Participatory Monitoring and Evaluation System for Sustainable Community Forestry Management, 2008 *Participatory Forestry: Involvement, Information and Science*

Alessandro Paletto, 2019-08-12 This book is a printed edition of the Special Issue Participatory Forestry Involvement Information and Science that was published in *Forests* **Community Forestry**, 1989 **Negotiated Learning** Irene Professor Guijt, 2010-09-30 The first book to critically examine how monitoring can be an effective tool in participatory resource management Negotiated Learning draws on the first hand experiences of researchers and development professionals in eleven countries in Africa Asia and South America Collective monitoring shifts the emphasis of development and conservation professionals from externally defined programs to a locally relevant process It focuses on community participation in the selection of the indicators to be monitored as well as community participation in the learning and application of knowledge from the data that is collected As with other aspects of collaborative management collaborative monitoring emphasizes building local capacity so that communities can gradually assume full responsibility for the management of their resources The cases in Negotiated Learning highlight best practices but stress that collaborative monitoring is a relatively new area of theory and practice The cases focus on four themes the challenge of data driven monitoring in forest systems that supply multiple products and serve diverse functions and stakeholders the importance of building upon existing dialogue and learning systems the need to better understand social and political differences among local users and other stakeholders and the need to ensure the continuing adaptiveness of monitoring systems

Participatory Forestry Mary Hopley, 1996 **The Community's Toolbox** D'Arcy Davis-Case, Food and Agriculture Organization, 1998 **Quantitative Techniques in Participatory Forest Management** Eugenio Martinez-Falero, Susana Martin-Fernandez, Antonio D. Garcia-Abril, 2016-04-19 Forest management has evolved from a mercantilist view to a multi functional one that integrates economic social and ecological aspects However the issue of sustainability is not yet resolved Quantitative Techniques in Participatory Forest Management brings together global research in three areas of application inventory of the forest variables that determine the main environmental indices description and design of new environmental indices and the application of sustainability indices for regional implementations All these quantitative techniques create the basis for the development of scientific methodologies of participatory sustainable forest management **Enhancing People's Participation** Grazia Borrini, 1994 *Public Participation in Forestry in Europe and North America* Joint FAO/ECE/ILO Committee on Forest Technology, Management, and Training, 2000
