**Monet on Location** Denis Thomas, Claude Monet, 1994      **Monet on Location** Denis Thomas, 1994      Celestial Sleuth Donald W. Olson, 2013-10-02 For a general audience interested in solving mysteries in art history and literature using the methods of science forensic astronomy is a thrilling new field of exploration Astronomical calculations are the basis of the studies which have the advantage of bringing to readers both evocative images and a better understanding of the skies Weather facts volcano studies topography tides historical letters and diaries famous paintings military records and the friendly assistance of experts in related fields add variety depth and interest to the work The chosen topics are selected for their wide public recognition and intrigue involving artists such as Vincent van Gogh Claude Monet Edvard Munch and Ansel Adams historical events such as the Battle of Marathon the death of Julius Caesar the American Revolution and World War II and literary authors such as Chaucer Shakespeare Joyce and Mary Shelley This book sets out to answer these mysteries indicated with the means and expertise of astronomy opening the door to a richer experience of human culture and its relationship with nature Each subject is carefully analyzed As an example using the study of sky paintings by Vincent van Gogh the analytical method would include computer calculations of historical skies above France in the 19th century finding and quoting the clues found in translations of original letters by Van Gogh making site visits to France to determine the precise locations when Van Gogh set up his easel and what celestial objects are depicted For each historical event influenced by astronomy there would be a different kind of mystery to be solved As an example How can the phase of the Moon and time of moonrise help to explain a turning point of the American Civil War the fatal wounding of Stonewall Jackson at Chancellorsville in 1863 For each literary reference to astronomy it was determined which celestial objects were being described and making an argument that the author is describing an actual event For example what was the date of the moonlit scene when Mary Shelley first had the idea for her novel Frankenstein These and more fun riddles will enchant and delight the fan of art and astronomy      *Monet's Minutes* André Dombrowski, 2023-01-01 A stunning exploration of the vital links between Claude Monet's Impressionism and the time technologies that helped define modernity in the nineteenth century Monet's Minutes is a revelatory account charting the relationship between the works of Claude Monet 1840-1926 founder of French Impressionism and one of the world's best known painters and the modern experience of time Andr Dombrowski illuminates Monet's celebration of instantaneity in the context of the late nineteenth century time technologies that underwrote it Monet's version of Impressionism demonstrated an acute awareness of the particularly modern pressures of time but until now scholars have not examined the histories and technologies of time and timekeeping that informed Impressionism's major stylistic shifts Arguing that the fascination with instantaneity rejected the dulling cultures of newly routinized and standardized time Monet's Minutes traces the evolution of Monet's art to what were then seismic shifts in the shape of time itself In each chapter Dombrowski focuses on the connections between a set of Monet's works and a specific

technology or experience of time while providing the voices of period critics responding to Impressionism Grounded in exceptional research and analyses this book offers new interpretations of key works by Monet and a fresh perspective on late nineteenth century art society and modern temporality

**Investigating Art, History, and Literature with Astronomy** Donald W. Olson, 2022-03-17 How can shadows determine the date and time of a painting by Johannes Vermeer How did the Moon and tides cause the loss of King John's crown jewels In his newest book Professor Olson author of *Celestial Sleuth* and *Further Adventures of the Celestial Sleuth* explores how astronomical clues can uncover fascinating new details about art history and literature He begins with an accessible introduction to amateur celestial sleuthing showing how to use your astronomical knowledge software archives vintage maps historical letters and diaries military records and other resources to investigate the past Follow along as Professor Olson then explores twenty real world cases where astronomy has helped answer unresolved questions or correct longstanding interpretations about an event Examples involve artists such as Vermeer Monet and O Keeffe the historical exploits of Alexander the Great the desert travels of the Death Valley 49ers and a meeting between Franklin D Roosevelt and Winston Churchill in Marrakech and literary works by Chaucer Shakespeare and Longfellow Packed with dozens of full color illustrations this book will enrich your knowledge of the past and equip you with all the tools you'll need to become a celestial sleuth yourself Many people have a passion for art or world history or great literature or even astronomy but seldom in all these things at once This remarkable book by Donald Olson of Texas State University will put you in touch with such seemingly unrelated endeavors It will open your eyes and broaden your mind as little else could Roger W Sinnott *Sky Telescope*

