Never Again The Threat Of The New Anti Semitism:

Never Again? Abraham H. Foxman, 2010-06-09 The ongoing war on terror instability in the Middle East and a faltering world economy are capturing headlines everywhere But through it all runs a disturbing current of which many people are only dimly aware Anti Semitism which had been on the decline worldwide since the end of World War II has over the past few years made a perilous return How could the twenty first century the new millennium launched with such optimism just a few short years ago have so quickly been marred by the emergence of age old hatreds now armed with the powers of global terrorism As national director of the Anti Defamation League Abraham H Foxman fights against the menace of intolerance every day As a result of the disturbing events of the last few years he is convinced that we currently face as great a threat to the safety and security of the Jewish people as we faced in the 1930s Foxman writes Within living memory we ve seen what can happen when a nation or a continent experiences an unrestrained outbreak of anti Semitism The Jews of the world and all people of goodwill who share their desire for a just and free society learned a series of critical lessons from the tragic history of the twentieth century Today we understand how important it is to recognize the emergence of new forms of anti Semitism so that we can warn the world and stave off the worst effects Anti Semitism remains a pernicious form of ethnic and religious intolerance with consequences for all of humankind In communities from the United States to the Middle East Europe to South Africa and Latin America Jews are being persecuted in old and new ways Exploring the history of anti Semitism and providing the first comprehensive examination of the new rampant anti Jewish sentiment worldwide Never Again offers a crucial discussion of the steps that must be taken to prevent this century from witnessing a replay of the horrors of the last

Jews & Money Abraham H. Foxman, 2010-11-09 In the wake of Bernie Madoff s ruinous investment schemes Abe Foxman takes a cultural and political look at the many variations throughout history of the assumptions made about Jews and money These include Jews as greedy global capitalists Jews as wealthy secret communists Jews as cheapskates and Jews controlling the media with their money to unduly influence society Foxman makes the case that these stereotypes have permeated cultures globally and argues that these beliefs are rooted in deep seated and pervasive anti Semitism As with all forms of bigotry society at large needs to respond to the persistence of stereotypes by educating the young denouncing hate speech and by encouraging Jews like all groups to express pride in their ethnic and religious heritage

Living with Hate in American Politics and Religion Jeffrey Israel,2019-04-23 In the United States people are deeply divided along lines of race class political party gender sexuality and religion Many believe that historical grievances must eventually be left behind in the interest of progress toward a more just and unified society But too much in American history is unforgivable and cannot be forgotten How then can we imagine a way to live together that does not expect people to let go of their entrenched resentments Living with Hate in American Politics and Religion offers an innovative argument for the power of playfulness in popular culture to make our capacity for coexistence imaginable Jeffrey Israel explores how people from different backgrounds can pursue justice together even as they play with their divisive grudges prejudices and desires in their cultural lives Israel calls on us to distinguish between what belongs in a raucous domain of play and what belongs in the domain of the political He builds on the thought of John Rawls and Martha Nussbaum to defend the liberal tradition against challenges posed by Frantz Fanon from the left and Leo Strauss from the right In provocative readings of Lenny Bruce s stand up comedy Philip Roth s Portnoy s Complaint and Norman Lear s All in the Family Israel argues that postwar Jewish American popular culture offers potent and fruitful examples of playing with fraught emotions Living with Hate in American Politics and Religion is a powerful vision of what it means to live with others without forgiving or forgetting

The UnCivil University Gary A. Tobin,Aryeh Kaufmann Weinberg,Jenna Ferer,2009-05-16 In the name of academic freedom the core values of higher education honest scholarship unbiased research and diversity of thought and person have been corrupted by an academy more interested in preserving its privileges than in protecting its own integrity The American university has lost its civility Nowhere is this loss more apparent than in the rise of anti Semitism and anti Israelism on college campuses This book documents the alarming rise in bigotry and bullying in the academy using a range of evidence from first hand accounts of intimidation of students by anti Israel professors to anti Semitic articles in student newspapers and marginalization of pro Israel scholars The UnCivil University exposes the unspoken world of double standards

bureaucratic paralysis and abdication of leadership that not only allows but often supports a vocal minority of extremists on campus *Strangers in the Land* Eric J Sundquist,2009-06-30 The importance of blacks for Jews and Jews for blacks in conceiving of themselves as Americans when both remained outsiders to the privileges of full citizenship is a matter of voluminous but perplexing record A monumental work of literary criticism and cultural history Strangers in the Land draws upon politics sociology law religion and popular culture to illuminate a vital highly conflicted interethnic partnership over the course of a century

