A Book of Migrations Rebecca Solnit,2011-09-05 In this acclaimed exploration of the culture of others Rebecca Solnit travels through Ireland the land of her long forgotten maternal ancestors A Book of Migrations portrays in microcosm a history made of great human tides of invasion colonization emigration nomadism and tourism Enriched by cross cultural comparisons with the history of the American West A Book of Migrations carves a new route through Ireland s history literature and landscape

Epidemic Cinema Julia Echeverría,2023-12-08 This book examines the recent trend in global cinema to feature infectious disease As the global crisis of the COVID 19 pandemic materialised the anxieties and discourses of world risk that had long been portrayed in popular media the book provides a novel definition of the epidemic film genre and offers a systematic look into the narrative and stylistic conventions that characterise it Epidemic Cinema traces the evolution of the genre from its early cinematic origins to establish the founding principles of a genre standing at the crossroads between science fiction and

horror It draws on close textual analysis to show how the pandemic reified one of the central predicaments of epidemic narratives the constant tension existing between free floating phenomena and the impulse to control and resist such phenomena ultimately epitomised by the trope of the border Showing how infectious diseases offer a rich allegorical frame which cinema uses to articulate timely anxieties of growingly invisible and deterritorialised risks the author presents the prevalence of contagion in popular culture as a symptom of this growingly viral and virus ridden context both in its most literal and metaphorical sense This insightful study will interest students and scholars of film studies global cinema science fiction horror popular culture and genre theory Hollywood Science Sidney Perkowitz,2010-02-22 In this book a scientist and dedicated film enthusiast discusses the portrayal of science in more than one hundred films including science fiction scientific biographies and documentaries Beginning with early films like Voyage to the Moon and Metropolis and concluding with more recent offerings like The Matrix War of the Worlds A Beautiful Mind and An Inconvenient Truth Sidney Perkowitz questions how much faith we can put into Hollywood's depiction of scientists and their work how accurately these films capture scientific fact and theory whether cataclysms like our collision with a comet can actually happen and to what extent these films influence public opinion about science and the future Bringing together history scientific theory and humorous observation Hollywood Science features dozens of film stills and a list of the all time best and worst science fiction movies

Encyclopedia of Religion and Nature Bron Taylor,2008-06-10 The Encyclopedia of Religion and Nature originally published in 2005 is a landmark work in the burgeoning field of religion and nature It covers a vast and interdisciplinary range of material from thinkers to religious traditions and beyond with clarity and style Widely praised by reviewers and the recipient of two reference work awards since its publication see www.religionandnature.com ern this new more affordable version is a must have book for anyone interested in the manifold and fascinating links between religion and nature in all their many senses **Political Legitimacy in Middle Africa** Michael G. Schatzberg,2001-11-13 refreshing and provocative a significant addition to existing literature on African politics Stephen Ellis It opens up a whole new field of investigation and brings into focus the pertinence of an interdisciplinary approach to African politics Ren Lemarchand In this innovative work Michael G Schatzberg reads metaphors found in the popular press as indicators of the way Africans come to understand their political universe Examining daily newspapers popular literature and political and church documents from across middle Africa Schatzberg finds that widespread and deeply ingrained views of government and its relationship to its citizenry may be understood as a projection of the metaphor of an idealized extended family onto the formal political sphere Schatzberg's careful observations and sensitive interpretations uncover the moral and social factors that shape the African political universe while showing how some African understandings of politics and political power may hamper or promote the development of Western style democracy Political Legitimacy in Middle Africa looks closely at elements of African moral and

political thought and offers a nuanced assessment of whether democracy might flourish were it to be established on middle African terms **Infectious Diseases** Andrew Barnett Christie, 1987 **Films and Other Materials for Projection** Library of Congress, 1973
