A Bibliography of the Monroe Doctrine 1919-1929 Phillips Bradley, 1929 **The American Union and the Problem of Neighborhood** James E. Lewis Jr., 2000-11-09 In this book James Lewis demonstrates the centrality of American ideas about and concern for the union of the states in the policymaking of the early republic For four decades after the nation's founding in the 1780s he says this focus on securing a union operated to blur the line between foreign policies and domestic concerns Such leading policymakers as Thomas Jefferson James Madison James Monroe John Quincy Adams and Henry Clay worried about the challenges to the goals of the Revolution that would arise from a hostile neighborhood whether composed of new nations outside the union or the existing states following a division of the union At the center of Lewis's story is the American response to the dissolution of Spain's empire in the New World from the transfer of Louisiana to France in 1800 to the independence of Spain's mainland colonies in the 1820s The breakup of the Spanish empire he argues presented a series of crises for the unionist logic of American policymakers leading them finally to abandon a crucial element of the distinctly American approach to international relations embodied in their own federal union **Neighborly**

List of References on the History of the United States Thomas Powderly Martin,1924 **The World Colonization Made** Brandon Mills,2020-10-23 According to accepted historical wisdom the goal of the African Colonization Society ACS founded in 1816 to return freed slaves to Africa was borne of desperation and illustrated just how intractable the problems of race and slavery had become in the nineteenth century United States But for Brandon Mills the ACS was part of a much wider pattern of national and international expansion Similar efforts on the part of the young nation to create in Thomas Jefferson s words an empire of liberty spanned Native removal the annexation of Texas and California filibustering campaigns in Latin America and American missionary efforts in Hawaii as well as the founding of Liberia in 1821 Mills contends that these diverse currents of U S expansionism were ideologically linked and together comprised a capacious colonization movement that both reflected and shaped a wide range of debates over race settlement citizenship and empire in the early republic The World Colonization Made chronicles the rise and fall of the colonization movement as a political force within the United States from its roots in the crises of the Revolutionary era to its peak with the creation of the ACS to its ultimate decline with emancipation and the Civil War The book interrogates broader issues of U S expansion including the progression of federal Indian policy the foundations and effects of the Monroe Doctrine and Manifest Destiny and the growth of U S commercial and military power throughout the Western hemisphere By contextualizing the colonization movement in this way Mills shows how it enabled Americans to envision a world of self governing republics that harmonized with racial politics at home **Master American History in 1 Minute A Day** Dan Roberts,2019-05-01 Become a US trivia whiz with