Three Perspectives: Jewish, Christian, and Muslim Steven H. Propp,2009-12-30 Youre Jewish arent you This blunt question is the way that college freshman Richard Cohn is introduced to an outspoken fellow student

named Dov Epstein who calls himself a Messianic Jew and believes that God has a special purpose for the Jewish people in these Last Days Raised by secular Jewish parents Richard is completely oblivious to his own Jewish background until this ongoing dialogue forces him to confront his own heritage The two young men vigorously argue with each other over the interpretation of the Hebrew Bible particularly its reputed predictions of a Messiah Christian doctrines such as the Trinity and most significantly about the identity and significance of Jesus of Nazareth The rigorous process of self examination this initiates leads Richard to embrace his Jewish identity even as he vehemently denies the same for Dov The two ultimately become fast friends but as they progress from an academic environment to the professional world they are challenged by racist statements made by prominent national figures anti Semitic doctrines such as Christian Identity which teaches that white Anglo Saxons are the true Israel and also purported scholars who deny the reality of the Holocaust itself

Circumstances in life connect them with a young Iranian migr named Jahangir Khatami whose Muslim beliefs conflict strongly with their own Yet when a violent incident brings the three of them together they are forced to reexamine not just their differences but their similarities While they clash over the ideals of Zionism and its ramifications in the modern State of Israel they are united in their horror over the terrorist attacks of September 11 2001 Join a diverse cast of characters some of whom appeared in the authors earlier book *Beyond Heaven and Earth* in a probing exploration that may help you reconsider just what it means to be Jewish Christian or Muslim in the modern world *Midnight on the Mavi Marmara* Moustafa Bayoumi, 2010 31 May 2010 Israeli commandos attack the six boats of the Gaza Freedom Flotilla in international waters bringing humanitarian relief to the beleaguered Palestinians of Gaza Within minutes nine peace activists are dead shot by the Israelis Scores of others are injured The 700 people on board the ships are arrested before being transported to detention centres in Israel and then deported Within hours the international community denounce the attack Here a range of activists journalists and analysts piece together the events that occurred *Evangelicals and Israel* Stephen Spector, 2009

Most observers explain evangelical Christians bedrock support for Israel as stemming from the apocalyptic belief that the Jews must return to the Holy Land as a precondition for the second coming of Christ But the real reasons argues Stephen Spector are far more complicated In *Evangelicals and Israel* Spector delves deeply into the Christian Zionist movement mining information from original interviews web sites publications news reports survey research worship services and interfaith conferences to provide a surprising look at the sources of evangelical support for Israel Israel is God s prophetic clock for many evangelicals irrefutable proof that prophecy is true and coming to pass in our lifetime But Spector goes beyond end times theology to find a complex set of motivations behind Israel evangelical relations These include the promise of God s blessing for those who bless the Jews gratitude to Jews for establishing the foundations of Christianity remorse for the Church s past anti Semitism fear that God will judge the nations based on how they treated the Jewish people and reliance on Israel as the West s firewall against Islamist terrorism Spector explores many Christian Zionists hostility toward

Islam but also uncovers an unexpected pragmatism and flexibility concerning Israel's possession of the entire Holy Land. For evangelicals, politics frequently mixes with faith. Yet Spector argues that evangelical beliefs, though often portrayed as unifying and rigid, are in reality various and even contradictory. Spector uses George W. Bush's beliefs about the Bible as a sounding board for these issues and explores the evangelical influence on his Middle East policies. Evangelicals and Israel corrects much of the speculation about Bush's personal faith and about evangelicalism's impact on American Middle East relations and provides the fullest and most nuanced account to date of the motives and theology behind Christian Zionism.

Holocaust Denial as an International Movement Stephen E. Atkins, 2009-04-30 The end of World War II saw an emergence of Holocaust dissent that began in Europe and has since developed into an international movement with adherents in almost every country in the world. At first, this denial was fueled by the desire to rehabilitate Adolf Hitler and the Nazi regime in an effort to reestablish a neo-Nazi state. In the following years, coupled with the renewal of anti-Semitism, this dissent has been used as a means of denying the legitimacy of the state of Israel. Despite these motivations, the ultimate cause for concern is in the way this denial attracts its members by both challenging the existence of the Holocaust and the testimony of its witnesses. By tracing the history, causes, and spread of Holocaust denial, Atkins reveals the dangers this mindset poses to rational thinkers who become vulnerable to fringe ideas. This book traces the state of the international Holocaust denial movement in the early 21st century, grounding contemporary thought in the history of the movement. Since Holocaust deniers have distorted the facts about this mass genocide, Atkins discusses just what is known about the Holocaust from historical research conducted since World War II. The role of negative racial genetics is explored in both Hitler's intellectual makeup and among the leaders of the German right wing, including historians' assessments of Hitler's anti-Semitism, motivations, and decision making. Also provided is a roll call of Holocaust dissenters in countries such as the United States, Germany, France, Great Britain, Russia, and Italy, among many others. By analyzing the arguments of leaders within this expanding dissent movement, this book demonstrates how extremists build informational links that have wide-ranging effects. *Mel Gibson's Passion* Zev Garber, 2006 Some essays are from a symposium held Mar 30 2004 at Purdue University.

