Money And Power In Provincial Thailand:

Money and Power in Provincial Thailand Ruth McVey, 2001-01-01 Most studies of Southeast Asian economic change focus on the phenomenal growth experienced by a few large cities such as Jakarta Bangkok Hong Kong Kuala Lumpur and Singapore Big business has been viewed as the economic engine fueling the region's growth and prosperity Studies of the rural areas have concerned themselves with the social and environmental impact of metropolitan growth villages emptied by migration to the big cities cultures crushed by tourist development and agribusiness and lush landscapes destroyed by the devastation of natural resources The literature reveals that few analysts have examined the middle distance between metropolis and countryside The contributors to this book have addressed the issue by concentrating on the intermediate level of economic political and social life the world of Thailand's provincial cities and market towns In the past decade the rise of frequently violent competition for business and political leadership in the Thai provinces and the growing importance of provincial support for national powerholders has drawn attention to the way in which these town and village centers are being transformed by capitalist development This volume brings together some of the research inspired by this drawing on a variety of disciplinary approaches national backgrounds and sites of study Contributors Daniel Arghiros Chris Baker Sombat Chantornvong Kevin Hewison Jim LoGerfo Ruth McVey Michael J Montesano James Ockey Pasuk Phongpaichit Maniemai Thongyoo Yoko Ueda

Money and Power in Provincial Thailand Ruth Thomas McVey, 2000-01 During the 1990s the Thai provinces saw the rise of a frequently violent competition for business and political leadership This examination of economic change focuses on this middle ground between metropolis and countryside an arena being transformed by capitalist development

Political Booms: Local Money And Power In Taiwan, East China, Thailand, And The Philippines Lynn T White, 2009-06-10 Why have Taiwan rich parts of China and Thailand boomed famously while the Philippines has long remained stagnant both economically and politically Do booms abet democracy Does the rise of middle classes promise future liberalization Why has Philippine democracy brought no boom and barely served the Filipino people This book unlike most previous studies shows that both the roots and results of growth are largely political rather than economic Specifically it pays attention to local not just national power networks that caused or prevented growth in the four places under consideration Violence has been common in these polities along with money Elections have contributed to socio political problems that are also obvious in Leninist or junta regimes because elections are surprisingly easy to buy with corrupt money from government contracts Liberals should pay more serious theoretical attention to the effects of money on justice and Western political science should focus more clearly on the ways non state local power affects elections By considering the effects on fair justice of local money and power largely from small and medium sized firms that emerge after agrarian reforms this book asks democrats to face squarely the extent to which electoral procedures fail to help ordinary citizens Students and scholars of Asia will all need this book as will students of the West whose methods have become parochial

Power Broking In The Shade: Party Finances And Money Politics In Southeast Asia Wolfgang

Sachsenroder, 2018-06-04 The book offers a broad survey of political parties financing strategies in Southeast Asia Contemporary Southeast Asia Political activities the running of party organisations branches and headquarters and especially election campaigns are becoming increasingly costly and no party can survive without money Political power provides access to funding from public and private sources Political parties have become more and more like businesses including the temptation to maximise the income and the war chests thus opening the doors for vested interests and influence peddling As a result money politics is pervasive and the public is becoming increasingly critical of it Trust in political parties politicians governments and key state institutions has fallen to unprecedented levels In most countries in the region general and political corruption graft and influence peddling are all too visible for the voters while good governance remains an ideal too often out of reach This book Power Broking in the Shade Party Finances and Money Politics in Southeast Asia provides an overview of the strategies for financial survival of the parties in the region and the importance of stable cash flows for their political success The book fills the void of a comparative approach towards party financing that covers the whole of ASEAN and offers accessible facts and understandable analysis for anyone interested in the politics of Southeast Asia Business,

Government and Labor Linda Y C Lim, 2017-12-07 Business Government and Labor in the Economic Development of Singapore and Southeast Asia analyzes the inter linked and evolving roles of private sector business government public policy and labor markets in the economic development of Singapore and its Southeast Asian neighborhood It does this through 16 essays written by Prof Linda Y C Lim an early and long established scholar of these subjects and published over a 35 year period For Singapore often considered the world's most successful economy the essays highlight the determining role of government's industrial and social policy through to the present day when the growth model of the past faces many external market and domestic resource constraints In the rest of Southeast Asia in contrast the essays explore how private sector business dominated by the locally domiciled ethnic Chinese minority thrived and drove economic growth in underdeveloped markets with imperfect institutions and consider if and how this might change with China's increasing presence in the regional economy A final set of essays analyzes the forces underlying women's employment from labor intensive Southeast Asian export factories in the 1980s to Singapore's foreign labor dependent economy and its current productivity challenges Taken together the essays show how government business and labor interact in the process of economic development **Thailand's Political Peasants** Andrew Walker, 2012-08-06 When a populist movement elected

