Montesquieu's Philosophy Of Liberalism A Commentary On The Spirit Of The Laws

Ann Ward

Montesquieu's Philosophy Of Liberalism A Commentary On The Spirit Of The Laws:

Montesquieu's Philosophy of Liberalism Thomas L. Pangle, 1989-07-15 This first comprehensive commentary on *The Spirit of the Laws* uncovers and explicates the plan of Montesquieu's famous but baffling treatise Pangle brings to light Montesquieu's rethinking of the philosophical groundwork of liberalism showing how *The Spirit of the Laws* enlarges and enriches the liberal conception of natural right by means of a new appeal to History as the source of basic norms

Montesquieu's 'The Spirit of the Laws', 2024-02-06 *The Spirit of the Laws* not only systematizes the foundational ideas of separation of powers and balances and checks it provides the decisive response to the question of whether power in the nation state can be limited in the aftermath of the Westphalian settlement of 1648 It describes a civilizational change through which power becomes domesticated with built in resistance to attempts to absolutize or make total political power As such it is the Bible of modern politics now made more accessible to English readers than it ever has been *On the Rule of Law* Brian Z. Tamanaha, 2004-11-18 The rule of law is the most important political ideal today yet there is much confusion about what it means and how it works This 2004 book explores the history politics and theory surrounding the rule of law ideal beginning with classical Greek and Roman ideas elaborating on medieval contributions to the rule of law and articulating the role played by the rule of law in liberal theory and liberal political systems The author outlines the concerns of Western conservatives about the decline of the rule of law and suggests reasons why the radical Left have promoted this decline Two basic theoretical streams of the rule of law are then presented with an examination of the strengths and weaknesses of each The book examines the rule of law on a global level and concludes by answering the question of whether the rule of law is a universal human good **The Language of Law and the Foundations of American**

Constitutionalism Gary L. McDowell, 2010-06-28 Argues that the Founders intended the Constitution to be interpreted according to the text's meaning and its framers original intentions [The Theological Basis of Liberal Modernity in](#)

[Montesquieu's "Spirit of the Laws"](#) Thomas L. Pangle, 2010-05-15 *The Spirit of the Laws* Montesquieu's huge complex and enormously influential work is considered one of the central texts of the Enlightenment laying the foundation for the liberally democratic political regimes that were to embody its values In his penetrating analysis Thomas L Pangle brilliantly argues that the inherently theological project of Enlightenment liberalism is made more clearly and more consequentially in *Spirit* than in any other work In a probing and careful reading Pangle shows how Montesquieu believed that rationalism through the influence of liberal institutions and the spread of commercial culture would secularize human affairs At the same time Pangle uncovers Montesquieu's views about the origins of humanity's religious impulse and his confidence that political and economic security would make people less likely to sacrifice worldly well being for otherworldly hopes With the interest in the theological aspects of political theory and practice showing no signs of diminishing this book is a timely and insightful contribution to one of the key achievements of Enlightenment thought *The Spirit of Montesquieu's Persian Letters*

Constantine Christos Vassiliou, Jeffrey Church, Alin Fumurescu, 2023-05-08 This book's primary purpose is to commemorate the 300th anniversary of Montesquieu's *Persian Letters* a seminal book in classical liberal thought *Persian Letters* is a delightfully rich sympathetic satire of commercial society's promise and discontents covering a wide range of issues and themes that shaped the direction of liberal modernity It consists of a series of letters largely written by two Persian travelers to Paris who allow modern readers to view Parisian life from the perspective of an outsider The volume includes contributions from prominent scholars of Montesquieu's and early career scholars who have recently unearthed new and exciting avenues for understanding this important hinge figure in modern political thought *Handbook of the History of the Philosophy of Law and Social Philosophy* Gianfrancesco Zanetti, Mortimer Sellers, Stephan Kirste, 2023-04-03 This Handbook discusses representative philosophers in the history of the philosophy of law and social philosophy giving clear concise expert definitions and explanations of key personalities and their ideas It provides an essential reference for experts and newcomers alike

