Development Challenges in Bhutan Johannes Dragsbaek Schmidt, 2017-03-21 This book provides essential insights into Bhutan's developmental challenges. It analyzes and scrutinizes the sovereign state's developmental approach including the idea of Gross National Happiness (GNH) which has replaced Gross National Product (GNP) as a measurement of prosperity. The authors also explore and deconstruct ideational and cultural aspects of knowledge production and present a critical overall assessment of the political economy of education, policy, health, ICT and migration in Bhutan. The book is divided into five parts, all taking a critical approach towards inequality. Part one offers an assessment of Bhutan's developmental trajectories, part two deals with GNH, equality and inclusion versus exclusion, part three is devoted to culture, legal issues and the politics of change, and part four to governance and integration. Section five addresses health, food and disparities. This book will appeal to all scholars of South Asian affairs and development studies as well as to diplomats and professionals involved in development aid.

The Encyclopedia of the Cold War Spencer C. Tucker, 2007-09-12 A comprehensive five volume reference on the defining conflict of the second half of the 20th century covering all aspects of the Cold War as it influenced events around the world. The conflict that dominated world events for nearly five decades is now captured in a multivolume work of unprecedented magnitude from a publisher widely acclaimed for its authoritative military and historical references. Under the direction of internationally known military historian Spencer Tucker, ABC-CLIO's *The Encyclopedia of the Cold War: A Political, Social and Military History* offers the most current and comprehensive treatment ever published of the ideological conflict that not so long ago enveloped the globe. From the Second World War to the collapse of the Soviet Union, *The Encyclopedia of the Cold War* provides authoritative information on all military conflicts, battlefield and surveillance technologies, diplomatic initiatives, important individuals and organizations, national histories, economic developments, societal and cultural events and more. The nearly 1,300 entries plus topical essays and an extraordinarily rich documents volume draw heavily on recently opened Russian, Eastern European and Chinese archives. The work is a definitive cornerstone reference on one of the most important historical topics of our time.

The Life of the Sixteenth Karmapa Rangjung Rigpe Dorje Meng Wang, 2022-11-08 The Sixteenth Karmapa Rangjung Rigpe Dorje was the first Tibetan Buddhist leader to make extensive teaching tours to the West. His three tours to Europe and North America from 1974 to 1980 led to the global expansion of Tibetan Buddhist schools. This book presents the most in-depth analysis of the Karmapa's contribution to the preservation and transmission of Tibetan Buddhism in exile. It is the first study to combine Tibetan life writing and biographical materials in English with a thorough examination of the transformation of Tibetan Buddhism in the modern era of globalization. Drawing on a wide range of data from written accounts, collections of photographs, recordings of interviews and documentaries, the author discusses the life and activity of

the Karmapa through the lens of cross cultural interaction between Buddhism and the West with a particular focus on Asian agency The study shows that the Karmapa s transmission strategies emphasized continuity with tradition with some openness for adaptation His traditionalist approach and his success on the global scale challenge the popular assumption that the transmission of Buddhism is primarily a matter of Westernization which in turn calls for a broader view that recognizes its complex and dynamic nature

art **Buddhist and Islamic Orders in Southern Asia** R. Michael Feener, Anne M. Blackburn, 2018-11-30 Over the last few decades historians and other scholars have succeeded in identifying diverse patterns of connection linking religious communities across Asia and beyond Yet despite the fruits of this specialist research scholars in the subfields of Islamic and Buddhist studies have rarely engaged with each other to share investigative approaches and methods of interpretation This volume was conceived to open up new spaces of creative interaction between scholars in both fields that will increase our understanding of the circulation and localization of religious texts institutional models ritual practices and literary specialists The book's approach is to scrutinize one major dimension of the history of religion in Southern Asia religious orders Orders here referring to Sufi *arqas* and Buddhist monastic and other ritual lineages established means by which far flung local communities could come to be recognized and engaged as part of a broader world of co religionists while presenting their particular religious traditions and their human representatives as attractive and authoritative to potential new communities of devotees Contributors to the volume direct their attention toward analogous developments mutually illuminating for both fields of study Some explain how certain orders took shape in Southern Asia over the course of the nineteenth century contextualizing these institutional developments in relation to local and transregional political formations shifting literary and ritual preferences and trade connections Others show how the circulation of people ideas texts objects and practices across Southern Asia a region in which both Buddhism and Islam have a long and substantial presence brought diverse currents of internal reform and notions of ritual and lineage purity to the region All chapters draw readers attention to the fact that networked persons were not always strongly institutionalized and often moved through Southern Asia and developed local bases without the oversight of complex corporate organizations Buddhist and Islamic Orders in Southern Asia brings cutting edge research to bear on conversations about how orders have functioned within these two traditions to expand and sustain transregional religious networks It will help to develop a better understanding of the complex roles played by religious networks in the history of Southern Asia Bhutan Travelog Joni Herison, Ashley Chen, 2022-11-18

The Elephant Has Two Sets of Teeth Alice

Neikirk, 2023-12-01 This ethnography follows Bhutanese refugees who fled Bhutan, resided in camps in Nepal and finally settled in the vastly different culture of Australia. Along the way they learn the ways that humanitarian compassion is used to oppress, contain and erode human rights. They also learn, however, that this charitable framework has small cracks that allow for action. The Bhutanese find ways to move between the contradictory expectations of refugee-ness as they strive to become citizens. Their experiences illustrate the complex strands of power that intertwine to limit the scope of people who deserve compassion. Neikirk also describes how responses to refugee crises have shifted from facilitating the movement of people to enforcing their containment. Readers in refugee studies, anthropology and development studies will be interested in this rich transnational study.

Tibetan Ritual Jose

Ignacio Cabezon, 2009-12-08 Ritual is one of the most pervasive religious phenomena in the Tibetan cultural world. Despite its ubiquity and importance to Tibetan cultural life, however, only in recent years has Tibetan ritual been given the attention it deserves. This is the first scholarly collection to focus on this important subject. Unique in its historical, geographical and disciplinary breadth, this book brings together eleven essays by an international cast of scholars working on ritual, texts, institutions and practices in the greater Tibetan cultural world: Tibet, Nepal, Bhutan and Mongolia. While most of the chapters focus on Buddhism, two deal with ritual in Tibet's indigenous Bon religion. All of the essays are original to this volume. An extensive introduction by the editor provides a broad overview of Tibetan ritual and contextualizes the chapters within the field of Buddhist and Tibetan studies. The book should find use in advanced undergraduate courses and graduate seminars on Tibetan religion. It will also be of interest to students and scholars of ritual generally.