*Light and Color* John S. Munday, 2019-02-01 In 1890 Jean Forgeron an art student of Edgar Degas comes to Giverny France to work in the gardens of artist Claude Monet and to study with him for a time Nearly three years later he returns once more to work and study but also hoping to form another kind of partnership the young painter is looking for love At the same time a pair of young ladies from the suburbs of Philadelphia have come to France to study art Luisa Magdalena Slagle and Emille Martha Tveger intend to become students of Monet themselves Though Jean is intrigued by the pair they are uninterested Instead Luisa and Emille elect to form a Boston marriage while abroad together in spite of the disapproval from both their families Meanwhile the three young people explore the French countryside and learn from a group of brilliant impressionist artists building their skills and preparing for their lives ahead In this historical novel three young artists set out to study their craft with impressionist masters in nineteenth century France while dealing with matters of the heart

**Impressionism** Nathalia Brodskaya, 2014-05-10 I paint what I see and not what it pleases others to see What other words than these of douard Manet seemingly so different from the sentiments of Monet or Renoir could best define the Impressionist movement Without a doubt this singularity was explained when shortly before his death Claude Monet wrote I remain sorry to have been the cause of the name given to a group the majority of which did not have anything Impressionist In this work Nathalia Brodskaya examines the contradictions of this late 19th century movement

through the paradox of a group who while forming a coherent ensemble favoured the affirmation of artistic individuals Between academic art and the birth of modern non figurative painting the road to recognition was long Analysing the founding elements of the movement the author follows through the works of each of the artists how the demand for individuality gave rise to modern painting **Monet's Passion** ,1989 In this best selling book Elizabeth Murray discusses the development and maintenance of Claude Monet s Giverny estate as well as Monet s color theories design elements and use of light and shade Richly illustrated with Murray s lush photographs of the present day Giverny gardens Monet s Passion also offers full color illustrations of the gardens drawn to scale and four Giverny based garden plans that can be executed anywhere Monet's Series Grace Seiberling,1981 **Further Adventures of the Celestial Sleuth** Donald W. Olson,2018-01-31 From the author of Celestial Sleuth 2014 yet more mysteries in art history and literature are solved by calculating phases of the Moon determining the positions of the planets and stars and identifying celestial objects in paintings In addition to helping to crack difficult cases these studies spark our imagination and provide a better understanding of the skies Weather archives vintage maps tides historical letters and diaries military records and the assistance of experts in related fields help with this work For each historical event influenced by astronomy there is a different kind of mystery to be solved How did the changing tides affect an army s battle plans How did the phases of the moon affect how an artist painted a landscape Follow these exciting investigations with a master celestial sleuth as he tracks down the truth and helps unravel mysteries as far back as the Middle Ages and as recent as the iconic 1945 photograph of a kiss in Times Square on VJ Day Topics or cases pursued were chosen for their wide public recognition and intrigue and involve artists such as Vincent van Gogh and Claude Monet historical events such as the campaigns of Braveheart in Scotland and battles in World War II and the Korean War and literary authors such as Chaucer Cervantes Shakespeare Byron and Edgar Allan Poe Impressionism and Post-Impressionism Nathalia Brodskaja,2018-03-13 Impressionism is the most famous artistic movement But what appears today as a charming and exquisite landscape painting was actually one of the first avant garde movements whose members had decided to fight the values of traditional art The impressionist outdoor paintings shocked the public by the technique used but also by their apparent banality As Monet Sisley Pissarro and many others sought to capture the ephemeral nature of light the next generation would reject naturalism Indeed post impressionists such as Gauguin Van Gogh C zanne and Seurat favored the subjective rather than the objective and the eternal rather than the concrete In doing so they laid the formal foundations of 20th century modern art This book is a visual guide through the crucial moments in the history of art and the progression of the 19th century to modernity **Painting in the Garden: A Journey Through Art and Nature** Pasquale De Marco,2025-04-08 Step into the world renowned masterpiece of art and nature created by Claude Monet at Giverny France In this captivating book we embark on a journey through Monet s garden exploring its beauty its significance and its enduring legacy Monet s garden was not just a source of
