Reflections On Economic Development Toward A New Latin American Consensus

Miguel A. Centeno, Patricio Silva

Reflections On Economic Development Toward A New Latin American Consensus:

Reflections on Economic Development Enrique V. Iglesias, Inter-American Development Bank, 1992 *Latin America Transformed* Robert N Gwynne, Kay Cristobal, 2014-04-23 Restructured to offer a more thematic approach Designed to be more student friendly with new features including chapter summaries a glossary of Spanish phrases and acronyms All the chapters have been substantially revised and a new chapter on livelihoods and place as well as a concluding chapter have been added All the chapters have been substantially revised and a new chapter on livelihoods and place as well as a concluding chapter have been added **South America's Economic Development and Emerging Markets** Mary E. Lassanyi, 1994 **The Legacy of Raúl Prebisch** Edgar J. Dosman, Gert Rosenthal, Enrique V. Iglesias, Joseph L. Love, David H. Pollock, Colin I. Bradford, Oscar Godoy Arcaya, José Nun, Hans Singer, Dragoslav Avramovic, Antonio Casas González, John Williamson, Gerald K. Helleiner, Celso Furtado, 1993-01-01 This volume honors Raúl Prebisch's contributions to economic thought and uses his 1970 report *Change and Development Latin America's Great Task* as a point of departure for analyzing trends in the region in the 1970s and 1980s This volume comprises a collection of the papers presented at the seminar *Latin American Thought Past Present and Future* convened by the Inter American Development Bank in Washington D C on November 14 and 15 1991 Several factors influenced the selection of both the topic and the institution that hosted this seminar *Urban Informality* Ananya Roy, Nezar AlSayyad, 2004-01-01 The turn of the century has been a moment of rapid urbanization Much of this urban growth is taking place in the cities of the developing world and much of it in informal settlements This book presents cutting edge research from various world regions to demonstrate these trends The contributions reveal that informal housing is no longer the domain of the urban poor rather it is a significant zone of transactions for the middle class and even transnational elites Indeed the book presents a rich view of urban informality as a system of regulations and norms that governs the use of space and makes possible new forms of social and political power The book is organized as a transnational endeavor It brings together three regional domains of research the Middle East Latin America and South Asia that are rarely in conversation with one another It also unsettles the hierarchy of development and underdevelopment by looking at some First World processes of informality through a Third World research lens

Handbook of Latin American Studies, Vol. 61 Lawrence Boudon, 2006-04-01 The one source that sets reference collections on Latin American studies apart from all other geographic areas of the world The Handbook has provided scholars interested in Latin America with a bibliographical source of a quality unavailable to scholars in most other branches of area studies Latin American Research Review Beginning with volume 41 1979 the University of Texas Press became the publisher of the Handbook of Latin American Studies the most comprehensive annual bibliography in the field Compiled by the Hispanic Division of the Library of Congress and annotated by a corps of more than 140 specialists in various disciplines the Handbook alternates from year to year between social sciences and humanities The Handbook annotates works on Mexico

Central America the Caribbean and the Guianas Spanish South America and Brazil as well as materials covering Latin America as a whole Most of the subsections are preceded by introductory essays that serve as biannual evaluations of the literature and research under way in specialized areas The Handbook of Latin American Studies is the oldest continuing reference work in the field Lawrence Boudon of the Library of Congress Hispanic Division has been the editor since 2000 and Katherine D McCann has been assistant editor since 1999 The subject categories for Volume 61 are as follows

Tigers and Old Elephants Sophonisba Breckinridge, 2019-01-22 Which factors identify winners tigers in the development game and which characterize losers elephants are described in this approach to understanding economic development in a post cold war environment The New Brazilian Economy Elias C. Grivoyannis, 2016-12-12 This edited collection provides a thorough historical statistical and institutional description of the current Brazilian economy and the previous economic structure from which it is emerging The contributions explore the institutional economic and cultural forces shaping the current development of the Brazilian economy and discuss how they will influence future progress Together the chapters form a picture of the international implications of Brazil's emergence as a major world economic power Topics covered include the growth and shrinkage of industry the consumption boom and the financial crisis sustainable financial growth and public debt management the evolution of antitrust policy and the privatization of state owned firms and more Academics and researchers of BRICS countries and Latin American and Caribbean studies will find these contributions a valuable addition to their research Economists in the Americas Veronica Montecinos, John Markoff, 2010-01-01 Probably no region's

