Refiguring Prose Style Possibilities For Writing Pedagogy:

Refiguring Prose Style T. R. Johnson, Tom Pace, 2009 For about two decades say Johnson and Pace the discussion of how to address prose style in teaching college writing has been stuck with style standing in as a proxy for other stakes in the theory wars The traditional argument is evidently still quite persuasive to some that teaching style is mostly a matter of teaching generic conventions through repetition and practice Such a position usually presumes the traditional view of composition as essentially a service course one without content of its own On the other side the shortcomings of this argument have been much discussed that it neglects invention revision context meaning even truth that it is not congruent with research that it ignores 100 years of scholarship establishing composition's intellectual territory beyond service The discussion is stuck there and all sides have been giving it a rest in recent scholarship Yet style remains of vital practical interest to the field because everyone has to teach it one way or another A consequence of the impasse is that a theory of style itself has not been well articulated Johnson and Pace suggest that moving the field toward a better consensus will require establishing style as a clearer subject of inquiry Accordingly this collection takes up a comprehensive study of the subject Part I explores the recent history of composition studies the ways it has figured and all but effaced the whole question of prose style Part II takes to heart Elbow's suggestion that composition and literature particularly as conceptualized in the context of creative writing courses have something to learn from each other Part III sketches practical classroom procedures for heightening students' abilities to engage style and part IV explores new theoretical frameworks for defining this vital and much neglected territory The hope of the essays here focusing as they do on historical aesthetic practical and theoretical issues is to awaken composition studies to the possibilities of style and in turn to rejuvenate a great many classrooms

whole question of prose style Part II takes to heart Elbow's suggestion that composition and literature particularly as conceptualized in the context of creative writing courses have something to learn from each other Part III sketches practical classroom procedures for heightening students' abilities to engage style and part IV explores new theoretical frameworks for defining this vital and much neglected territory The hope of the essays here focusing as they do on historical aesthetic practical and theoretical issues is to awaken composition studies to the possibilities of style and in turn to rejuvenate a great many classrooms

Style and the Future of Composition Studies Paul Butler, Brian Ray, Star Medzerian Vanguri, 2020-11-02 Style and the Future of Composition Studies explores style's potential for informing how students are taught to write well and its power as a tool for analyzing the language and discourse practices of writers and speakers in a range of contexts Many college writing teachers operate under the belief that style still refers primarily to the kinds of issues discussed in Strunk and White's popular but outdated book *The Elements of Style* This work not only challenges this view but also offers theories and pedagogies from diverse perspectives that help teachers and students develop strategic habits and mindsets to negotiate languages genres and discourse conventions The chapters explore the ways in which style directly affects and is affected by multiple sources of shifting disciplinary inquiry contributing new insights by drawing on research in cultural studies sociolinguistics discourse studies translingualism and writing across the curriculum as well as new approaches to classical rhetorical theory The reemergence of stylistic inquiry can be used dynamically to produce new insights not only about emerging disciplinary interests but also about the study of style as a kind of language in and of itself Style and the Future of Composition Studies demonstrates that style deserves to be a central focus of writing teaching More than just the next style collection the book advocates for style's larger prominence in composition discussions generally It will be of interest to a broad range of students and scholars of writing studies as well as a wider set of readers in academe Contributors Cydney Alexis Laura Aull Anthony Box Jimmy Butts Mike Duncan William FitzGerald Melissa Goldthwaite Eric House TR Johnson Almas Khan Zak Lancaster Eric Leake Andrea Olinger Thomas Pace Jarron Slater Jonathan Udelson

Expel the Pretender Eve Wiederhold, 2015-04-01 Political fights are not waged over who is speaking the truth but over whether any given claim seems to be authentic Expel the Pretender Rhetoric Renounced and the Politics of Style examines how rhetorical style influences judgments about how to communicate integrity and good will Eve Wiederhold argues that attitudes about style s significance to judgment are both undertheorized and over determined especially when style is regarded as an embellishment rather than

as a constitutive aspect of language use Examining news reports covering controversial speakers including President Bill Clinton Linda Tripp and the Rev Jeremiah Wright she demonstrates how rhetorical style is both belittled and yet remains a focal point for assessing public figures who have been publicly rebuked and discredited Expel the Pretender claims style as a conflicted site of materiality critiquing contemporary rhetorical theories that configure style as a dependable resource for democratic inquiry Wiederhold argues that conceptions of style s significance to judgment must be reframed to understand how we make decisions about who and what to believe
