Practising Reform in Montaigne's Essais Dorothea B. Heitsch, 2000 This volume permits a new approach to Montaigne's essays from the point of view of the art of writing and style Its particular hermeneutic position which distinguishes it from other investigations is that Nietzsche is used as a mediator

Vanities of the Eye Stuart Clark, 2009-01-15 Vanities of the Eye investigates the cultural history of the senses in early modern Europe a time in which the nature and reliability of human vision was the focus of much debate In medicine art theory science religion and philosophy sight came to be characterised as uncertain or paradoxical mental images no longer resembled the external world Was seeing really believing Stuart Clark explores the controversial debates of the time from the fantasies and hallucinations of melancholia to the illusions of magic

art demonic deceptions and witchcraft The truth and function of religious images and the authenticity of miracles and visions were also questioned with new vigour affecting such contemporary works as Macbeth a play deeply concerned with the dangers of visual illusion Clark also contends that there was a close connection between these debates and the ways in which philosophers such as Descartes and Hobbes developed new theories on the relationship between the real and virtual Original highly accessible and a major contribution to our understanding of European culture Vanities of the Eye will be of great interest to a wide range of historians and anyone interested in the true nature of seeing *Montaigne's English Journey* William M. Regosin, 2023-04-28 Perhaps as old as writing itself the metaphor of the book as child has depicted textuality as an only son conceived to represent its father uniformly and to assure the integrity of his name Richard L. Regosin demonstrates how Montaigne's Essais both departs from and challenges this conventional figure of textuality He argues that Montaigne's writing is best described as a corpus of siblings with multiple faces and competing voices a hybrid textuality inclined both to truth and dissimulation to faithfulness and betrayal to form and deformation And he analyzes how this unruly mixed brood also discloses a sexuality and gender

dynamic in the *Essais* that is more conflicted than the traditional metaphor of literary paternity allows Regosin challenges traditional critics by showing how the logic of a faithful filial text is disrupted and how the writing self displaces the author's desire for mastery and totalization. He approaches the *Essais* from diverse critical and theoretical perspectives that provide new ground for understanding both Montaigne's complex textuality and the obtrusive reading that it simultaneously invites and resists. His analysis is informed by poststructuralist criticism, by reception theory and by gender and feminist studies yet at the same time he treats the *Essais* as a child of sixteenth-century Humanism and late Renaissance France. Regosin also examines Montaigne's self-proclaimed taste for Ovid and the role played by the seminal texts of self-representation and aesthetic conception: Narcissus and Pygmalion and the myth of sexual metamorphosis. *Iphis*. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. The Performance of Nobility in Early Modern European Literature David M. Posner, 1999-11-04 This valuable study illuminates the idea of nobility as display as public performance in Renaissance and seventeenth-century literature and society. Ranging widely from Castiglione and French courtesy manuals through Montaigne and Bacon to the literature of the Grand Siècle, David Posner examines the structures of public identity in the period. He focuses on the developing tensions between, on the one hand, literary or imaginative representations of nobility and on the other, the increasingly problematic historical position of the nobility themselves. These tensions produce a transformation in the notion of the noble self as a performance and eventually doom court society and its theatrical mode of self-presentation. Situated at the intersection of rhetorical and historical theories of interpretation, this book contributes significantly to our understanding of the role of literature both in analysing and in shaping social identity.

Erotics of Friendship Marc D. Schachter, 2016-12-05 Focusing primarily on three early modern French authors, this book explores the erotics and politics of voluntary servitude in classical antiquity and the early modern period. These authors: *tienne de La Boétie*, Michel de Montaigne and Marie de Gournay pursue related inquiries into voluntary servitude and self-control in marriage, friendship, pederasty and politics. Marc Schachter shows how Montaigne's intimate textual relationship with La Boétie provides him the opportunity to honor his beloved friend while transforming many of his ideas. Similarly, Marie de Gournay's editorial voluntary servitude to Montaigne provides her the occasion to authorize her own practice as a woman.

author and to engage critically with Montaigne's ideas even as she celebrates her friendship with him. Schachter's analyses are pursued particularly through the lens of Michel Foucault's concept of governmentality which like voluntary servitude operates on three interrelated scales: self control, control in interpersonal relationships and political control. Schachter argues that thinking about the function of voluntary servitude through the lens of governmentality leads to a more nuanced understanding both of Foucault's late work and of the transformational possibilities offered by friendship and voluntary servitude in early modern France.

Les spectateurs de la vie: généalogie du regard moraliste Louis Van Delft, 2014-05-01T00:00:00-04:00 Les XVI^e, XVII^e et XVIII^e siècles représentent l'âge d'or des philosophes de la vie. Ce n'est fini de toute cohésion pressent non sans angoisse John Donne.
