Anomalies and Curiosities of Medicine Walter L. Pyle,2015-11-23 Menstruation has always been of interest not only to the student of medicine but to the lay observer as well In olden times there were many opinions concerning its causation all of which until the era of physiologic investigation were of superstitious derivation Believing menstruation to be the natural means of exit of the feminine bodily impurities the ancients always thought a menstruating woman was to be shunned her very presence was deleterious to the whole animal economy as for instance among the older writers we find that Pliny remarks On the approach of a woman in this state must will become sour seeds which are touched by her become sterile grass withers away garden plants are parched up and the fruit will fall from the tree beneath which she sits He also says that the menstruating women in Cappadocia were perambulated about the fields to preserve the vegetation from worms and caterpillars According to Flemming menstrual blood was believed to be so powerful that the mere touch of a menstruating woman would render vines and all kinds of fruit trees sterile Among the indigenous Australians menstrual superstition was so intense that one of the native blacks who discovered his wife lying on his blanket during her menstrual period killed her and died of terror himself in a fortnight Hence Australian women during this season are forbidden to touch anything that men use Aristotle said that the very look of a menstruating woman would take the polish out of a mirror and the next person looking in it would be bewitched Frommann mentions a man who said he saw a tree in Goa which withered because a catamenial napkin was hung on it Bourke remarks that the dread felt by the American Indians in this respect corresponds with the particulars recited by Pliny Squaws at the time of menstrual purgation are obliged to seclude themselves and in most instances to occupy isolated lodges and in all tribes are forbidden to prepare food for anyone save themselves It was believed that were a menstruating woman to step astride a rifle a bow or a lance the weapon would have no utility Medicine men are in the habit of making a protective clause whenever they concoct a medicine which is to the effect that the medicine will be effective provided that no woman in this condition is allowed to approach the tent of the official in charge Anomalies and

Comic Drunks, Crazy Cults, and Lovable Monsters David Scott Diffrient,2022-12-01 Contradictory to its core the sitcom an ostensibly conservative tranquilizing genre has a long track record in the United States of tackling controversial subjects with a fearlessness not often found in other types of programming But the sitcom also conceals as much as it reveals masking the rationale for socially deviant or deleterious behavior behind figures of ridicule whose motives are rarely disclosed fully over the course of a thirty minute episode Examining a broad range of network and cable TV shows across the history of the medium from classic working class comedies such as The Honeymooners All in the Family and Roseanne to several contemporary cult series animated programs and online hits that have yet to attract much scholarly attention this book explores the ways in which social imaginaries related to bad behavior have been humorously exploited over the years The repeated appearance of socially wayward figures on the small screen from raging alcoholics to brainwashed cult members to actual monsters who are merely exaggerated versions of our own inner demons has the dual effect of reducing complex individuals to recognizable types while neutralizing the presumed threats that they pose Such representations not only provide strangely comforting reminders that badness is a cultural construct but also prompt audiences to reflect on their own unspoken proclivities for antisocial behavior if only in passing The Edinburgh Encyclopaedia ,1832 *Mummy Movies* Bryan Senn,2024-01-15 In 1932 The Mummy starring Boris Karloff introduced another icon to the classic monster pantheon beginning a journey down the cinematic Nile that has yet to reach its end Over the past century movie mummies have met everyone from Abbott and Costello to Tom Cruise not to mention a myriad of fellow monsters Horrifying and mysterious the mummy comes from a different time with uncommon knowledge and unique motivation offering the lure of the exotic as well as the terrors of the dark From obscure no budgeters to Hollywood blockbusters the mummy has featured in films from all over the globe including Brazil China France Hong Kong India Mexico and even its fictional home country of Egypt with each film bringing its own cultural sensibilities Movie mummies have taken the form of teenagers superheroes dwarves kung fu fighters Satanists cannibals and even mummies from outer space Some can fly some are sexy some are scary and some are hilarious and mummies quickly moved beyond horror cinema and into science fiction comedy romance sexploitation and cartoons From the Universal classics to the Aztec Mummy series from Hammer s versions to Mexico s Guanajuato variations this first ever comprehensive guide to mummy movies offers in depth production histories and critical analyses for every
