Réduction et donation Jean-Luc Marion, 1989      **A Companion to Phenomenology and Existentialism** Hubert L. Dreyfus, Mark A. Wrathall, 2009-04-20 A Companion to Phenomenology and Existentialism is a complete guide to two of the dominant movements of philosophy in the twentieth century Written by a team of leading scholars including Dagfinn Føllesdal J N Mohanty Robert Solomon Jean Luc Marion Highlights the area of overlap between the two movements Features longer essays discussing each of the main schools of thought shorter essays introducing prominent themes and problem oriented chapters Organised topically around concepts such as temporality intentionality death and nihilism Features essays on unusual subjects such as medicine the emotions artificial intelligence and environmental philosophy      **Heidegger and French Philosophy** Tom Rockmore, 2002-09-11 Martin Heidegger's impact on contemporary thought is important and controversial However in France the influence of this German philosopher is such that contemporary French thought cannot be properly understood without reference to Heidegger and his extraordinary influence Tom Rockmore examines the reception of Heidegger's thought in France He argues that in the period after the Second World War due to the peculiar nature of the humanist French Philosophical tradition Heidegger became the master thinker of French philosophy Perhaps most importantly he contends that this reception first as philosophical anthropology and later as postmetaphysical humanism is systematically mistaken      *Husserl's Ethics and Practical Intentionality* Susi Ferrarello, 2015-12-17 Husserl's 20th century phenomenological project remains the cornerstone of modern European philosophy The place of ethics is of importance to the ongoing legacy and study of phenomenology itself Husserl's Ethics and Practical Intentionality constitutes one of the major new interventions in this burgeoning field of Husserl scholarship and offers an unrivaled perspective on the question of ethics in Husserl's philosophy through a focus on volumes not yet translated into English This book offers a refreshing perspective on stagnating ethical debates that pivot around conceptions of relativism and universalism shedding light on a phenomenological ethics beyond the common dichotomy      The Rigor of Things Jean-Luc Marion, Dan Arbib, 2017-08-08 In a series of conversations Jean Luc Marion reconstructs a career's path in the history of philosophy theology and phenomenology Discussing such concepts as the event the gift and the saturated phenomenon Marion elaborates the rigor displayed by the things themselves He discusses the major stages of his work and offers his views on the forces that have driven his thought The conversation ranges from Marion's engagement with Descartes to phenomenology and theology to Marion's intellectual and biographical backgrounds concluding with illuminating insights on the state of the Catholic Church today and on Judeo Christian dialogue Marion also reflects on the relationship of philosophy to history theology aesthetics and literature At the same time the book provides an account of French intellectual life in the late twentieth century In these interviews Marion's language is more conversational than in his formal writing but it remains serious and substantive The book serves as an excellent and comprehensive introduction to Marion's thought and work      **The History of Continental**

**Philosophy** Alan D. Schrift, 2013-04-12 From Kant to Kierkegaard from Hegel to Heidegger continental philosophers have indelibly shaped the trajectory of Western thought since the eighteenth century Although much has been written about these monumental thinkers students and scholars lack a definitive guide to the entire scope of the continental tradition The most comprehensive reference work to date this eight volume History of Continental Philosophy will both encapsulate the subject and reorient our understanding of it Beginning with an overview of Kant's philosophy and its initial reception the History traces the evolution of continental philosophy through major figures as well as movements such as existentialism phenomenology hermeneutics and poststructuralism The final volume outlines the current state of the field bringing the work of both historical and modern thinkers to bear on such contemporary topics as feminism globalization and the environment Throughout the volumes examine important philosophical figures and developments in their historical political and cultural contexts The first reference of its kind A History of Continental Philosophy has been written and edited by internationally recognized experts with a commitment to explaining complex thinkers texts and movements in rigorous yet jargon free essays suitable for both undergraduates and seasoned specialists These volumes also elucidate ongoing debates about the nature of continental and analytic philosophy surveying the distinctive sometimes overlapping characteristics and approaches of each tradition Featuring helpful overviews of major topics and plotting road maps to their underlying contexts A History of Continental Philosophy is destined to be the resource of first and last resort for students and scholars alike

