*Searching for Dignity* John Claassens, Leslie Swartz, Len Hansen, 2013-08-01 This publication fills a unique gap in the theological and religious engagement with the issue of human disability in South Africa Combining the contributions of scholars practitioners and people living with disabilities it stands

out for the way in which it promotes an interdisciplinary debate on disability and human dignity from a theological point of departure and interest. The end result is a collective effort with a critical approach to the role of religion and the Christian faith tradition in particular in the social and life worlds of people living with disabilities. A forceful argument is thus constructed about ways in which religion and the Christian faith tradition should change their own discourses, practices and ideological presuppositions regarding the issue of human disability.
