Redeeming The Time A Political Theology Of The Environment:

Redeeming the Time Stephen Bede Scharper, 1998-06-01 This is an examination of environmental theology from 4 major viewpoints Scharper explores the viewpoints of process theology the new cosmology of Thomas Berry ecofeminism and liberation theologians *Redeeming the time : a political theology of the environment* Stephen B. Scharper, 1998 Various current paradigms and remedying or redeeming their inadequacies A Political Theology of Nature Peter Scott, 2003-03-06 This book argues that the modern separation of humanity from nature can be traced to the displacement of the triune God Locating the source of our current ecological crisis in this separation Peter Scott argues that it can only be healed within theology through a revival of a Trinitarian doctrine of creation interacting with political philosophies of ecology Drawing insights from deep ecology ecofeminism and social and socialist ecologies Scott proposes a common realm of God nature and humanity Both Trinitarian and political the theology of this common realm is worked out by reference to Christ and Spirit Christ's resurrection is presented as the liberation and renewal of ecological relations in nature and society the movement of the Holy Spirit is understood as the renewal of fellowship between humanity and nature through ecological democracy and the Eucharist is proposed as the principal political resource Christianity offers for an ecological age Environment Glenn Adelson, James Engell, Kevin P. Van Anglen, Brent Ranalli, 2008-01-01 This major anthology is the first to apply a fully interdisciplinary approach to environmental studies A comprehensive guide to environmental literacy the book demonstrates how the sciences social sciences and humanities all contribute to understanding our interrelationships with the natural world Though not specialized *Environment* is a book that even specialists can learn from Ten innovative case studies climate shock species endangerment nuclear power biotechnology sustainable development deforestation environmental security globalization wilderness and the urban environment are followed by readings from specific disciplines These can be integrated with the case studies to shape individual interests and teaching strategies The volume presents an imaginative array of texts from scientific papers to poetry legal decisions to historical accounts personal essays to economic analysis Taken together these selections provide a balanced authoritative and up to date treatment of key issues in environmental studies **The Relevance of Bernard Lonergan's Notion of Self-appropriation to a Mystical-political Theology** Ian B. Bell, 2008 In *The Relevance of Bernard Lonergan's Notion of Self Appropriation to a Mystical Political Theology* Ian Bell takes on the issue of the separation of the interior and exterior lives that has come to dominate mystical theology over the years The mystical life he claims is necessarily involved in the establishment of social structures and institutions that govern human living and the work of Bernard Lonergan on the human subject provides a means by which the connection between the interior and exterior lives may be established Because human persons operate in a consistent pattern regardless of a given moment's particularities mystical experience is no longer relegated to so called spiritual matters and the insights of mystics may be applied to the Christian call to live as agents of love With this connection in place mystical theology and

political theology come together in a theology that is both mystical and political

Cause for Hope Bill Phipps, 2007 Global society stands at a crossroads one of those critical moments in the history of humankind The simple fact is that the Earth cannot support our rampant overuse and misuse of its abundant gift of resources Not only are we depleting the forests oceans soil we are also poisoning the air and polluting our rivers lakes and oceans We are living far beyond our means Life as we are creating it is measurably and extravagantly unsustainable Bill Phipps All societies live by their stories This provocative book from one of the most provocative leaders in the Canadian church challenges the governing story that has shaped and defined Western culture and society a story that has manifested itself in ecological destruction war and the obscene military expenditures that go with it unprecedented consumerism economic disparity between rich and poor mistreatment of non white cultures and

races sexism and fear Clearly it is time for a new story Bill Phipps takes on the task of outlining the core themes of this new story with the passion and vision of a modern day prophet He shows us the deeply spiritual nature of the issues and choices that confront us Recognizing that the challenges we face are inherently interconnected and can no longer be treated in isolation from each other his approach is multi faceted touching on all aspects of life including the role of the arts in bringing about transformation As a culture and as a society we do indeed stand at a crossroads one of those rare grace moments when we are granted the opportunity to choose our future So the question remains before us Will we choose the way of death or the way of new life Cause for Hope is part warning cry part visionary exploration part encouragement for the journey As such it is itself a cause for hope Each chapter concludes with questions for discussion making this book a valuable resource for study group use

The Community of the Weak Hans-Peter Geiser, 2013-03-28 Social postmodernism and systematic theology can be considered the new pair in some of the most creative discussions on the future of theological method on a global scale Both in the academy and in the public square as well as in the manifold local and pastoral moments of ministry and community social activism the social the postmodern and the theological intermingle in engaging and border crossing ways The Community of the Weak presents a new kind of jazzy fundamental theology with a postmodern touch using jazz as a metaphor writing ethnographically messy texts out of the personal windows of lived experiences combining fragments of autobiography with theological reconstruction A comparative perspective on North American and European developments in contemporary systematic theology serves as a hermeneutical horizon to juxtapose two continents in their very different contexts The author proposes a systematic and fundamental theology that is more jazzy global and narrative deeply embedded in pastoral ministry to tell its postmodern story

