Population Development And Income Distribution A Modeling Approach:

Population, Development and Income Distribution R. Scott Moreland, 1984 **Population Growth, Income Distribution, and Economic Development** Nico Heerink, 2012-12-06 In this book a model of long term interrelationships between income distribution population growth and economic development is developed and estimated from data for 54 countries The results indicate that a reduction of income inequality leads to lower fertility and mortality to improved basic needs satisfaction and to lower labour force participation of young and old males and of females in Asia and Africa The effect of income distribution on saving and consumption is found to be negligible These outcomes suggest that family planning and health policies in LDCs will show better results when they are supplemented with policies aimed at making the poor benefit from economic growth As regards development policy the results indicate that a reduction of income inequality does not impair the formation of physical capital but enhances the formation of human capital and lowers the growth rate of the labour force **Population, Development and Income Distribution** R. Scott Moreland, International Labour Office, World Employment Programme, 1984 *International Handbook of Population Policies* John F. May, Jack A. Goldstone, 2022-07-01 This Handbook offers an array of internationally recognized experts essays that provide a current and comprehensive examination of all dimensions of international population policies The book examines the theoretical foundations the historical and empirical evidence for policy formation the policy levers and modelling as well as the new policy challenges The section Theoretical Foundations reviews population issues today population theories the population policies framework as well as the linkages between population development health food systems and the environment The next section Empirical Evidence discusses international approaches to design and implement population policies on a regional level The section Policy Levers and Modelling reviews the tools and the policy levers that are available to design implement monitor and measure the impact of population policies Finally the section New Policy Challenges examines the recurrent and emerging issues in population policies This section also discusses prospects for demographic sustainability as well as future considerations for population policies As such this Handbook provides an important and structured examination of contemporary population policies their evolution and their prospects *Population and Development* Robert Cassen, 1994-01-01 This volume presents the latest thinking concerning the effect of population growth on economic development and other areas of global concern The authors address the complex issues that currently face both developed and developing country governments in all areas of population growth exploring impacts within their country and internationally **Proceedings of the Public Health Conference on Records and Statistics** Public Health Conference on Records and Statistics, 1983 A planned study program of the Public Health Service administered by the National Center for Health Statistics **Economic Research Studies of the Economic Development Administration** United States. Economic Development Administration, 1974 *The National Institute on Aging Macroeconomic-demographic Model*

National Institute on Aging,1984 Reproductive Health, Economic Growth and Poverty Reduction in Africa Olu Ajakaiye, Germano Mwabu,2010-12-29 This volume contains framework papers prepared for a collaborative research project on Reproductive Health Economic Growth and Poverty Reduction in Africa an initiative of the African Economic Research Consortium AERC Taken together the chapters in this book make a compelling argument that improvement in reproductive health is key to raising household incomes and to reducing poverty the books reveals that the triple phenomena of better reproductive health economic growth and declining poverty are likely to be found in an environment in which labour and product markets function Further a macroeconomic framework that encourages domestic and foreign investments and promotes social protection for current and future generations is essential *Hearings, Reports and Prints of the House Committee on the District of Columbia* United States. Congress. House. Committee on the District of Columbia, *Applied Demography and Public Health in the 21st Century* M. Nazrul Hoque,Beverly Pecotte,Mary A. McGehee,2016-10-19 This book demonstrates different statistical techniques for analyzing health related data as well as providing new techniques for forecasting and or projecting the incidence of diseases disorders It presents information on a variety of health related issues from the developed and developing world Featuring cutting edge research from distinguished applied demographers and public health specialists the book bridges the gap between theory and research Each chapter provides methods and materials that can be used to conduct further research aimed at promoting public health issues This book is intended for public health professionals health policy makers social epidemiologists administrators researchers and students in the fields of applied demography and public health who are interested in exploring the potential of ground breaking research or who want to further develop their existing research techniques It complements another volume in the Applied Demography Series Applied Demography and Public Health Springer 2013 which describes how applied demographic techniques can be used to help address public health issues **State Development Strategies** ,1967 **Desalination** Mohammad Hossein Davood Abadi Farahani,Vahid Vatanpour,Amir Taheri,2020-07-15 Undoubtedly drinking water of an acceptable quality has become a scarce commodity Water shortage is becoming a major concern all around the world due to limited freshwater resources as well as the high cost of freshwater transportation from freshwater rich areas to arid areas As a result solutions such as water recycling and desalination of saline or brackish water are being introduced and emerging worldwide as alternative ways of supplying water Desalination of seawater is known to be one of mankind s earliest forms of water treatment and it has become one of the most sustainable alternative solutions to provide freshwater for many communities and industrial sectors This book aims to cover the challenges and opportunities in desalination processes *The individuality of a scholar and advancement of social science : the scholarship of Antoni Kukliński* Anna Gąsior-Niemiec,Józef Niżnik,2008 **Rethinking Environmental Justice in Sustainable Cities** Heather E. Campbell,Yushim Kim,Adam M. Eckerd,2015-05-15 As the study of environmental policy and justice becomes increasingly significant in today s global climate standard statistical approaches