Montesquieu's Comparative Politics and the Spirit of American Constitutionalism Anne M. Cohler, 2021-10-08 American republicans notes Forrest McDonald regarded selected doctrines of Montesquieu's as being virtually on par with Holy Writ But exactly how the French jurist's labyrinthine work *The Spirit of the Laws* with was published in 1748 influenced the eighteenth century conception of the republic is not well understood by historians or theorists Anne M Cohler undertakes to show the importance of Montesquieu's teaching for modern legislation and for modern political prudence generally with specific reference to his impact on the Federalist and Tocqueville In so doing she delineates Montesquieu's contribution to political philosophy and suggests new ways to think about the formation of the American Constitution To analyze the comparative politics found in the *Spirit of the Laws* Cohler focuses on four fundamental principles underlying Montesquieu's view of government spirit moderation liberty and legislation In this endeavor she is guided by the conviction that the philosopher hews to the spirit of the laws rather than to the laws themselves that is to internal rather than external principles Montesquieu in Cohler's argument addresses the problem posed by the tendency to see human beings in light of universal abstractions at the expense of particular relationships distinctions and forms To counter this tendency which can be fostered by religion Montesquieu develops a theory of prudence designed to support the world of politics an dpolitical life necessarily an intermediate world occupying a space between universal abstractions and individual particularities Cohler suggest that the Federalists and Tocqueville were most influenced by this preoccupation with spirit and moderation James Madison and other Federalists for example were not drawn to limited government as a principled notion but rather as a consequence of understanding the context within which a moderate government must act not to become despotic Similarly Tocqueville extols democracy as self government as an antidote to the dangers of democracy as a rule the character of the governed shapes the nature of the governors These and other conclusions will prove valuable to intellectual historians political theorists and students of religion

Montesquieu's Political Economy Andrew

Scott Bibby, 2016-04-29 This book provides an introductory survey of Montesquieu's economic ideas and a fresh examination of the longstanding controversy over the meaning and purpose of Montesquieu's *The Spirit of the Laws*. No one doubts that Montesquieu helped to formulate the core liberal ideals at the heart of the development of liberal republican traditions on both the European and American continents. Yet questions remain about Montesquieu's political intentions. In particular, the view of Montesquieu as a conscious proponent of commercial modernity has come under increasing scrutiny. While not ignoring recent scholarly challenges, Bibby moves the debate forward by uncovering the many hidden connections between commerce, liberty, and religion in *The Spirit of the Laws*. A failure to make these connections, Bibby argues, has led to significant interpretative errors. This book attempts to eliminate one source of the confusion which continues to cloud Montesquieu's political philosophy in obscurity. **Montesquieu's Liberalism and the Problem of Universal Politics**

Keegan Callanan, 2018-08-23 *Snowflakes*, a series of eight readers for students of classes 1 to 8, is meant primarily to inculcate in children a love for reading as well as appropriate reading skills. Just as each individual snowflake is unique, the content of the series is unique in terms of its literary, linguistic, and pedagogical merit. The selections include a wide range of stories, poems, prose pieces, plays, and excerpts which have been collated from both classic and contemporary sources. Care has been taken to ensure that they expose students to diverse genres and socio-cultural contexts. **Montesquieu: The**

