Biological diversity or biodiversity refers to the universal attribute of all living organisms that each individual being is unique  
that is no two organisms are identical The biology of biodiversity must include all the aspects of evolutionary and ecological  
sciences analyzing the origin changes and maintenance of the di versity of living organisms Today biodiversity which benefits  
human life in vari ous ways is threatened by the expansion of human activities Biological research in biodiversity contributes  
not only to understanding biodiversity itself but also to its conservation and utilization The Biology of Biodiversity was the  
specialty area of the 1998 International Prize for Biology The International Prize for Biology was established in 1985 in  
commemoration of the sixty year reign of the Emperor Showa and his longtime devotion to biological research The 1998  
Prize was awarded to Professor Otto Thomas Solbrig Harvard University one of the authors of this book In conjunction with  
the awarding of the International Prize for Biology the 14th International Symposium with the theme of The Biology of  
Biodiversity was held in Hayama on the 9th and 10th of December 1998 with financial support by an international symposium  
grant from the Ministry of Education Science Sports and Culture of Japan The invited speakers were chosen so as to cover