Thaksin Shinawatra as prime minister of Thailand in 2001 many of the country's urban elite dismissed the outcome as just another symptom of rural corruption a traditional patronage system dominated by local strongmen pressuring their neighbors through political bullying and vote buying In Thailand's Political Peasants however Andrew Walker argues that the emergence of an entirely new socioeconomic dynamic has dramatically changed the relations of Thai peasants with the state

making them a political force to be reckoned with Whereas their ancestors focused on subsistence this generation of middle income peasants seeks productive relationships with sources of state power produces cash crops and derives additional income through non agricultural work In the increasingly decentralized disaggregated country rural villagers and farmers have themselves become entrepreneurs and agents of the state at the local level while the state has changed from an extractor of taxes to a supplier of subsidies and a patron of development projects Thailand s Political Peasants provides an original provocative analysis that encourages an ethnographic rethinking of rural politics in rapidly developing countries Drawing on six years of fieldwork in Ban Tiam a rural village in northern Thailand Walker shows how analyses of peasant politics that focus primarily on rebellion resistance and evasion are becoming less useful for understanding emergent forms of political society Power, Protection and Magic in Thailand Craig J. Reynolds, 2019-10-22 This biographical study of an unusual southern policeman explores the relationship between religion and power in Thailand during the early twentieth century when parts of the country were remote and banditry was rife Khun Phan 1898 2006 known as Lion Lawman sometimes used rather too much lethal force in carrying out his orders He was the most famous graduate of a monastic academy in the mid south whose senior teachers imparted occult knowledge favoured by fighters on both sides of the law Khun Phan imbibed this knowledge to confront the risks and uncertainty that lay ahead and bolster his confidence and self reliance for his struggle with adversaries Against the background of national events the story is rooted in the mid south where the policeman was born and died Based on a wide range of works in Thai language on field trips to the region and on interviews with local and regional scholars as well as the policeman s descendants this generously illustrated book accompanied by short video clips brings to life the distinctive environment of the lakes district on the Malay Peninsula

Cultural Governance and Resistance in Pacific Asia William A. Callahan, 2006-05-03 This text examines the politics of culture and the culture of politics in Pacific Asia through case studies on the South Pacific China South Korea Thailand and Southeast Asia The contexts and cultures of the chapters are wide ranging and Callahan skilfully ties them together with the objective of analyzing the relation between the state s cultural governance and resistance to it The themes covered include governmentality and cultural production popular culture and resistance East West relations gender identity and democracy civil society social movements and democracy national and transnational identity production Cultural Governance and Resistance in Pacific Asia addresses the dynamics between Asian studies and cultural studies and the overlap between comparative politics and international relations and as such will appeal to students and scholars of Asian studies cultural studies comparative politics sociology and anthropology alike **Weak States, Vulnerable Governments, and Regional Cooperation** Atena Ștefania Feraru, 2021-10-31 War famine poverty organized crime environmental catastrophes refugees epidemics and pandemics modern slavery all these affect people in the non Western world to an increasingly disproportionate extent It is also where wealthy governments wield economic leverage and military force to renegotiate

existing norms of international relations Under these circumstances it is difficult to overestimate the importance and urgency of comprehending the mechanisms and motivations driving these phenomena This book is the outcome of a decade long effort to advance both theoretical and empirical understanding of what motivates non Western governments decisions to cooperate not cooperate regionally It starts by acknowledging the Western centrism of prevailing international relations theories abandoning deeply entrenched assumptions regarding the nature and roles of states and redefining state weakness The inquiry continues by elaborating this new concept and applying it to Southeast Asian polities while positing that it creates governments vulnerable to internal and external threats in line with Joel S Migdal s well known findings on the topic A set of regional cooperation strategies is then inferred based on the survival needs of insecure governing elites and its empirical validity is tested against the experience of regional organizations in Africa Asia and the Americas The second part of the book provides an in depth examination of how Southeast Asian governments shared security needs and interests shaped the emergence of the identified regional cooperation pattern and its evolution over 50 years of cooperation within the Association of Southeast Asian Nations ASEAN Overall this book is a call to international relations scholars to do our part in understanding non Western experiences and making a substantive contribution to addressing humanity s most intractable security threats

East Asian Business in the New World Shaomin Li, 2016-09-08 *East Asian Business in the New World* Helping Old Economies Revitalize discusses how to conduct business in East Asia The main objective of the book is to help American workers and businesses gain competitive advantages in a global marketplace in which the emerging Asian economies are rapidly becoming major players The American economy appears to be on decline especially relative to the rapidly rising economies in places such as China To revitalize the American economy and those of the old world we must pay close attention to the economies with which America competes The objective of this book is two fold with an initial focus on the opportunities and challenges of doing business in East Asia that includes tactics that will help readers understand Asian economies and business practices so that they can compete more successfully in the region Secondly the book seeks to teach readers how the U S can learn from East Asia in revitalizing its own economy This is what sets the book apart as it analyzes the social institutions in major Asian countries including the political economic and cultural institutions and then compares them with the institutions in the U S identifying the strengths and weaknesses of U S institutions and providing strategic and policy recommendations that may help the U S economy and American firms compete in the global marketplace Discuss how America and older economies can learn from Asia Provides a theoretical framework of rule based vs relation based governance to help readers understand the differences in doing business in Asia vs doing business in mature economies Offers business insights based on the author s business experience in Asia Approaches the topic from a comparative perspective
