## **Montesquieu Revisited:**

Montesquieu's Science of Politics David W. Carrithers, Michael A. Mosher, Paul A. Rahe, 2000-12-20 Montesquieu's *The Spirit of Laws* is one of a handful of classic works of political philosophy deserving a fresh reading every generation. The product of immense erudition, Montesquieu's treatise has captured since its first printing in 1748 the imagination of an impressive array of intellectuals including Rousseau, Voltaire, Beccaria, Madison, Hamilton, Jefferson, Herder, Sieyès, Condorcet, Robespierre, Bentham, Burke, Constant, Hegel, Tocqueville, Emile Durkheim, Raymond Aron, and Hannah Arendt. In what constitutes the only English language collection of essays ever dedicated to the analysis of Montesquieu's contributions to political science, the contributors review some of the most vexing controversies that have arisen in the interpretation of Montesquieu's thought. By paying careful attention to the historical, political, and philosophical contexts of Montesquieu's ideas, the contributors provide fresh readings of *The Spirit of Laws*, clarify the goals and ambitions of its author, and point out the pertinence of his thinking to the problems of our world today.

The Concert of Civilizations Jeremy Kleidosty, 2016-03-09 Are Western and Islamic political and constitutional ideas truly predestined for civilizational clash? In order to understand this controversy, *The Concert of Civilizations* begins by deriving and redefining a definition of constitutionalism that is suitable for comparative cross-cultural analysis. The rule of law, reflection of national character, and the clear delineation and limitation of governmental power are used as lenses through which thinkers like Cicero, Montesquieu, and the authors of *The Federalist Papers* can be read alongside al-Farabi, Ibn Khaldun, and the Ottoman Tanzimat decrees. Bridging the civilizational divide is a chapter comparing the Magna Carta with Muhammad's Constitution of Medina, as both documents can be seen as foundational within their traditions. For the first time in political theory, this text also provides a sustained, detailed analysis of Khayr al-Din al-Tunisi's book *The Surest Path*, which explains his fusion of Muslim and Western ideas in his writing of Tunisia's first modern constitution, which is also the first constitution for a majority Muslim state. Finally, the book discusses the Arab Spring through a brief overview of the revolutions in Egypt, Libya, and Tunisia, and offers some early thoughts about Tunisia's uniquely successful revolution.

**Montesquieu's Liberalism and the Problem of Universal Politics** Keegan Callanan, 2018-08-23 *Snowflakes*, a series of eight readers for students of classes 1 to 8, is meant primarily to inculcate in children a love for reading as well as appropriate reading skills. Just as each individual snowflake is unique, the content of the series is unique in terms of its literary, linguistic, and pedagogical merit. The selections include a wide range of stories, poems, prose pieces, plays, and excerpts which have been collated from both classic and contemporary sources. Care has been taken to ensure that they expose students to diverse genres and socio-cultural contexts.

Orientalism and Islam Michael Curtis, 2009-06-08 Through an historical analysis of the theme of Oriental despotism, Michael Curtis reveals the complex positive and negative interaction between Europe and the Orient. The book also criticizes the misconception that the Orient was the constant victim of Western imperialism and the view that

