A Second REFLECTION Stacey Gatrost,2018-06-03 A young woman is perplexed by recurring dreams but finds herself catapulted to the edge of a parallel universe of immortality when her husband and son are killed in a car accident after which she becomes aware of a ghostly presence As this presence reveals himself to her she learns he is someone who last reincarnated in 1776 and has come to help her reach within and find her inner strength and the will to go on The more he reveals himself to her she learns why he is so familiar to her and why she is so significant to him Through the intense and sometimes comical relationship that develops between them she finds healing wholeness and the ability to allow herself to be free to live and hope again It is intensely romantic and filled with a measure of suspense with a slight touch of comedy as you cross the bridge between two parallel realities

In Pursuit of Leviathan Lance E. Davis,Robert E. Gallman,Karin Gleiter,2007-12-01 In Pursuit of Leviathan traces the American whaling industry from its rise in the 1840s to its precipitous fall at the end of the nineteenth century Using detailed and comprehensive data that describe more than four thousand whaling voyages from New Bedford Massachusetts the leading nineteenth century whaling port the authors explore the market for whale products crew quality and labor contracts and whale biology and distribution and assess the productivity of the American fleet They then examine new whaling techniques developed at the end of the nineteenth century such as modified clippers and harpoons and the introduction of darting guns Despite the common belief that the whaling industry declined due to a fall in whale stocks the authors argue that the industry s collapse was related to changes in technology and market conditions Providing a wealth of historical information In Pursuit of Leviathan is a classic industry study that will provide intriguing reading for anyone interested in the history of whaling

Tourism, Heritage and Commodification of Non-human Animals: A Posthumanist Reflection Álvaro López López, Gino Jafet Quintero Venegas, Carol Kline, 2023-12-19 Heritage is a social construction rooted in modern and contemporary societies It is commonly a positive assessment of many elements of the physical and human environment e g ecosystems and landscapes monuments customs gender norms religious practices gastronomy and livelihoods Heritage and tourism are strongly related to each other in that heritage gives rise to tourist attractions and activities and tourism enhances the designation of heritage sites A post humanist perspective the moral valuation of equality between humans and other animals demands that both are sentient beings and self aware of their pain and pleasure Thus the involvement of animals as heritage elements by themselves or as an element of tourist consumption in heritage sites implies their commodification and lack of agency As such these practices are usually unethical since they threaten the animals primary interests not to suffer not to feel pain and to be able to live their freedom This book contains chapters that reveal both the unethical interactions between humans and animals within heritage tourism and those that show experiences in which efforts are made to minimize damage within the commercialization of animals