Spirit of the Laws Anne M. Cohler, Basia Carolyn Miller and Harold Samuel Stone, **Fanaticism and the History of Philosophy** Paul Katsafanas, 2023-11-07 Voltaire called fanaticism the monster that pretends to be the child of religion. Philosophers, politicians, and cultural critics have decried fanaticism and attempted to define the distinctive qualities of the fanatic whom Winston Churchill described as someone who can't change his mind and won't change the subject. Yet despite fanaticism's role in the long history of social discord, human conflict, and political violence, it remains a relatively neglected topic in the history of philosophy. In this outstanding inquiry into the philosophical history of fanaticism, a team of international contributors examine the topic from antiquity to the present day. Organized into four sections, topics covered include Fanaticism in ancient Greek, Indian, and Chinese philosophy; Fanaticism and superstition from Hobbes to Hume, including chapters on Locke and Montesquieu, Shaftesbury and Hutcheson, Kant, Germaine de Staël, Hegel, Nietzsche, William James, and Jorge Portilla on fanaticism; Fanaticism and terrorism and extremism and gender, including the philosophy and morality of the manosphere; Closed-mindedness and political and epistemological fanaticism. Spanning themes from superstition, enthusiasm, and misanthropy to the emotions, purity, and the need for certainty, *Fanaticism and the History of Philosophy* is a landmark volume for anyone researching and teaching the history of philosophy, particularly ethics and moral philosophy. It is also a valuable resource for those studying fanaticism in related fields such as religion, the history of political thought, sociology, and the history of ideas. *The Pragmatic Enlightenment* Dennis C. Rasmussen, 2014 This is a study of the political and moral thought of the Enlightenment, focusing on four key eighteenth-century thinkers: David Hume, Adam Smith,

Montesquieu and Voltaire Dennis C Rasmussen argues that these thinkers exemplify a particularly attractive type of liberalism one that is more realistic moderate flexible and contextually sensitive than most other branches of this tradition

Charles-Louis de Secondat, Baron de Montesquieu David Carrithers, 2017-07-05 The French philosophe Charles Louis de Secondat Baron de Montesquieu 1689 1755 was a political and social thinker of enormous depth range originality and influence The essays by eminent scholars reprinted in this volume explore significant aspects of his contributions to political constitutional and religious thought during the epoch of the French Enlightenment Topics highlighted include his Persian Letters 1721 his history of Rome 1734 and the views he expressed in The Spirit of Laws 1748 on natural law forms of government English constitutionalism religion commerce international relations and the philosophy of history Supplemented by a detailed introduction that contextualizes the papers selected for this volume as well as an extensive bibliography this work serves as an authoritative reference to the best scholarship on Montesquieu s political thought The volume is edited and introduced by David W Carrithers Adolph Ochs Professor of Government at the University of Tennessee at Chattanooga and author of numerous publications on Montesquieu **The Promise and Peril of Credit** Francesca

Trivellato, 2021-06-08 How an antisemitic legend gave voice to widespread fears surrounding the expansion of private credit in Western capitalism The Promise and Peril of Credit takes an incisive look at pivotal episodes in the West s centuries long struggle to define the place of private finance in the social and political order It does so through the lens of a persistent legend about Jews and money that reflected the anxieties surrounding the rise of impersonal credit markets By the close of the Middle Ages new and sophisticated credit instruments made it easier for European merchants to move funds across the globe Bills of exchange were by far the most arcane of these financial innovations Intangible and written in a cryptic language they fueled world trade but also lured naive investors into risky businesses Francesca Trivellato recounts how the invention of these abstruse credit contracts was falsely attributed to Jews and how this story gave voice to deep seated fears about the unseen perils of the new paper economy She locates the legend s earliest version in a seventeenth century handbook on maritime law and traces its legacy all the way to the work of the founders of modern social theory from Marx to Weber and Sombart Deftly weaving together economic legal social cultural and intellectual history Trivellato vividly describes how Christian writers drew on the story to define and redefine what constituted the proper boundaries of credit in a modern world increasingly dominated by finance [American Citizenship and Constitutionalism in Principle and Practice](#)

