Monks And Magic An Analysis Of Religious Ceremonies In Central Thailand:

Monks and Magic B. J. Terwiel, 1994 **Monks and Magic** Barend Jan Terwiel, 1975 **Capitalism Magic Thailand** Peter A Jackson, 2021-12-13 By studying intersections among new cults of wealth ritually empowered amulets and professional spirit mediumship which have emerged together in Thailand's dynamic religious field in recent decades **Capitalism Magic Thailand** explores the conditions under which global modernity produces new varieties of enchantment Bruno Latour's account of modernity as a condition fractured between rationalizing ideology and hybridizing practice is expanded to explain the apparent paradox of new forms of magical ritual emerging alongside religious fundamentalism across a wide range of Asian societies In Thailand novel and increasingly popular varieties of ritual now form a symbolic complex in which originally distinct cults centred on Indian deities Chinese gods and Thai religious and royal figures have merged in commercial spaces and media sites to sacralize the market and wealth production Emerging within popular culture this complex of cults of wealth amulets and spirit mediumship is supported by all levels of Thai society including those at the acme of economic and political power New theoretical frameworks are presented in analyses that challenge the view that magic is a residue of premodernity placing the dramatic transformations of cultic ritual centre stage in modern Thai history It is concluded that modern enchantment arises at the confluence of three processes neoliberal capitalism's production of occult economies the auraticizing effects of technologies of mass mediatization and the performative force of ritual in religious fields where practice takes precedence over doctrine **The Oxford Handbook of Buddhist Practice** Paula Kane Robinson Arai, Kevin Trainor, 2022 Foregrounds the impact of embodiment in Buddhism Highlights the diversity and fluidity of Buddhist identities The most comprehensive available volume on Buddhist practice Book jacket

Contemporary Religious Tendencies in Korea as Reflected in a Confucian Sect Dorrit Wagner, 1993 **Foucault, Buddhism and Disciplinary Rules** Malcolm Voyce, 2016-12-01 This book suggests that previous critiques of the rules of Buddhist monks Vinaya may now be reconsidered in order to deal with some of the assumptions concerning the legal nature of these rules and to provide a focus on how Vinaya texts may have actually operated in practice Malcolm Voyce utilizes the work of Foucault and his notions of power and subjectivity in three ways First he examines The Buddha's role as a lawmaker to show how Buddhist texts were a form of lawmaking that had a diffused and lateral conception of authority While lawmakers in some religious groups may be seen as authoritative in the sense that leaders or founders were coercive or charismatic the Buddhist concept of authority allows for a degree of freedom for the individual to shape or form themselves Second he shows that the confession ritual acted as a disciplinary measure to develop a unique sense of collective governance based on self regulation self governance and self discipline Third he argues that while the Vinaya has been seen by some as a code or form of regulation that required obedience the Vinaya had a double nature in that its rules could be transgressed and that offenders could be dealt with appropriately in particular situations Voyce shows that the Vinaya was

not an independent legal system but that it was dependent on the Dharma shastra for some of its jurisprudential needs and that it was not a form of customary law in the strict sense but a wider system of jurisprudence linked to Dharma shastra principles and precepts

Jataka Stories in Theravada Buddhism Naomi Appleton, 2016-05-06 Jataka stories stories about the previous births of the Buddha are very popular in Theravada Buddhist countries where they are found in both canonical texts and later compositions and collections and are commonly used in sermons children's books plays poetry temple illustrations rituals and festivals Whilst at first glance many of the stories look like common fables or folktales Buddhist tradition tells us that the stories illustrate the gradual path to perfection exemplified by the Buddha in his previous births when he was a bodhisatta buddha to be Jataka stories have had a long and colourful history closely intertwined with the development of doctrines about the Buddha the path to buddhahood and how Buddhists should behave now the Buddha is no more This book explores the shifting role of the stories in Buddhist doctrine practice and creative expression finally placing this integral Buddhist genre back in the centre of scholarly understandings of the religion

Gambling, the State and Society in Thailand, c.1800-1945 James A. Warren, 2013-07-18 During the nineteenth century there was a huge increase in the level and types of gambling in Thailand Taxes on gambling became a major source of state revenue with the government establishing state run lotteries and casinos in the first half of the twentieth century Nevertheless over the same period a strong anti gambling discourse emerged within the Thai elite which sought to regulate gambling through a series of increasingly restrictive and punitive laws By the mid twentieth century most forms of gambling had been made illegal a situation that persists until today This historical study based on a wide variety of Thai and English language archival sources including government reports legal cases and newspapers places the criminalization of gambling in Thailand in the broader context of the country's socio economic transformation and the modernization of the Thai state Particular attention is paid to how state institutions such as the police and judiciary and different sections of Thai society shaped and subverted the law to advance their own interests Finally the book compares the Thai government's policies on gambling with those on opium use and prostitution placing the latter in the context of an international clampdown on vice in the early twentieth century

More Than Words Richard Fox,2018-09-15 Grounded in ethnographic and archival research on the Indonesian island of Bali More Than Words challenges conventional understandings of textuality and writing as they pertain to the religious traditions of Southeast Asia Through a nuanced study of Balinese script as employed in rites of healing sorcery and self defense Richard Fox explores the aims and desires

embodied in the production and use of palm leaf manuscripts amulets and other inscribed objects Balinese often attribute both life and independent volition to manuscripts and copperplate inscriptions presenting them with elaborate offerings Commonly addressed with personal honorifics these script bearing objects may become partners with humans and other sentient beings in relations of exchange and mutual obligation The question is how such practices of the living letter may be related to more recently emergent conceptions of writing linked to academic philology reform Hinduism and local politics which take Balinese letters to be a symbol of cultural heritage and a neutral medium for the transmission of textual meaning More than Words shows how Balinese practices of apotropaic writing on palm leaves amulets and bodies challenge these notions and yet coexist alongside them Reflecting on this coexistence Fox develops a theoretical approach to writing centered on the premise that such contradictory sensibilities hold wider significance than previously recognized for the history and practice of religion in Southeast Asia and beyond
