 those who are already serving as trustees directors officers and key employees of exempt organizations particularly
 charitable ones Siegel s goal in which he succeeds is to help directors and officers of nonprofit organizations make better
 decisions The book is full of large policy analyses and paragraphs on the details such as board size board committees board
 meeting formats the contents of minutes and the duties of officers Salted with some excellent real life examples what also
 sets this book apart from most in its genre is the tone the writing style the brusqueness the bluntness He complains that too
 many directors check their good judgment at the boardroom door He advises individuals who desire agreement and demand
 adulation to stay off boards he insists on commitment and institutional tension with the executive director He warns
 prospective directors that some organizations want in addition to time and judgment either your money or your ability to
