**Living the Hours** Anthony Grimley, Jonathan M. Wooding, 2009-10-01 Living the Hours explores what makes the monastic tradition so appealing to ordinary people today who may be discovering a world of spirituality previously hidden from them or perhaps questioning the balance priorities and focal points of their lives Since its beginnings in the fourth century monasticism s alternative vision for living has in different ways always inspired men and women in the secular world to step outside the routine of everyday life and to give time to reflection and exploration The monastic day is measured in hours with times for prayer physical work study and rest all contributing to a balanced holistic life This book looks at different expressions of monastic life through history and at the new monastic movements emerging today and asks how they can teach us in today s consumerist world to live more fully more consciously aware of how we choose to fill our hours and days

**English Monastic Life** Abbot Gasquet, English Monastic Life The regular or monastic life was instituted to enable men to attain with greater security to the higher ideals of the Christian life proposed to them in the Gospel In the early ages of the Church the fervour of the first converts strengthened and purified by the fierce persecutions they had to endure for religion enabled them or a considerable number of them to reach this high standard without withdrawing from the world its business or society The belief that by the means of regulated labour and strict discipline of the senses and appetites it was in the power of man to perfect his moral nature and rise to heights in the spiritual order not otherwise attainable seems almost inherent in man s nature Well regulated practices founded upon this principle have been existent in all forms of religious worship other than Christian and they can be recognised no less in the observances of ancient Egypt than in those of the lamas of modern Thibet In the pagan world this doctrine seems to have dictated much of the peculiar teaching of the Stoics and among the Jews the Essenes governed their Pg 2 lives in theory and practice upon this belief Even among the early Christians there were some who by striving to master their lower nature desired to attain the true end of human life as the Gospel taught them the knowledge and love of God and obedience to His will These were known as Ascetae and in one of the earliest Christian documents they are mentioned as a class of Christians between the laity and the clergy They were however in the world though not of the world and strove to reach their goal whilst living their ordinary life by means of perseverance in prayer voluntary chastity and poverty as well as by the exercise of mortification of all kinds Though the practice of seeking seclusion from the world for the purpose of better carrying out these ideals was apparently not unknown in the third century it was not until after the conversion of Constantine that it can be said to have become general The triumph of Christianity not only freed Christians from the spiritual stimulus of persecution but it opened the door of the Christian home to worldly habits and luxury which were hitherto unknown and which made the practice of the higher ideals of the spirit difficult if not impossible in the ordinary surroundings of the family life To use the expression of Walter Hilton the baptism of Constantine brought so many fish into Peter s net that it was well nigh rent by the very multitude Henceforth it became necessary for

Christians who would satisfy the deeply seated instinct of human nature for the higher life to seek it mostly in the solitudes of the desert or later within the sheltering walls of the monastery For a right understanding of monastic history and monastic practices in the West generally and even in Pg 3 England it is necessary to have some idea at least of the main features of Eastern monachism It has been pointed out by Dom Butler in his masterly introduction to the Lausiaca History of Palladius that monachism developed along two lines in Egypt The first was the system initiated and directed by St Anthony when about the year a d 305 after living a life of seclusion for some twenty years he undertook the direction and organisation of the multitude of monks which the reputation of his sanctity had drawn to his neighbourhood The second was due to St Pachomius who just about the same time at the beginning of the fourth century whilst yet quite a young man founded his first monastery at Tabennisi in the far south of Egypt

This gendered translation of the Benedictine Rule for women in 1517 is also a handbook for women on exercising authority management skills and the art of good governance including monastic property and relations with the outside world Barry Collett here provides a modern facsimile edition of Fox's translation written in the tumbling phrases of passionate prose that make Fox stand out as a literary figure of the English Renaissance Collett also provides an extensive introduction that argues that Fox's experience as an administrator and senior political adviser with special responsibility for foreign affairs mainly with Scotland and France the political situation in 1516 and social concerns Fox shared with Thomas More all provide keys to understanding this translation of the rule Richard Fox was king's secretary Lord Privy Seal and Bishop of Winchester and founder of Corpus Christi College in Oxford He was an administrator who reflected much on the proper exercise of authority and responsibility at all levels especially through negotiated co-operation He strongly supported monastic reforms and when a group of abbesses requested a translation for sisters unable to understand Latin this was his response It provides a unique window into the world of female spirituality just a few months before Luther's reformation began The exercise of God given authority by women is described in the same possibly stronger terms as for men Fox expressed no reservations about the exercise of authority by women His indifference to sexual distinctions arose paradoxically from his preoccupation with the skilful use of God given functioning of authority in a hierarchical society      **The Meaning of the Monastic Life** Louis Bouyer, 2023 In this day and age monks are rare and most monasteries are in ruins Surely then the meaning of the monastic life is a moot point But nothing could be further from the truth as Louis Bouyer makes abundantly clear Wherever and whenever there are Christians there also is the germ of the monastic life For the monastic vocation is in essence the vocation of the baptized taken to the farthest limits of its irresistible demands In light of the search for God as the central meaning of a monk's vocation Bouyer studies the connections between the angelic and monastic lives the paramount necessity of death to self and to the world for communion with God the distinct relationships between the monk and the Persons of the Holy Trinity and the concrete means by which one lives out the monastic vocation prayer and penance manual and intellectual labor lectio divina and the Holy Mass ora et labora Provided by publisher      **Religious Life** Loan Le, 2016-06-22 Following the Second Vatican Council when each Religious Institute was encouraged to research its charism some Institutes experienced a tension between their charism and their mission or even difficulty identifying what their charism was This book is a study of the theological understanding of charism and of mission in relation to Religious Life within the Catholic Church While this topic has featured in much Roman Catholic theological literature since Vatican II there appears to be a dearth of in depth studies This book addresses this apparent lacuna It draws particularly on the work of two major theologians Jean Marie Roger Tillard OP and Sandra Marie Schneiders IHM who have reflected at length on charism and mission in the period leading up to Vatican II and on the implementation of its documents with respect to Religious Life The

very significant contributions of Tillard and Schneiders on the topic provide Religious as well as others who want to know and understand Religious Life with an interesting and motivating insight into charism and mission in Religious Life Within the Roman Catholic Church a Year of Consecrated Life has just drawn to a close and this book forms a background and a response to Pope Francis Apostolic Letter to all Consecrated People on the occasion of the Year of Consecrated Life November 2014 which invited Religious to reflect on these aspects that are essential to the life they have chosen to live
