Ruble, 1995-05-26 Explores the reorganization of Russian life during the initial post Soviet era by examining the politics of property in Yaroslavl Russian Women and the End of Soviet Socialism Judith McKinney, 2019-08-17 Initially expected to bring efficiency to the Russian economy and prosperity to Russian society the shock therapy of price liberalization privatization and macroeconomic stabilization introduced under Boris Yeltsin was quickly condemned as having worsened the lives of most Russians Based on conversations with more than two dozen women in a provincial Russian capital this book takes a retrospective look at these economic policies and explores how they transformed the trajectory of the lives of these women both positively and negatively in the family and in the workplace McKinney considers the everyday experiences of the women as they provided for their families established businesses travelled abroad and adjusted to the new economic political and social environment of the Late Soviet and Post Soviet era Through their divergent experiences *Russian Women and the End of Soviet Socialism* casts light on how these women view issues of gender ethnicity domestic and international politics and the end of the Soviet experiment Students and scholars across a range of disciplines including gender studies sociology economics and history will find this book of interest 'City of the Future' Mateusz Laszczkowski, 2016-08-01 Astana the capital city of the post Soviet Kazakhstan has often been admired for the design and planning of its futuristic cityscape This anthropological study of the development of the city focuses on every day practices official ideologies and representations alongside the memories and dreams of the city's longstanding residents and recent migrants Critically examining a range of approaches to place and space in anthropology geography and other disciplines the book argues for an understanding of space as inextricably material and imaginary and unceasingly dynamic allowing for a plurality of incompatible pasts and futures materialized in spatial form *Symbolism and Regime Change in Russia* Graeme Gill, 2013-01-17 During the Soviet period political symbolism developed into a coherent narrative that underpinned Soviet political development Following the collapse of the Soviet regime and its widespread rejection by the Russian people a new form of narrative was needed one which both explained the state of existing society and gave a sense of its direction By examining the imagery contained in presidential addresses the political system the public sphere and the urban development of Moscow Graeme Gill shows how no single coherent symbolic programme has emerged to replace that of the Soviet period Laying particular emphasis on the Soviet legacy and especially on the figure of Stalin *Symbolism and Regime Change in Russia* explains why it has been so difficult to generate a new set of symbols which could constitute a coherent narrative for the new Russia Historical Dictionary of the Russian Federation Robert A. Saunders, 2019-09-20 Straddling Europe and Asia the Russian Federation is the largest country in the world and home to a panoply of religious and ethnic groups from the Muslim Tatars to the Buddhist Buryats Over the past 40 years Russia has experienced the most dramatic transformation of any modern state The second edition of *Historical Dictionary of the Russian*

Report of the Chief of Engineers United States. Army. Corps of Engineers,1910 **The Geography of Russia** Emily Sebastian,2018-07-01 Russia is a vast country as well as the world s largest nation by far Readers of this volume will learn about the country s varied landscape lakes and rivers climate and environmental zones Russia s natural resources and the impact these have had on the country s settlement patterns are also discussed Moscow is the focus of one chapter while another celebrates Russia s many UNESCO World Heritage Sites Maps charts and sidebars provide extra information while colorful photographs give readers a glimpse of some of Russia s most spectacular natural scenery Demography, Migration, and Tolerance Nancy Popson,2010 Woodrow Wilson International Center for Scholars Comparative Urban Studies Project Cover **The Politics of Inequality in Russia** Thomas F. Remington,2011-04-29 This book investigates the relationship between the character of political regimes in Russia s subnational regions and the structure of earnings and income Based on extensive data from Russian official sources and surveys conducted by the World Bank the book shows that income inequality is higher in more pluralistic regions It argues that the relationship between firms and government differs between more democratic and more authoritarian regional regimes In more democratic regions business firms and government have more cooperative relations restraining the power of government over business and encouraging business to invest more pay more and report more of their wages Average wages are higher in more democratic regions and poverty is lower but wage and income inequality are also higher The book argues that the rising inequality in postcommunist Russia reflects the inability of a weak state to carry out a redistributive social policy **The Oxford Handbook of Urban Planning** Randall Crane,Rachel Weber,2015 Why plan How and what do we plan Who plans for whom These three questions are then applied across three major topics in planning States Markets and the Provision of Social Goods The Methods and Substance of Planning and Agency Implementation and Decision Making **Local Heroes** Kathryn Stoner-Weiss,2021-04-13 In Local Heroes Kathryn Stoner Weiss analyzes a crucial aspect of one of the great dramas of modern times the reconstitution of the Russian polity and economy after more than seventy years of communist rule This is the first book to look comprehensively and systematically at Russia s democratic transition at the local level Its goal is to explain why some of the new political institutions in the Russian provinces weathered the monumental changes of the early 1990s better than others Using newly available economic political and sociological data to test various theories of democratization and institutional performance Stoner Weiss finds that traditional theories are unable to explain variations in regional government

performance in Russia Local Heroes argues that the legacy of the former economic system influenced the operation of new political institutions in important and often unexpected ways Past institutional structures specifically the concentration of the regional economy promoted the formation of political and economic coalitions within a new proto democratic institutional framework These coalitions have had positive effects on governmental performance For democratic theorists this may be a surprising conclusion However it is possible as Stoner Weiss suggests that the needs of democratic development may be different in the short run than in the long run The local heroes of today may be impediments to the further development of democracy tomorrow This provocative work solidly grounded in research and theory will interest anyone concerned with issues of economic and political transition