to gathering data have become less helpful at generating new insights and possibilities. None of the conventional frameworks easily allow for the empirical modeling of the interactions of all the actors involved or for the emergence of outcomes unintended by the actors. The existing frameworks account for the what but not for the why. Heather E. Campbell, Yushim Kim, and Adam Eckerd bring an innovative perspective to environmental justice research. Their approach adjusts the narrower questions often asked in the study of environmental justice, expanding to broader investigations of how and why environmental inequities occur. Using agent-based modeling (ABM), they study the interactions and interdependencies among different agents such as firms, residents, and government institutions. Through simulation, the authors test underlying assumptions in environmental justice and discover ways to modify existing theories to better explain why environmental injustice occurs. Furthermore, they use ABM to generate empirically testable hypotheses, which they employ to check if their simulated findings are supported in the real world using real data. The pioneering research on environmental justice in this text will have effects on the field of environmental policy as a whole. For social science and policy researchers, this book explores how to employ new and experimental methods of inquiry on challenging social problems and for the field of environmental justice, the authors demonstrate how ABM helps illuminate the complex social and policy interactions that lead to both environmental justice and injustice.

Sustainable Automotive Energy System in China CAERC, Tsinghua University, 2014-07-08. Sustainable Automotive Energy System in China aims at identifying and addressing the key issues of automotive energy in China in a systematic way, covering demography, economics, technology, and policy based on systematic and in-depth multidisciplinary and comprehensive studies. Five scenarios of China's automotive energy development are created to analyze the possible contributions in the fields of automotive energy, vehicle fuel economy improvement, electric vehicles, fuel cell vehicles, and the 2nd generation biofuel development. Thanks to this book, readers can gain a better understanding of the nature of China's automotive energy development and be informed about: 1. the current status of automotive energy consumption; vehicle technology development; automotive energy technology development and policy; 2. the future of automotive energy development; fuel consumption; propulsion technology penetration; and automotive energy technology development; and 3. the pathways of sustainable automotive energy transformation in China, in particular the technological and the policy-related options. This book is intended for researchers, engineers, and graduate students in the low-carbon transportation and environmental protection field. China Automotive Energy Research Center (CAERC), Tsinghua University, established in 2008, is a university-wide interdisciplinary automotive energy research institution affiliated to the Laboratory of Low Carbon Energy (LCE), Tsinghua University. More than 30 researchers are working at CAERC, including six full professors. CAERC's mission is to create and disseminate sustainable automotive energy knowledge, research, and development of integrated automotive energy system assessment methodologies and models, and provide technological and policy options for sustainable automotive energy system transformation in China and the world.

Inequality, Gender

Gaps and Economic Growth Ms.Dalia S Hakura,Mr.Mumtaz Hussain,Ms.Monique Newiak,Vimal Thakoor,Mr.Fan Yang,2016-09-23 A growing body of empirical evidence suggests that inequality income or gender related can impede economic growth Using dynamic panel regressions and new time series data this paper finds that both income and gender inequalities including from legal gender based restrictions are jointly negatively associated with per capita GDP growth Examining the relationship for countries at different stages of development we find that this effect prevails mainly in lower income countries In particular per capita income growth in sub Saharan Africa could be higher by as much as 0.9 percentage points on average if inequality was reduced to the levels observed in the fastgrowing emerging Asian countries High levels of income inequality in sub Saharan Africa appear partly driven by structural features However the paper s findings show that policies that influence the opportunities of low income households and women to participate in economic activities also matter and therefore if well designed and targeted could play a role in alleviating inequalities The Effects of Food Price and Subsidy Policies on Egyptian Agriculture Joachim Von Braun,Hartwig de Haen,1983 Extract The aim of this study is to determine how rapid growth in consumer subsidies has affected agriculture Therefore government spending on agriculture is examined and the government s price policies on inputs and output and its interventions in allocation and marketing are evaluated Econophysics of Income and Wealth Distributions Bikas K. Chakrabarti,Anirban Chakraborti,Satya R. Chakravarty,Arnab Chatterjee,2013-03-07 The first monograph in econophysics focussed on the analyses and modelling of these distributions ideal for physicists and economists *Dynamic Modelling and Control of National Economies* 1989 N.M. Christodoulakis,2014-06-28 The Symposium aimed at analysing and solving the various problems of representation and analysis of decision making in economic systems starting from the level of the individual firm and ending up with the complexities of international policy coordination The papers are grouped into subject areas such as game theory control methods international policy coordination and the applications of artificial intelligence and experts systems as a framework in economic modelling and control The Symposium therefore provides a wide range of important information for those involved or interested in the planning of company and national economics
