A Transdisciplinary Study of Global Mobilities Eduardo Tasis Moratinos, Ti-han Chang, Alicia Moreno Giménez, 2024-12-31 Identities on the Move interrogates the categories given and adopted by people on the move through a transdisciplinary and global approach that includes social and political sciences and the arts It brings together experiences of displacement from a variety of cultural and national backgrounds including Brazilians Chinese Koreans South Italians Africans Muslims Arabophobe migrants Iranians Pakistanis Bosnians Latin Americans and Eastern Europeans It looks at their identity negotiating processes in different geographies across the globe namely Japan UK Palestine Italy Australia Europe and North America This multi geographical and multi disciplinary approach allows us to decentralise previous narratives of migration by reformulating them against coloniality and invisibility and presenting them within a richer and changing contemporary map of dynamic identities The global scale of the case studies included in this volume also allows for a wider exploration of thematic concepts within the trans formation of displaced identities such as assimilation versus alienation memory and trauma stigmatisation enculturation acculturation and deculturation In a nutshell this volume highlights current complexities of identity formation in a global scene that is moving away from homogenous nations by presenting a multi layered and multi spatial notion of belonging *En los senderos soñados de dos continentes* Máximo Nachumow, 1984