Westerners cannot comment objectively on Eastern and Muslim societies The book views the European concept of Oriental despotism as based not on arbitrary prejudicial observation but rather on perceptions of real processes and behavior in Eastern systems of government Curtis considers how the concept developed and was expressed in the context of Western political thought and intellectual history and of the changing realities in the Middle East and India The book includes discussion of the observations of Western travelers in Muslim countries and analysis of the reflections of six major thinkers Montesquieu Edmund Burke Tocqueville James and John Stuart Mill Karl Marx and Max Weber *The Oxford Handbook of Comparative Constitutional Law* Michel Rosenfeld, András Sajó, 2012-05-17 The field of comparative constitutional law has grown immensely over the past couple of decades Once a minor and obscure adjunct to the field of domestic constitutional law comparative constitutional law has now moved front and centre Driven by the global spread of democratic government and the expansion of international human rights law the prominence and visibility of the field among judges politicians and scholars has grown exponentially Even in the United States where domestic constitutional exclusivism has traditionally held a firm grip use of comparative constitutional materials has become the subject of a lively and much publicized controversy among various justices of the U S Supreme Court The trend towards harmonization and international borrowing has been controversial Whereas it seems fair to assume that there ought to be great convergence among industrialized democracies over the uses and functions of commercial contracts that seems far from the case in constitutional law Can a parliamentary democracy be compared to a presidential one A federal republic to a unitary one Moreover what about differences in ideology or national identity Can constitutional rights deployed in a libertarian context be profitably compared to those at work in a social welfare context Is it perilous to compare minority rights in a multi ethnic state to those in its ethnically homogeneous counterparts These controversies form the background to the field of comparative constitutional law challenging not only legal scholars but also those in other fields such as philosophy and political theory Providing the first single volume comprehensive reference resource the Oxford Handbook of Comparative Constitutional Law will be an essential road map to the field for all those working within it or encountering it for the first time Leading experts in the field examine the history and methodology of the discipline the central concepts of constitutional law constitutional processes and institutions from legislative reform to judicial interpretation rights and emerging trends **The Riddle of the Modern World** A. Macfarlane, 2000-07-11 What conditions the chances of liberty wealth and equality at the start of the third Christian millennium Why did human civilizations develop so slowly for thousands of years and then transform themselves during the last three hundred This study of four great thinkers who lived between 1689 and 1995 Montesquieu Adam Smith De Tocqueville and Ernest Gellner weaves their lives and works together and through their own words shows how they approached the question of the nature of man his past and his future **Not Quite Supreme** Dennis Baker, 2010 A critique of the Supreme Court of Canada s power and a defence of Parliament s role in constitutional interpretation **The Rights**

**of Strangers** Georg Cavallar, 2017-07-05 This study investigates the thinking of European authors from Vitoria to Kant about political justice the global community and the rights of strangers as one special form of interaction among individuals of divergent societies political communities and cultures Taking an interdisciplinary approach it covers historical material from a predominantly philosophical perspective interpreting authors who have tackled problems related to the rights of strangers under the heading of international hospitality Their analyses of the *civitas maxima* or the *societas humani generis* covered the nature of the global commonwealth Their doctrines of natural law *ius naturae* were supposed to provide what we nowadays call theories of political justice The focus of the work is on international hospitality as part of the law of nations on its scope and justification It follows the political ideas of Francisco de Vitoria and the Second Scholastic in the 16th century of Alberico Gentili Hugo Grotius Samuel Pufendorf Christian Wolff Emer de Vattel Johann Jacob Moser and Immanuel Kant It draws attention to the international dimension of political thought in Thomas Hobbes John Locke Jean Jacques Rousseau David Hume Adam Smith and others This is predominantly a study in intellectual history which contextualizes ideas but also emphasizes their systematic relevance Research Handbook on the History of Political Thought Cary J.

Nederman, Guillaume Bogiaris, 2024-06-05 This insightful Handbook reviews the key frameworks guiding political scientists and historians of political thought Comprehensive in scope it covers historical methodology traditions epochs and classic authors and texts spanning from ancient Greece until the nineteenth century **The Art of the Persian Letters** Randolph Runyon, 2005 Readers of Montesquieu will through this study discover a new Persian Letters as the exquisite subtlety of its construction is laid bare for the first time It should find a new appreciation as a work of art and not merely as a precursor to the author's *Of the Spirit of the Laws* The Letters will henceforth be read in the light of similarly composite texts from Montaigne's *Essays* to Baudelaire's *Fleurs du mal* Jacket **The Masks of Proteus** Philip Resnick, 1997-06-05 In this

collection of twelve essays Philip Resnick provides a comparative perspective on the modern state arguing that the power of the state like the mythological god Proteus takes many different forms and cannot be revealed by any single discipline He delves into political theory political economy and political sociology as well as examining a number of isms important to any treatment of the modern state The Unintended Destruction of the Human Race Alex Roberto Hybel, 2024-09-11 Through a sweeping historical narrative spanning centuries Hybel traces the evolution of human civilization from the dawn of the Renaissance to the digital age Drawing upon diverse disciplines including history politics religion economics and environmental science Hybel reveals how each successive wave of technological innovation economic growth and individual political and economic freedom has fueled a destructive cycle of consumerism exploitation and ecological degradation At the heart of this book lies a stark warning our addiction to growth and consumption is driving us inexorably towards our own demise Hybel argues that our unwavering faith in the virtues of capitalism democracy and technological advancement has blinded us to the existential threats facing our planet and our species But Hybel offers more than a critique of the status quo

he presents a compelling case for radical transformation By interrogating the intertwined forces of technology capitalism and individualism Hybel challenges readers to confront the uncomfortable truths at the root of our collective predicament

