China John Kieschnick, 2022-07-29 Winner 2023 Toshihide Numata Book Award Numata Center for Buddhist Studies at the University of California Berkeley Since the early days of Buddhism in China monastics and laity alike have expressed a profound concern with the past In voluminous historical works they attempted to determine as precisely as possible the dates of events in the Buddha's life seeking to iron out discrepancies in varying accounts and pinpoint when he delivered which sermons Buddhist writers chronicled the history of the Dharma in China as well compiling biographies of eminent monks and nuns and detailing the rise and decline in the religion s fortunes under various rulers. They searched for evidence of karma in the historical record and drew on prophecy to explain the past John Kieschnick provides an innovative expansive account of how Chinese Buddhists have sought to understand their history through a Buddhist lens Exploring a series of themes in mainstream Buddhist historiographical works from the fifth to the twentieth century he looks not so much for what they reveal about the people and events they describe as for what they tell us about their compilers understanding of history Kieschnick examines how Buddhist doctrines influenced the search for the underlying principles driving history the significance of genealogy in Buddhist writing and the transformation of Buddhist historiography in the twentieth century This book casts new light on the intellectual history of Chinese Buddhism and on Buddhists understanding of the past Mystique of Transmission Wendi L. Adamek, 2007-05-15 The Mystique of Transmission is a close reading of a late eighth century Chan Zen Buddhist hagiographical work the Lidai fabao ji Record of the Dharma Jewel Through the Generations and is its first English translation The text is the only remaining relic of the little known Bao Tang Chan school of Sichuan and combines a sectarian history of Buddhism and Chan in China with an account of the eighth century Chan master Wuzhu in Sichuan Chinese religions scholar Wendi Adamek compares the Lidai fabao ji with other sources from the fourth through eighth centuries chronicling changes in the doctrines and practices involved in transmitting medieval Chinese Buddhist teachings While Adamek is concerned with familiar Chan themes like patriarchal genealogies and the ideology of sudden enlightenment she also highlights topics that make Lidai fabao ji distinctive formless practice the inclusion of female practitioners the influence of Daoist metaphysics and connections with early Tibetan Buddhism The Lidai fabao ji was unearthed in the early twentieth century in the Mogao caves at the Silk Road oasis of Dunhuang in northwestern China Discovery of the Dunhuang manuscripts has been compared with the discovery of the Dead Sea Scrolls as these documents have radically changed our understanding of medieval China and Buddhism A crucial volume for students and scholars The Mystique of Transmission offers a rare glimpse of a lost world and fills an important gap in the timeline of Chinese and Going Forth William M. Bodiford, 2005-01-31 In its role as a scriptural charter vinaya has justified Buddhist history widely dissimilar approaches to religious life as Buddhist orders in different times and places have interpreted it in contradictory ways In the resulting tension between scripture and practice certain kinds of ceremonial issues such as those involving lineage seniority initiation purification repentance visualization vows ordination acquire profound social

psychological doctrinal and soteriological significance in Buddhism Going Forth focuses on these issues over a wide sweep of history from early fifth century China to modern Japan to provide readers with a rich overview of the intersection of doctrinal ritual and institutional concerns in the development of East Asian Buddhist practices Despite the crucial importance of vinaya especially for understanding Buddhism in East Asia very little scholarship in Western languages exists on this fascinating topic The essays presented here written by senior scholars in the field go beyond the timeworn method of relying on prescriptive accounts in the scriptures to describe what imaginary Buddhists must have done or do Rather they address how actual people responded to local social and cultural imperatives by reading scripture in innovative ways to give new life to tradition They place real people practices and institutions at the center of each account revealing both diversity and unity continuity and transformation in Buddhist customs The result is a well integrated accessible work relevant for Buddhist studies but with wider implications for anyone interested in East Asian cultural heritage Contributors T H Barrett William Bodiford David W Chappell James C Dobbins Daniel A Getz Paul Groner John R McRae Morten Schl tter Nobuyoshi Yamabe Text to Tradition Deven M. Patel, 2014-01-07 Written in the twelfth century the Naisadhiyacarita The Adventures of Yifa Nala King of Nisadha is a seminal Sanskrit poem beloved by South Asian literary communities for nearly a millennium This volume introduces readers to the poem's author his reading communities the modes through which the poem has been read and used the contexts through which it became canonical its literary offspring and the emotional power it still holds for the culture that values it Text to Tradition privileges the intellectual affective and social forms of cultural practice that inform a region s people and institutions It also proposes a new way to conduct literary historiography understanding literary texts as traditions in their own right and emphasizing the various players and critical genres involved in their reception The book underscores the importance of the close study of individual works to building a history of literary cultures In addition it creates a groundbreaking model for approaching the study of other venerated South Asian texts Reimagining Zen in a Secular Age André van der Braak, 2020-08-03 In Reimagining Zen in a Secular Age Andr van der Braak offers an account of the exciting but also problematic encounter between enchanted Japanese Zen Buddhism and secular Western modernity over the past century using Charles Taylor's magnum opus A Secular Age as an interpretative lens As the tenuous compromises of various forms of Zen modernism are breaking down today new imaginings of Zen are urgently needed that go beyond both a Romantic mystical Zen and a secular mindfulness Zen As a Zen scholar practitioner Andr van der Braak shows that the Zen philosophy of the 13th century Zen master D gen offers much resources for new hermeneutical embodied non instrumental and communal approaches to contemporary Zen theory and practice in the West The Daśanāmī-Samnyāsīs Matthew Clark, 2006-06-01 This book provides an account of the organisation practices and history of the Da an m Sa ny s s one of the largest sects of s dhu s holy men in South Asia According to tradition the sect was founded by the legendary south Indian philosopher a kar c rya whose floruit was most probably around 700CE While the first three chapters of this book examine

the sect s organisation and its various branches the latter chapters explore its history This is the first full length study of the Da an m Sa ny s s to be published since the 1970s and will be particularly useful both for students of Hinduism and for readers with a particular interest in the religious history of mediaeval India
