Monopoly Mail:

Saving the Mail R. Richard Geddes,Rick Geddes,2003 A comprehensive overview of the U S Postal Service its organization and its performance since its creation by the 1970 Postal Reorganization Act   *Postal and Delivery Services* Michael A. Crew,Paul R. Kleindorfer,2013-12-01 When Postmaster General Creswell penned his concern about the impact 2 of electronic diversion on his postal organization the year was 1872 General Creswell it turned out fretted unnecessarily Facsimile did not achieve commercial viability until roughly a century after his tenure as Postmaster General and today that technology is fading rapidly from the communication scene Moreover it never appears to have significantly affected physical letter volumes However if General Creswell were leading a major postal organization today he likely would feel threatened by the potential of Internet communication to cause electronic diversion of physical mail Should recent technology developments cause the oft predicted but so far incorrect inflection point that would mark the beginning of declining mail volumes the implications from a management standpoint will be profound The relatively fixed nature of postal costs suggest that volume declines must be offset though improved productivity reduced cost of inputs revenue from new products that share common costs or reduced level of universal service   HR 461, Closing of Lorton Correctional Complex United States. Congress. House. Post Office and Civil Service Committee,1973   **Official Gazette** Philippines,1976   *Federal Register* ,1976-08   *The Official History of Privatisation, Vol. II* David Parker,2013-06-19 This is Volume II of Professor Parker s authoritative Official History of Privatisation covering the period from the re election of Margaret Thatcher in 1987 to the election of Tony Blair in 1997 Volume II considers in detail several of the major privatisations including those of airports steel water electricity coal and the railways as well as a number of smaller ones Each privatisation involved major challenges in terms of industrial restructuring organising successful sales and in a number of cases establishing effective regulatory regimes The policy evolved and new methods of selling and regulating were put in place that enabled further disposals to occur Monolithic nationalised industries with their emphasis on the benefits of economies of scale vertical integration and rationalisation were replaced by industrial structures rooted in the importance of commercial management risk taking and competition In government departments and

parts of the National Health Service direct employees were replaced by private contractors and private investment became a characteristic of public infrastructure in the form of PFI PPP schemes This study draws heavily on the official records of the British government to which the author was given full access and on interviews with the leading figures involved in each of the privatisations including ex ministers civil servants business and City figures as well as academics that have studied the subject This book will of great interest to students of privatisation British political history and of business and economics in general   *The Politics of Plunder* Doug Bandow,1990-01-01 This slashing critique charges that the federal government and interest groups have badly mismanaged the political process for private ends Transcending conventional ideologies Bandow sees the root of the problem as our failure to honor the Founding Fathers intention to establish a limited government with severely circumscribed powers in all areas People abuse power it is human nature Only limited state authority will keep the political process from disintegrating into petty fighting among factions each competing for its own limited self interest The demise of the original restraints has created an overgrown federal government that is ever more wasteful inefficient and unjust Doug Bandow spares no sacred cows He considers state interference in the free market responsible for an ethic of legalized theft which allows interest groups to use the state to enrich themselves through subsidies competitive restrictions and other protectionist measures He sees a judiciary that has aided the other branches of government in manipulating human conduct and restricting personal freedom for both liberal and conservative reasons And in foreign policy he sees the development of an interventionist consensus whereby Washington attempts to remake foreign nations in its image through military intervention and foreign aid with disastrous results The Politics of Plunder is written by an insider who combines theoretical and analytical skill with practical political experience Bandow served in the most conservative administration of recent years yet freely criticizes the nostrums of the Right He is an evangelical Christian yet dislikes the tactics of the Religious Right His unique background campaign worker lawyer presidential aide magazine editor policy analyst and journalist enables him to go far beyond the usual Washington commentary Bandow s objective is to develop a new political perspective that transcends both conservative and liberal boundaries and emphasizes individual liberty skepticism of state power and tolerance of others Those interested in the world of ideas will find this an accessible practical guide to libertarian thought Those interested in the world of public policy will find here a detailed discussion of scores of recent controversies
