Gedeckte Schuldverschreibungen in Deutschland und Großbritannien Tobias Koppmann,2009 Writings pertaining to European and international private banking and commercial law Europeanization and internationalization challenge the realm of jurisprudence to an extraordinary degree The division in special fields and the relationship with other social sciences necessitate critical reevaluation in view of many interactions Cross references between commercial law regulation and private autonomous arrangement distinctly show this development Jurisprudence emerging beyond Germany has to deal with such challenges The law of financial services serves as an example of the cross section material from private law and public commercial law This takes into account the series at hand in terms of content and method In addition to banking capital market and financial law as the main emphasis corporate law competition cartel law intangible property rights insolvency law and also labor law show similar overlaps The intensive internationally oriented treatment of the overlaps of classical private law in particular contractual law and commercial law promise a bountiful yield especially on the European level under the summarizing aspect of corporate law The outstanding monography also finds its place in the series as well as the conference volume works in German and also occasional works in

English There are economically aligned works in addition to juridical works constituting the main emphasis Works pertaining to Europeanization and internationalization are compiled in the series which convey commercial law and commercially conceived private law in an outstanding manner *Vulnerable Transactions in Corporate Insolvency* John Armour, Howard Bennett, 2003-02-13 This book examines powers and remedies available to a liquidator or administrator that render vulnerable the company's prior contractual commitments or proprietary dispositions so as to enhance the asset pool available to creditors In the process the book does two things First it offers comprehensive accounts of the relevant causes of action undervalue transactions preferences late floating charges unregistered charges transactions defrauding creditors gratuitous corporate transactions and post petition dispositions in liquidation Secondly it seeks to raise issues about the context and purpose of these causes of action many of which have not yet been fully explored in the case law or academic literature These are considered through a discussion of their relationship to the pari passu principle a restitutionary analysis of the remedial provisions and issues arising specifically in cross border and international insolvency proceedings The book is thus a source of reference both for insolvency litigators and for transactional lawyers seeking advice on potential vulnerability The thematic approach and rigorous analysis will also make it of interest to an academic readership **Mortgage und Charge**, Solange das Recht der Kreditsicherheiten auf europäischer Ebene noch nicht vereinheitlicht ist besteht ein großes Bedürfnis des internationalen Handelsverkehrs an rechtsvergleichenden Darstellungen des Rechts der Kreditsicherheiten der EU Mitgliedsstaaten Mortgage und Charge sind die am häufigsten bestellten Kreditsicherheiten an Sachen und Rechten des englischen Rechts Die Floating Charge die am gesamten Vermögen einer Kapitalgesellschaft bestellt werden kann ist die bedeutendste Kreditsicherheit im englischen Wirtschaftsleben überhaupt Die vorliegende Arbeit ist vornehmlich an den Bedürfnissen der Praxis ausgerichtet Die Darstellung der vertraglichen Ausgestaltungsmöglichkeiten der englischen Kreditsicherheiten nimmt einen breiten Raum ein Die rechtsvergleichenden Ausführungen am Ende der Arbeit erleichtern dem Leser durch den Vergleich der englischen mit der deutschen Rechtslage den Zugang zu den ihm fremden Rechtsinstituten *The Principles of Personal Property Law* Duncan Sheehan, 2011-11-30 The law of personal property covers a very wide spectrum of scenarios and has had little detailed scrutiny of its overarching structure over the years This is a shame It is a system and can best be understood as a system Indeed without understanding it as a system it becomes much more difficult to understand This new textbook is intended to provide a comprehensive and yet detailed coverage of the law of personal property in England and Wales It includes transfer of legal title to chattels the nemo dat rule negotiable instruments and assignment of choses in action It also looks at defective transfers of property and the resulting proprietary claims including those contingent on tracing the tort of conversion bailment and security interests By bringing together areas often scattered throughout company law commercial law trusts and tort textbooks it enables readers to see common themes and issues and to make otherwise impossible generalisations across different contexts about the nature of the concepts

English law applies Throughout the book concepts are explained rigorously with reference to how they are used in commercial practice and everyday life The book will be of use to students on undergraduate commercial law courses or related LLM courses as well as those on integrated property law courses and particularly specialised personal property modules It will also be useful to academics and practitioners working in the area
