with otherness other cultures other religions other beliefs For the other there is justice for those who are the victims of iniquitous economic and political systems the poor Assuming secular causes into their religious consecration and commitment those communities teach today to the plural society we live in how to be open to otherness to difference and to the various vulnerabilities that clamor for justice They also teach to the churches a new radical way to live the gospel not with a unique institutional point of view but with an unlimited openness to all hungers and thirsts of the world Their martyrdom is a liturgy celebrated publicly instigating reflection and action Water from a Deep Well Sittser, Gerald L.,2013-04-23 Gerald L Sittser carves out a new discipline that blends spirituality and Christian history spiritual history He overviews Christian history through the lens of spirituality looking at what we can learn about the spiritual life from various figures and eras *Spiritual Resiliency in Older Women* Janet L. Palmisano,2016-04-15 Examining the recent radical re invention of monastic tradition in the everyday life of New Monastic Communities Exploring New Monastic Communities considers how growing up in the wake of Vatican II new Catholic communities are renewing monastic life by emphasizing the most innovative and disruptive theological aspects which they identify in the Council Despite freely adopting and adapting their Rule of Life the new communities do not belong to pre existing orders or congregations they are gender mixed with monks and nuns living under the same roof they accept lay members whether single married or as families they reject enclosure they often limit collective prayer time in order to increase time for labour evangelization and voluntary social work and are actively involved in oecumenical and interreligious dialogue harbouring thinly veiled sympathy with oriental religions from which they sometimes adopt beliefs and practices Offering unique sociological insights into New Monastic Communities and shedding light on questions surrounding New Religious Movements more generally the book asks what monastic means today and whether these communities can still be described as monastic Irish Priests in the United States William L.
