*Introduction to the Primates* Daris R. Swindler, 2012-09-20 Introduction to the Primates is a comprehensive but compact guide to the long evolutionary history of the world s prosimians monkeys and apes and to the much shorter history of humankind s interactions with them from our earliest recorded observations to the severe threats we now pose to their survival Daris Swindler provides a detailed description of the major primate groups and their environments from the smallest lemurs of Madagascar to the gorillas of central Africa He compares and contrasts the primate species looking at each with a specific anatomical focus The range of diversity emerges as the particular characteristics of the species becomes increasingly distinct Swindler also considers primate behavior and its close connections with environment and evolutionary differences His account of 65 million years of successful adaptation and evolution demonstrates the drama of paleontology as evidence accrues and gaps in the history of primate evolution gradually close     **The Rāmāyaṇa of Vālmīki: An Epic of Ancient India, Volume IV** , 2016-09-06 This is the fourth volume of a translation of India s most beloved and influential epic tale the Ramayana of Valmiki As befits its position at the center of the work Volume IV presents the hero Rama at the turning point of his fortunes Having previously lost first his kingship and then his wife he now forms an alliance with the monkey prince Sugriva Rama needs the monkeys to help him find his abducted wife Sita and they do finally discover where her abductor has taken her But first Rama must agree to secure for his new ally the throne of the monkey kingdom by eliminating the reigning king Sugriva s detested elder brother Valin The tragic rivalry between the two monkey brothers is in sharp contrast to Rama s affectionate relationship with his own brothers and forms a self contained episode within the larger story of Rama s adventures This volume continues the translation of the critical edition of the Valmiki Ramayana a version considerably reduced from the vulgate on which all previous translations were based It is accompanied by extensive notes on the original