Evolutionary Governance Theory Raoul Beunen, Kristof Van Assche, Martijn Duineveld, 2014-12-02 This volume presents empirical studies and theoretical reflections on Evolutionary Governance Theory EGT its most important concepts and their interrelations As a novel theory of governance EGT understands governance as radically evolutionary which implies that all elements of governance are subject to evolution that these elements co evolve and that many of them are the product of governance itself Through this book we learn how communities understand themselves and their environment and why they create the complex structures and processes we analyze as governance paths Authors from different disciplines develop the EGT framework further and apply it to a wide range networks of power governance of agricultural resources etc The contributors also reflect on the possibilities and limitations of steering intervention management and development in a world continuously in flux It bridges the gap between more fundamental and philosophical accounts of the social sciences and applied studies offering theoretical advancements as well as practical recommendations

Needed by Nobody Tova Höjdestrand, 2011-03-15 Homelessness became a conspicuous facet of Russian cityscapes only in the 1990s when the Soviet criminalization of vagrancy and similar offenses was abolished In spite of the host of social and economic problems confronting Russia in the demise of Soviet power the social dislocation endured by increasing numbers of people went largely unrecognized by the state Being homeless carries a special burden in Russia where a permanent address is the precondition for all civil rights and social benefits and where homelessness is often regarded as a result of laziness and drinking rather than external factors In *Needed by Nobody* the anthropologist Tova Höjdestrand offers a nuanced portrait of homelessness in St Petersburg Based on ethnographic work at railway stations soup kitchens and other places where the homeless gather Höjdestrand describes the material and mental world of this marginalized population They are she observes not needed in two senses The state considers them in effect as noncitizens At the same time they stand outside the traditionally intimate social networks that are the real safety net of life in postsocialist Russia As a result they are deprived of the prerequisites for dealing with others in ways that they themselves value as decent and human Höjdestrand investigates processes of social exclusion as well as the remaining world of waste things tasks and places that are wanted by nobody else and on which human leftovers are forced to survive In this bleak context Höjdestrand

takes up the intimate worlds of the homeless their social relationships dirt and cleanliness and physical appearance Her interviews with homeless people show that the indigent have a very good idea of what others think of them and that they are liable to reproduce the stigma that is attached to them even as they attempt to negotiate it This unique and often moving portrait of life on the margins of society in the new Russia ultimately reveals how human dignity may be retained in the absence of its very preconditions

Wegren, 2009-11-24 This ambitious work is the definitive account of Russia's land reform initiatives from the late 1980s to today In Russia a country controlling more land than any other nation land ownership is central to structures of power class division and agricultural production The aim of Russian land reform for the past thirty years to undo the collectivization of the Soviet era and encourage public ownership has been largely unsuccessful To understand this failure Stephen Wegren examines contemporary land reform policies in terms of legislation institutional structure and human behavior Using extensive survey data he analyzes household behaviors in regard to land ownership and usage based on socioeconomic status family size demographic distribution and regional differences Wegren's study is important and timely as Russian land reform will have a profound effect on Russia's ability to compete in an era of globalization

The Patriotism of Despair Serguei Alex. Oushakine, 2011-02-23 The sudden dissolution of the Soviet Union altered the routines norms celebrations and shared understandings that had shaped the lives of Russians for generations It also meant an end to the state sponsored nonmonetary support that most residents had lived with all their lives How did Russians make sense of these historic transformations Serguei Alex Oushakine offers a compelling look at postsocialist life in Russia In Barnaul a major industrial city in southwestern Siberia that has lost 25 percent of its population since 1991 many Russians are finding that what binds them together is loss and despair The Patriotism of Despair examines

the aftermath of the collapse of the Soviet Union graphically described in spray paint by a graffiti artist in Barnaul We have no Motherland Once socialism disappeared as a way of understanding the world what replaced it in people s minds Once socialism stopped orienting politics and economics how did capitalism insinuate itself into routine practices Oushakine offers a compelling look at postsocialist life in noncosmopolitan Russia He introduces readers to the neocoms people who mourn the loss of the Soviet economy and the remonetization of transactions that had not involved the exchange of cash during the Soviet era Moving from economics into military conflict and personal loss Oushakine also describes the ways in which veterans of the Chechen war and mothers of soldiers who died there have connected their immediate experiences with the country s historical disruptions The country the nation and traumatized individuals Oushakine finds are united by their vocabulary of shared pain
