Strangers in the South Seas Richard Lansdown,2006-04-30 Long before Magellan entered the Pacific in 1521 Westerners entertained ideas of undiscovered oceans mighty continents and paradisal islands at the far ends of the earth First set down by Egyptian storytellers Greek philosophers and Latin poets such ideas would have a long life and a deep impact in both the Pacific and the West With the discovery of Tahiti in 1767 another powerful myth was added to this collection the noble savage For the first time Westerners were confronted by a people who seemed happier than themselves This revolution in the human sciences was accompanied by one in the natural sciences as the region revealed gaps and anomalies in the great chain of being that Charles Darwin would begin to address after his momentous visit to the Galapagos Islands The Pacific produced similar challenges for nineteenth century researchers on race and culture and for those intent on exporting their religions to this immense quarter of the globe Although most missionary efforts ultimately met with success others ended in ignominious retreat As the century wore on the region presented opportunities and dilemmas for the imperial powers leading to a guilty desire on the part of some to pull out along with an equally guilty desire on the part of others to stay and help This process was accelerated by the Pacific War between 1941 and

1945 After more than two millennia of fantasies the story of the West's fascination with the insular Pacific graduated to a marked sense of disillusion that is equally visible in the paintings of Gauguin and the journalism of the nuclear Pacific Strangers in the South Seas recounts and illustrates this story using a wealth of primary texts It includes generous excerpts from the work of explorers soldiers naturalists anthropologists artists and writers some famous some obscure It begins in 1521 with an account of Guam by Antonio Pigafetta one of the few men to survive Magellan's circumnavigation voyage and ends in the late 1980s with the writing of an American woman Joana McIntyre Varawa as she faces the personal and cultural insecurities of marriage and settlement in Fiji It shows how the Great South Sea has been an irreplaceable distant mirror of the West and its intellectual obsessions since the Renaissance Comprehensively illustrated and annotated this anthology will introduce readers to a region central to the development of modern Western ideas This is a carefully conceived anthology covering an excellent range of subjects The selections are well chosen and interesting and the introductory materials are both scholarly and accessible It should be widely used in university courses dealing with almost any aspect of the Pacific

Chappell, 2016-09-16 This narrative recounts the 18th and 19th century shipping out of Pacific islanders aboard European and American vessels a kind of counter exploring that echoed the ancient voyages of settlement of their island ancestors *Preserving the Self in the South Seas, 1680-1840* Jonathan Lamb, 2001-06-15 The violence wonder and nostalgia of voyaging are nowhere more vivid than in the literature of South Seas exploration Preserving the Self in the South Seas charts the sensibilities of the lonely figures that encountered the new and exotic in terra incognita Jonathan Lamb

introduces us to the writings of South Seas explorers and finds in them unexpected and poignant tales of selves alarmed and transformed Lamb contends that European exploration of the South Seas was less confident and mindful than we have assumed It was instead conducted in moods of distraction and infatuation that were hard to make sense of and difficult to narrate and it prompted reactions among indigenous peoples that were equally passionate and irregular Preserving the Self in the South Seas also examines these common crises of exploration in the context of a metropolitan audience that eagerly consumed narratives of the Pacific while doubting their truth Lamb considers why these halting and incredible journals were so popular with the reading public and suggests that they dramatized anxieties and bafflements rankling at the heart of commercial society

Ireland's Farthest Shores Malcolm Campbell,2022-01-20 Irish people have had a long and complex engagement with the lands and waters encompassing the Pacific world As the European presence in the Pacific intensified from the late eighteenth century the Irish entered this oceanic space as beachcombers missionaries traders and colonizers During the nineteenth century economic distress in Ireland and rapid

population growth on the Pacific Ocean's eastern and western shores set in motion large scale migration that exerted a deep political social and economic impact across the Pacific. Malcolm Campbell examines the rich history of Irish experiences on land and at sea offering new perspectives on migration and mobility in the Pacific world and of the Irish role in the establishment and maintenance of the British Empire. This volume investigates the extensive transnational connections that developed among Irish immigrants and their descendants across this vast and unique oceanic space ties that illuminate how the Irish participated in the making of the Pacific world and how the Pacific world made them.

My Cow Comes to Haunt Me Norman Simms, 1995-03-28

This book addresses the history of mentalities psychohistory and the history of colonialist discourses. For those interested in the development of Third World and of post colonialist cultures the book offers a new set of insights and methodologies. My cow comes to haunt me said the bush widow in Tasmania in the early 1830s and the men out on the fringes of empire who listened journalist historian and traveller smugly laughed at her ignorance and superstition. The colonial encounter between European and non European takes place on and in the fringes of two or more cultures. They encounter words dialectically playing off different forms of power and with ramifications in several directions. My Cow Comes to Haunt Me focuses on the problem of colonial discourses and especially the *topos* of the first encounter within the algebra of history of mentalities and does so with an optic that includes the European intrusion into the Pacific islands.

Texts and Contexts Doug Munro, Brij V. Lal, 2005-11-30

Texts and Contexts is concerned with the development of Pacific Islands history as a specialization in its own right. Specifically this volume examines the foundational texts that pioneered and consolidated the new subdiscipline and served as the building blocks and stepping stone for further developments in the field. Thirty five texts all of which represent defining points in the development of Pacific Islands historiography are examined. Much more than retrospective appraisals of the foundational texts the individual chapters consider a text or complimentary texts within the context of the time of writing and gauge what ongoing influence they exerted. In some cases they suggest how a particular text has been superseded by subsequent work that breaks new conceptual ground in the ongoing process of revisionism.
