The Enchantment of Modern Life Jane Bennett, 2001-08-05 It is a commonplace that the modern world cannot be experienced as enchanted that the very concept of enchantment belongs to past ages of superstition Jane Bennett challenges that view She seeks to rehabilitate enchantment showing not only how it is still possible to experience genuine wonder but how such experience is crucial to motivating ethical behavior A creative blend of political theory philosophy and literary studies this book is a powerful and innovative contribution to an emerging interdisciplinary conversation about the deep connections between ethics aesthetics and politics As Bennett describes it enchantment is a sense of openness to the unusual the captivating and the disturbing in everyday life She guides us through a wide and often surprising range of sources of enchantment showing that we can still find enchantment in nature for example but also in such unexpected places as modern technology advertising and even bureaucracy She then explains how everyday moments of enchantment can be cultivated to build an ethics of generosity stimulating the emotional energy and honing the perceptual refinement necessary to follow moral codes Throughout Bennett draws on thinkers and writers as diverse as Kant Schiller Thoreau Kafka Marx Weber Adorno and Deleuze With its range and daring *The Enchantment of Modern Life* is a provocative challenge to the centuries old narrative of disenchantment one that presents a new alter tale that discloses our profound attachment to the human and nonhuman world

The Philosophy of Reenchantment Michiel Meijer, Herbert De Vriese, 2020-10-27 This book presents a philosophical study of the idea of reenchantment and its merits in the interrelated fields of philosophical anthropology ethics and ontology It features chapters from leading contributors to the debate about reenchantment including Charles Taylor John Cottingham Akeel Bilgrami and Jane Bennett The chapters examine neglected and contested notions such as enchantment transcendence interpretation attention resonance and the sacred or reverence worthy notions that are crucial to human self understanding but have no place in a scientific worldview They also explore the significance of adopting a reenchanting perspective for debates on major concepts such as nature naturalism God ontology and disenchantment Taken together they demonstrate that there is much to be gained from working with a more substantial and affirmative concept of reenchantment understood as a fundamental existential orientation towards what is seen as meaningful and of value The

Asprem, 2018-05-31 Max Weber famously characterized the ongoing process of intellectualization and rationalization that separates the natural world from the divine by excluding magic and value from the realm of science and reason and fact from the realm of religion as the disenchantment of the world Egil Asprem argues for a conceptual shift in how we view this key narrative of modernity Instead of a sociohistorical process of disenchantment that produces increasingly rational minds Asprem maintains that the continued presence of magic and enchantment in people's everyday experience of the world created an intellectual problem for those few who were socialized to believe that nature should contain no such incalculable mysteries Drawing on a wide range of early twentieth-century primary sources from theoretical physics occultism embryology radioactivity psychical research and other fields Asprem casts the intellectual life of high modernity as a synchronic struggle across conspicuously different fields that shared surprisingly similar intellectual problems about value meaning and the limits of knowledge *School Reform and the Arts of Re-enchantment* David Kalim Diehl, 2011

Disenchantment has been a consistent trope in sociology since Weber's appropriation of the term nearly a century ago In this work I argue that in contrast to the standard modernization story organizations have long been subject to countervailing forces other than that of rationalization This has been especially true in schools institutions that exist at the intersection of the logics of bureaucracy democracy and expressive youth cultures In this dissertation I identify a uniquely contemporary organizational response to these tensions one I associate with the notion of re-enchantment I use this term to refer to reforms that identify emotional and intellectual alienation as the primary institutional problems to be overcome and find a solution in the reinvigoration of organizational practices with imagination creativity and collaboration The result is a genre of reform that accepts the logic of standardized and rationalized outcomes but attempts to transform the process of achieving these goals by re-enchanting organizational experience with a sense of connectedness and creativity In this dissertation I discuss

small school reform generally and a particular instance of it at Mill Town high specifically as examples of organizational re enchantment More than just introducing new practices or structures small school reform entails an effort to reshape the tactic and practical modes of coordination what I call ways of being These are social conventions that allow actors to coordinate with each other and their environment in a way that is grounded in a shared practical understanding of the proper ordering of people and things In contrast to standard account that locate the barrier to change in the minds of organizational actors utilizing a mixed methods approach I show that much of the failure of the reform at Mill Town was not the result of beliefs attitudes or values of teachers but rather concerned the complexity of changing culturally disposed and intersubjectively sustained modes of coordination in the organization