Steven F. Pittz, Joseph Postell, 2022-01-13 Questions at the very heart of the American experiment about what the nation is and who its people are have lately assumed a new even violent urgency As the most fundamental aspects of American citizenship and constitutionalism come under ever more powerful pressure and as the nation s politics increasingly give way to divisive partisan extremes this book responds to the critical political challenge of our time the need to return to some conception of shared principles as a basis for citizenship and a foundation for orderly governance In various ways and from

various perspectives this volume's authors locate these principles in the American practice of citizenship and constitutionalism. Chapters in the book's first part address critical questions about the nature of U.S. citizenship; subsequent essays propose a rethinking of traditional notions of citizenship in light of the new challenges facing the country. With historical and theoretical insights drawn from a variety of sources ranging from Montesquieu, John Adams, and Henry Clay to the transcendentalists, Cherokee freedmen, and modern identitarians, *American Citizenship and Constitutionalism in Principle and Practice* makes the case that American constitutionalism, as shaped by several centuries of experience, can ground a shared notion of American citizenship. To achieve widespread agreement in our fractured polity, this notion may have to be based on thin political principles, the authors concede; yet this does not rule out the possibility of political community. By articulating notions of citizenship and constitutionalism that are both achievable and capable of fostering solidarity and a common sense of purpose, this timely volume drafts a blueprint for the building of a genuinely shared political future.

Rethinking Political Thinkers Manjeet Ramgotra, Simon Choat, 2023 The first textbook to challenge and expand the canon of political thinkers, *Rethinking Political Thinkers* presents political thought in a new light, invites debate, and brings diverse perspectives to the fore, giving students the tools to think about political concepts, theories, and arguments critically and analytically.

The Ashgate Research Companion to Federalism Ann Ward, 2016-04-01 This comprehensive research companion examines the theory, practice, and historical development of the principle of federalism from the ancient period to the contemporary world. It provides a range of interpretations and integrates theoretical and practical aspects of federalism studies more fully than is usually the case. The volume identifies and examines nascent conceptions of the federal idea in ancient and medieval history and political thought before considering the roots of modern federalism in the ideas of a number of important European political theorists of the sixteenth through eighteenth centuries. The contributors focus on the development and institutionalization of the principle of federalism in the American Republic and examine the historical development and central policy debates surrounding European federalism. The final sections investigate contemporary debates about theories of federalism and regional experiences of federalism in a global context, including Africa, India, Australia, the Middle East, and North and South America. The scope and range of this volume is unparalleled; it will provide the reader with a firm understanding of federalism as issues of federalism promise to play an ever more important role in shaping our world.

Montesquieu and the Discovery of the Social Brian Singer, 2013-01-31 Montesquieu is often considered the first social thinker. Today, when the end of the social has been proclaimed, it is time to reconsider its beginnings. In a wide-ranging original interpretation of *The Spirit of the Laws*, this book explores what it meant to discover the social and what it can mean to recover the social today.

The Spirit of Democracy Sofia Näsström, 2021-06-20 How does one revitalize democracy in times of crisis? Democracy is today challenged by populism and elitism, as well as by the resurgence of new forms of authoritarianism. *The Spirit of Democracy: Corruption, Disintegration, Renewal* shows that while

we have good reasons to worry about the corruption of democratic practices and ideals these worries are often attributable to questionable assumptions about what democracy is Drawing on Montesquieu s classical work on the spirit of laws the book sets out to reconceive the ways in which we understand and conceptualise modern democracy from sovereignty to spirit According to Montesquieu different political forms are animated and sustained by different spirits a republic by virtue a monarchy by honour and a despotic form by fear This book argues that modern democracy is a sui generis political form animated and sustained by a spirit of emancipation The removal of divine natural and historical authorities in political affairs unleashes a fundamental uncertainty about the purpose and direction of society In a democracy we respond to that uncertainty by sharing and dividing it equally It emancipates us from a state of self incurred tutelage Based on this argument the book develops a new theoretical framework for studying the corruption disintegration and renewal of democracy what it is how it begins and where in society it plays out

Montesquieus Philosophy Of Liberalism A Commentary On The Spirit Of The Laws Book Review: Unveiling the Magic of Language

In an electronic digital era where connections and knowledge reign supreme, the enchanting power of language has are more apparent than ever.