The Myth of Hitler's Pope David G. Dalin, 2012-03-28 Was Pope Pius XII secretly in league with Adolf Hitler? No, says Rabbi David G. Dalin, but there was a cleric in league with Hitler: the grand mufti of Jerusalem, Hajj Amin al-Husseini. As Pope Pius XII worked to save Jews from the Nazis, the grand mufti became Hitler's staunch ally and a promoter of the Holocaust, with a legacy that feeds radical Islam today. In this shocking and thoroughly documented book, Rabbi Dalin explodes the myth of Hitler's pope and condemns the mythmakers for not only rewriting history but for denying the testimony of Holocaust survivors hijacking the Holocaust for unseemly political ends and ignoring the real threat to the Jewish people. **Narrating Conflict in the Middle East** Dina Matar, Zahera Harb, 2013-06-21 The term conflict has often been used broadly and uncritically to talk about diverse situations ranging from street protests to war, though the many factors that give rise to any

conflict and its continuation over a period of time vary greatly The starting point of this innovative book is that it is unsatisfactory either to consider conflict within a singular concept or alternatively to consider each conflict as entirely distinct and unique Narrating Conflict in the Middle East explores another path to addressing long term conflict The contributors set out to examine the ways in which such conflicts in Palestine and Lebanon have been and are narrated imagined and remembered in diverse spaces including that of the media They examine discourses and representations of the conflicts as well as practices of memory and performance in narratives of suffering and conflict all of which suggest an embodied investment in narrating or communicating conflict In so doing they engage with local global and regional realities in Lebanon and in Palestine and they respond dynamically to these realities

A World Ignited Martin Tolchin, Susan J. Tolchin, 2007-10-30 War Torture Humiliation Exploitation Fear Futility The daily news is bleak And it is not reserved to just one corner of the globe World wide we are bombarded with graphic emotionally laden examples of inhumanity These challenges to peace and freedom have become so commonplace that public and government responses are sedate or self righteous Meanwhile in more malevolent countries manipulative politicians and sadistic terrorists have become skilled at exploiting this state of affairs And we ignore it at our own peril A World Ignited is about the surge of hatred that has swept the world in the last decade its myriad causes its toll in lives and human misery This condition is amplified by modern communications technology especially television and the Internet and made more lethal by modern weaponry including assault rifles and rocket launchers and unprecedented tactics that strive for mass death and anguish Anger is fed by economic disparities religious and cultural wars that go back centuries and deep seated feelings of defeat and humiliation The book takes aim at the Bush administration for its penchant for provocative and unilateral policies that have inspired unprecedented waves of anti Americanism but it also breaks new ground on both Bush's unsung role in combating worldwide anti-Semitism and the role of the United States as the fount of hate on the Internet The authors conclude this important and timely book in a positive manner with a look at the politics of hope and what can be done to halt and even reverse this cacophony of hate

Casting Out Sherene Razack, 2008-01-01 Three stereotypical figures have come to represent the war on terror the dangerous Muslim man the imperilled Muslim woman and the civilized European Casting Out explores the use of these characterizations in the creation of the myth of the family of democratic Western nations obliged to use political military and legal force to defend itself against a menacing third world population It argues that this myth is promoted to justify the expulsion of Muslims from the political community a process that takes the form of stigmatization surveillance incarceration torture and bombing In this timely and controversial work Sherene H Razack looks at contemporary legal and social responses to Muslims in the West and places them in historical context She explains how race thinking a structure of thought that divides up the world between the deserving and undeserving according to racial descent accustoms us to the idea that the suspension of rights for racialized groups is warranted in the interests of national security She discusses many

examples of the institution and implementation of exclusionary and coercive practices including the mistreatment of security detainees the regulation of Muslim populations in the name of protecting Muslim women and prisoner abuse at Abu Ghraib She explores how the denial of a common bond between European people and those of different origins has given rise to the proliferation of literal and figurative camps places or bodies where liberties are suspended and the rule of law does not apply Combining rich theoretical perspectives and extensive research Casting Out makes a major contribution to contemporary debates on race and the war on terror and their implications in areas such as law politics cultural studies feminist and gender studies and race relations

Beyond Chutzpah Norman G. Finkelstein, 2020-05-05 In Beyond Chutzpah Norman Finkelstein moves from an iconoclastic interrogation of the new anti-Semitism to a meticulously researched exposé of the corruption of scholarship on the Israel-Palestine conflict especially in the work of Alan Dershowitz Pointing to a consensus among historians and human rights organizations on the factual record Finkelstein argues that so much controversy continues to swirl around the conflict because apologists for Israel contrive it This paperback edition includes a new preface examining recent developments in the Israel-Palestine conflict and the misuse

of anti semitism and a new chapter analysing the controversy surrounding Israel s construction of the West Bank wall