**The Idea of Liberty in Canada during the Age of Atlantic Revolutions, 1776-1838** Michel Ducharme,2014-09-01 In Idea of Liberty in Canada during the Age of Atlantic Revolutions 1776 1838 Michel Ducharme shows that Canadian intellectual and political history between the American Revolution and the Upper and Lower Canada rebellions of 1837 38 can be better understood by considering it in relation to the broad framework of revolution in the Atlantic world between 1776 and 1838 Inspired by intellectual histories of the Atlantic world Ducharme goes beyond the scholarly focus on Atlantic republicanism to present the rebellions of 1837 38 as a confrontation between two very different concepts of liberty He uses these concepts as lenses through which to read colonial ideological conflict Ducharme traces political discourse in both colonies showing how the differing fates and influence of republican and constitutional notions of liberty affected state development He also pursues a number of important revisionist historical claims including the idea that nationalist politics were not at issue in the period and that responsible government was never a Patriote party platform or interest Taking a wider view allows Ducharme to provide a solid understanding of the ideological substance of political conflict and shows that starting in 1791 Canadian colonial political culture revolved around an ideal of liberty that differed from the liberty at work within the revolutionary movements of the late eighteenth century but was nonetheless born of the Enlightenment 2012 ,2013-03-01 Particularly in the humanities and social sciences festschrifts are a popular forum for discussion The IJBF provides quick and easy general access to these important resources for scholars and students The festschrifts are located in state and regional libraries and their bibliographic details are recorded Since 1983 more than 659 000 articles from more than 30 500 festschrifts published between 1977 and 2011 have been catalogued *Canada's Origins* Janet Ajzenstat,1995-11-15 Ajzenstat and Smith challenge the idea of Canada as a country whose liberal individualism unlike that of the United States is redeemed by a tradition of government intervention in economic and social life the so called tory touch This ground breaking book begins with the now classic article in which the red tory view was formulated It then presents a new and illuminating picture of Canadian political life in which liberal individualism confronts not toryism but the participatory tradition of civic republicanism In the final section the two editors one a liberal the other a civic republican debate the crucial questions dominating Canadian politics today including Quebec s search for recognition from the perspective of their shared understanding of Canada s founding **The Facts on File Companion to the French Novel** Karen L. Taylor,2006 French novels such as Madame Bovary and The Stranger are staples of high school and college literature courses This work provides coverage of the French novel since its origins in the 16th century with an emphasis on novels most commonly studied in high school and college courses in world literature and in French culture and civilization

**Multiculturalism and the Canadian Constitution** Stephen J. Tierney,2011-11-01 Together the strands of Canada s

diversity tell a complex story of pluralism consolidated through a long and incremental period of constitution building This book brings together scholars of cultural diversity to address key components of the changing Canadian story the evolution over time of multiculturalism within Canadian constitutional law and policy the territorial dimension of Canadian federalism and the role of constitutional interpretation by the courts in the development of Canada as a multicultural state The essays illustrate how deeply multiculturalism is woven into the fabric of the Canadian constitution and the everyday lives of Canadians

**Liberalism with Honor** Sharon R. Krause, 2002-04-15 Why do men and women sometimes risk everything to defend their liberties What motivates principled opposition to the abuse of power In *Liberalism with Honor* Sharon Krause explores honor as a motive for risky and difficult forms of political action She shows the sense of honor to be an important source of such action and a spring of individual agency more generally Krause traces the genealogy of honor including its ties to conscientious objection and civil disobedience beginning in old regime France and culminating in the American civil rights movement She examines the dangers intrinsic to honor and the tensions between honor and modern democracy but demonstrates that the sense of honor has supported political agency in the United States from the founders to democratic reformers such as Elizabeth Cady Stanton and Martin Luther King Jr Honor continues to hold interest and importance today because it combines self concern and personal ambition with principled higher purposes and so challenges the disabling dichotomy between self interest and self sacrifice that currently pervades both political theory and American public life

**The Spirit of Democracy** Sofia Näsström, 2021 This book develops a new theoretical framework for studying the corruption disintegration and renewal of democracy what it is how it begins and where in society it plays out Näsström argues that modern democracy is a sui generis political form animated and sustained by a spirit of emancipation