The Re-Enchantment of the West Christopher Partridge, 2005-03-04 As a book about emergent spirituality in the contemporary West it focuses on the nature evolution and significance of new forms of religion and alternative spiritualities Part One of the book provides the theoretical background and guides the reader through some of the principal debates After an overview of the secularization thesis which argues that the West is becoming increasingly disenchanted the second chapter turns to the sociological analysis of new religions and alternative spiritualities Particular attention is given to the ideas of the sociologist of religion Ernst Troeltsch especially his enigmatic analysis of the emergence mystical religion which presciently provides helpful insights into understanding the contemporary alternative religious milieu Against sociologists such as Bryan Wilson and Steve Bruce this and the subsequent chapter argues that rather than being insignificant new forms of spirituality are actually proving to be a significant part of Western re enchantment Chapter 3 constructs a general theory of the re enchantment of the West Chris Partridge argues that Western Society is permeated by a broad occulture by which he means a reservoir of ideas beliefs theories and practices to which new religions unorthodox spiritualities film and popular music all draw attention This re enchantment of the West should not be seen as a superficial secondary development in the shadow of Christianity In many ways it is a religious phenomenon in its own right Partridge's arguments in this regard are well put and I warmly welcome this timely book Mikhael Rothstein University of Copenhagen Denmark

Re-enchanting Nationalisms Brad West, 2015-04-13 This book provides original insight into the way we now engage and remember national history Drawing on fieldwork and analysis of international case studies on state commemoration memorialization recreational and tourism and times of disaster and crisis the author demonstrates that not only does the nation frequently retain a strong cultural relevance in our global world but that the emergence of new forms of ritual and remembrance means that in many

instances we are seeing the re enchantment of nationalism Drawing upon and developing an empirically informed cultural sociology the author charts the distinctive qualities of these new national rites and how they feed into and advance particular cosmopolitan and orthodox national politics Because social science has so often wrongly assumed the end of nationalism the insights of this of the book about the possibilities and limitations of contemporary nationalism demand serious consideration by academics and also by policy makers and the general public

The Reenchantment of the World Morris Berman,1981

Morris Berman s book addresses what I consider to be the most important topic at our present moment in history He is searching for the underpinnings of a new world view that can give rise to a culture capable of relating gently and self sustainingly to the earth Frederick Ferr The Reenchantment of the World is a perceptive study of our scientific consciousness and a cogent and forceful challenge to its supremacy Focusing on the rise of the mechanistic idea that we can know the natural world only by distancing ourselves from it Berman shows how science acquired its controlling position in the consciousness of the West He analyzes the holistic animistic tradition destroyed in the wake of Scientific Revolution of the sixteenth and seventeenth centuries which viewed man as a participant in the cosmos not as an isolated observer Arguing that the holistic world view must be revived in some credible form before we destroy our society and our environment he explores the possibilities for a consciousness appropriate to the modern era Ecological rather than animistic this new world view would be grounded in the real and intimate connection between man and nature

Fates of the Performative Jeffrey

T. Nealon,2021-04-06 A powerful new examination of the performative that asks what s next for this well worn concept From its humble origins in J L Austin s speech act theory of the 1950s the performative has grown to permeate wildly diverse scholarly fields ranging from deconstruction and feminism to legal theory and even theories about the structure of matter Here Jeffrey T Nealon discovers how the performative will remain vital in the twenty first century arguing that it was never merely concerned with linguistic meaning but rather constitutes an insight into the workings of immaterial force Fates of the Performative takes a deep dive into this performative force to think about the continued power and relevance of this wide ranging concept Offering both a history of the performative s mutations and a diagnosis of its present state Nealon traces how it has been deployed by key writers in the past sixty years including foundational thinkers like Jacques Derrida Eve

Kosofsky Sedgwick and Judith Butler contemporary theorists such as Thomas Piketty and Antonio Negri and the conceptual poetry of Kenneth Goldsmith Ultimately Nealon s inquiry is animated by one powerful question what s living and what s dead in performative theory In deconstructing the reaction against the performative in current humanist thought Fates of the Performative opens up important conversations about systems theory animal studies object oriented ontology and the digital humanities Nealon s stirring appeal makes a necessary declaration of the performative s continued power and relevance at a time of neoliberal ascendancy **Re-founding the World** Jean-Claude Guillebaud,2001 Is it time to dump Western capitalism s values Or on the contrary to re found our market based society by dumping its distortions and returning to the fundamental values of our Greek Judeo Christian heritage