Sustainable Diplomacy D. Wellman, 2004-05-06 Drawing on a variety of disciplines Sustainable Diplomacy is a highly constructive work Set in the context of modern Moroccan Spanish relations this text is a direct critique of realism as it is practiced in modern diplomacy Proposing a new eco centric approach to relations between nation states and bioregions Wellman presents the case for Ecological Realism an undergirding philosophy for conducting a diplomacy which values the role of popular religions ecological histories and the consumption and waste patterns of national populations Sustainable Diplomacy is thus a means of building relations not only between elites but also between people on the ground as they together face the real possibility of global ecological destruction

A Canadian Climate of Mind Timothy B. Leduc, 2016-05-04 Looking at climate change not only as a feature of the physical world but also as a state of the human spirit

Remember Creation Scott Hoezee, 1998 Why is it that many Christians find a theological scientific debate about creation s ancient origins far more engaging than a speech about how to live responsibly in the creation today Are we more fascinated by academic debates that focus our gaze on what happened long ago than by the hands on discussions that focus our gaze on the world of wonders outside our windows right now In Remember Creation Scott Hoezee challenges readers to make today s world more central to the Christian faith by enjoying and preserving God s

cosmos as a part of daily discipleship Solidly grounded in a wealth of Scripture passages this book reveals God's ecology of praise which all Christians should want to explore and preserve Throughout the book Hoezee also offers suggestions to help congregations families and all Christians to take more delight in God's world while working to keep alive the wonders that bring God joy Scott Hoezee adds a refreshing new twist to the discussion on the environment Shouldn't we start by simply enjoying creation and honoring it for what it is With illustrations both biblical and personal Hoezee makes a compelling case Philip Yancey *Deep Ecology and World Religions* David Landis Barnhill, Roger S. Gottlieb, 2010-03-29 Bringing together thirteen new essays on the important relationship between traditional world spirituality and the contemporary environmental perspective of deep ecology this landmark book explores parallels and contrasts between religious values and those proposed by deep ecology In examining how deep ecologists and the various religious traditions can both learn from and critique one another the following traditions are considered indigenous cultures Hinduism Buddhism Taoism Confucianism Judaism Catholicism Islam Protestantism Christian ecofeminism and New Age spirituality **ThirdWay**, 1999-03 Monthly current affairs magazine from a Christian perspective with a focus on politics society economics and culture The Global Idea of 'the Commons' Donald Macon Nonini, 2007 During the last three decades corporations allied with scientists and universities national and regional governments and international financial institutions have through a variety of mechanisms associated with neo liberal globalization acted to dispossess large proportions of the world's population of their commons resources and enclose them for profit making In response throughout the global South and in the cities of the global North large numbers of people have formed movements to defend the commons in all their variety The idea of the commons has thus emerged as a global idea and commons have emerged as sites of conflict around the world The essays in this forum assess strategically the situations of selected commons in a variety of diagnostic sites where they exist the ways in which they are being transformed by the incursions of capital and state and the ways in which they are becoming the locus of struggle for those who depend on them to survive **The Ecological Life** Jeremy Bendik-Keymer, 2006-01-19 Written as a series of lectures this open access title offers a humanistic perspective on environmental philosophy that challenges some of the dogmas of deep ecology and radical environmentalism while speaking for their best desires The book argues that being human centered leaves us open to ecological identifications rather than the opposite Bendik Keymer draws on analytic and continental traditions of philosophy as well as literature and visual media He argues for a sense of ecological justice consonant with human rights and shows how humanistic thinking is committed to deepening respect for life and our ecological orientation In a clear jargon free and conversational tone The Ecological Life presents a timely and important contribution to civic engagement in an ecological century The ebook editions of this book are available open access under a CC BY NC ND 4.0 licence on bloomsburycollections.com **Saving Beauty** Kathryn B. Alexander, 2014-08-01 Kathryn B Alexander argues that natural beauty is a source of religious insight into the need and way of salvation and this project develops a theological aesthetics of

nature and beauty with an aim toward cultivating a theological and ethical framework for redeemed life as participation in ecological community With interdisciplinary verve engaging systematic philosophical and art theory systems of aesthetics the volume fosters the cultivation of the sense of beauty through creative religious and sacramental experience