*The Reason of the Gift* Jean-Luc Marion, 2011-09-26 This book represents a continuation of Jean Luc Marion's work on givenness as a foundational concept A former student of Jacques Derrida Marion is known for his work in seventeenth century French philosophy for his theory of God without being and for his reformulation of phenomenology Marion's groundbreaking work on givenness is articulated through attentive readings in a striking array of philosophical texts The four pieces collected here based on the fall 2008 Richard Lectures at the University of Virginia expand upon and go beyond the lines of Marion's previous work and exemplify the intersection of his own constructive brilliance with his talent and rigor as a historian of philosophy Reengaging philosophers long central to Marion's own work Husserl Heidegger Levinas and highlighting the significance of lesser known but decisive influences Natorp Rickert Meinong these lectures will be valuable to readers interested in the ongoing conversation seeking to bridge the divide between Continental and analytic philosophies particularly through the exploration of common points of origin These pieces tackle some of the most pressing debates in contemporary European philosophy and offer students of Marion material to ponder as they seek to further understand his influences Taken together these essays form an important volume by a major figure in contemporary philosophy Being and Nothing Lorenz B. Puntel, 2025-05-15 In this masterful work leading German philosopher Lorenz B Puntel answers the primordial question of philosophy Why is there Being at all and not absolutely nothing Considering the history of philosophy from Parmenides through to Heidegger and beyond Puntel charges philosophy with persistently failing to adequately

confront the question of Being In response Puntel sets out a systematic philosophy to rival Hegel's Science of Logic and Whitehead's Process and Reality In two parts the book first surveys the history of Western philosophy through the theoretical framework of Structural Systematic Philosophy SSP which unites continental philosophy's comprehensiveness with the precision and linguistic rigor of the analytic tradition Analysing all of the major stages in the forgetfulness of Being in Western philosophy Puntel establishes a dialogue with a vast number of thinkers and movements in the history of philosophy including Plato Aquinas Duns Scotus Francisco Suarez Christian Wolff Leibniz Hegel Nietzsche Heidegger Sartre W O Quine Peter van Inwagen Kit Fine Alexius Meinong and Jean Luc Marion The second part develops the methodical question of a systematic theory of Being Puntel sets out a universal metaphysics introducing concepts of world existence and types of beings Moreover he examines the plurality of possible worlds the disclosure of Being and modern philosophies of subjectivity since Kant including the analytic philosophies of Robert Brandom and Ernst Tugendhat The book culminates in a theory of Being and explains the relation of Being to the concept of God Being and Nothing is the third in Puntel's trilogy comprising Structure and Being 2008 and Being and God 2011 and is a book that will appeal to all those with an interest in the history of philosophy continental philosophy theology and analytic philosophy

*Appositions of Jacques Derrida and Emmanuel Levinas* John Llewelyn, 2002 If not simple opposition or simple juxtaposition what is the relation between the writings to which Derrida and Levinas appose their signatures What would each endorse in the writings of the other What is it to sign and endorse How does one assume responsibility and how does one avoid assuming it These are some of the probing questions that the prominent Continental philosopher John Llewelyn takes up in *Appositions* which brings together and synthesises fifteen essays written during the past twenty years Drawing out the metaphor of the Greek letter chi or x Llewelyn apposes the discussions of the two philosophers applying their thought to one another In considering the work of Derrida and Levinas from the points of view of philosophy linguistics logic and theology Llewelyn invokes a diverse array of philosophers theologians and literary figures including Austin Defoe Hegel Heidegger Jankelevitch Kant Mallarme Plato Ponge Ramsey Rosenzweig Russell Saussure and Valery This book by a powerfully original thinker and first rate interpreter is essential reading for all those interested in the writings of Derrida and Levinas and in the ways in which their thinking intersects

*Jean-Luc Marion* Robyn Horner, 2017-03-02 Jean Luc Marion is one of the leading Catholic thinkers of our time a formidable authority on Descartes and a major scholar in the philosophy of religion This book presents a concise accessible and engaging introduction to the theology of Jean Luc Marion Described as one of the leading thinkers of his generation Marion's take on the postmodern is richly enhanced by his expertise in patristic and mystical theology phenomenology and modern philosophy In this first introduction to Marion's thought Robyn Horner provides the essential background to Marion's work as well as analysing the most significant themes for contemporary theology This book serves as an ideal starting point for students of theology and philosophy as well as for those seeking to further their knowledge of cutting edge thinking in
