Monastic Sign Languages:

Monasteriales Indicia Debby Banham,1991 The *Monasteriales Indicia* is one of very few texts which let us see how life was really lived in monasteries in the early Middle Ages Written in Old English and preserved in a manuscript of the mid eleventh century it consists of 127 signs used by Anglo Saxon monks during the times when the Benedictine Rule forbade them to speak These indicate the foods the monks ate the clothes they wore and the books they used in church and chapter as well as the tools they used in their daily life and persons they might meet both in the monastery and outside Thus the text gives a fascinating insight into how monks dealt with the conditions of their life nearly a thousand years ago The text is printed here with a parallel translation to enable non specialists to make their own informed assessment The introduction gives a summary of the background both historical and textual as well as a brief look at the later evidence for monastic sign language in England Extensive notes provide the reader with details of textual relationships explore problems of interpretation and set out the historical implications of the text [Monastic Sign Languages](#) Jean Umiker-Sebeok,Thomas A. Deafness, Gesture and Sign Language in the 18th Century French Philosophy Josef Fulka, 2020-04-15 The book represents a historical overview of the way the topic of gesture and sign language has been treated in the 18th century French philosophy The texts treated are grouped into several categories based on the view they present of deafness and gesture While some of those texts obviously view deafness and sign language in negative terms i e as deficiency others present deafness essentially as difference i e as a set of competences that might provide some insights into how spoken language works One of the arguments of the book is that these two views of deafness and sign language still represent two dominant paradigms present in the current debates on the issue The aim of the book therefore is not only to provide a historical overview but to trace what might be called a history of the present