economists have had greater public visibility or greater impact on regional and national public policy than Latin America's and no region has been more directly affected by the spread of US economics Economists in the Americas joins a small but important comparative literature on economics as a profession and is the first comparative treatment of professional economists in the United States and Latin America A multidisciplinary group of scholars discusses the last sixty years of shifting trends in economics in seven countries in the Western Hemisphere Argentina Brazil Chile Colombia Mexico Uruguay and the United States The chapters address the history of economics in the Americas the role of economists in politics and policy making economics education and competing paradigms in the field This collection points to the interconnections among the national cases the forging and breakdown of consensus around state and market dominance the transnational diffusion of economic ideas and professional norms as well as the embrace and rejection of an increasingly Americanized professional identity among Latin American economists The book will be of interest to policymakers and scholars interested in the comparative history and sociology of economics development public policy international affairs political science and Latin American studies *New Tigers & Old Elephants* Scott B. MacDonald, Jane E. Hughes, David Leith Crum, Which factors identify winners tigers in the development game and which characterize losers elephants are described in this

original and comprehensive approach to understanding economic development in a post cold war environment The book provides an honest readable and provocative introduction to the new rules of the development game J T Peach New Mexico State University from Choice

The Politics of Expertise in Latin America Miguel A. Centeno,Patricio Silva,2016-07-27 The ascendancy of technocratic personnel and their imposition of neo liberal economic policies have come to define Latin American politics in the 1980s and 1990s This book is the first comparative analysis of these events and their implications for the future of democracy on the continent Individual chapters discuss the rise to power of these technocrats in Mexico Chile Argentina Brazil and Peru as well as the historical antecedents of expert rule in the 19th and early 20th centuries

The Inter-American Development Bank Diana Tussie,1995

Western Hemisphere Economic Integration Gary Clyde Hufbauer,Jeffrey J. Schott,1994 Thorough analysis of processes and consequences of proposals for extending NAFTA throughout the Western Hemisphere seeks to assess both economic and political consequences of several avenues that might be followed including impact on the global trading system Handbook of Latin American Studies v 57 <http://www.loc.gov/hlas>

The Case Against the Global Economy Jerry Mander,2014-02-25 The greatest political debate of our time is about the blind rush towards a single global economy its consequences for jobs democracy human well being and cultural diversity and its impact on the natural world that sustains us Its effects will be profound and irreversible but globalization itself is not inevitable In The Case Against the Global Economy 24 leading economic agricultural cultural and environmental authorities drawn from across the world argue that free trade and economic globalization are producing exactly the opposite results to those promised From a detailed analysis of the new global economy its structures and its full social and ecological implications they show how it is undermining our liberty our security and our well being and is devastating the planet First published in the USA in 1996 in an edition focused on North America the book won the American Political Science Association award for the Best Book in Ecological and Transformational Politics This completely revised and updated international edition presents a passionate and persuasive case for the need to reverse course away from globalization and towards a revitalized democracy local self sufficiency and ecological health

Dilemmas of Domination Walden Bello,2013-11-19 From the acclaimed globalization critic a far reaching analysis of America s military economic and political vulnerability The empire seems unassailable but the empire is weak and precisely because of its imperial ambitions So argues Walden Bello s provocative new book which systematically dissects the strategic economic and political dilemmas confronting America as a consequence of its quest for global domination An award winning development expert Bello shows how despite the enormity of the U S defense budget American forces are already overextended a condition bound to intensify as each local victory breeds simmering resistance and new confrontation He points to the empire s looming economic breakdown the result of its gargantuan military costs record breaking deficits and exploitative trade and investment relations with developing countries On the political front he warns of the bitter disillusionment mounting around the world in response

to America's failure to champion liberal democracy Everywhere America goes crony capitalism hostile coercion and gross inequalities in income eat away at expectations of justice and inclusion A clear and prophetic examination Dilemmas of Domination reveals a not too distant future in which the empire's hidden weaknesses will yield fatal challenges to American supremacy

Handbook Of Research On The International Relations Of Latin America And The Caribbean G. Pope Atkins, 2018-02-12 The study of Latin American and Caribbean international relations has a long evolution both within the development of international relations as a general academic undertaking and in terms of the particular characteristics that distinguish the approaches taken by scholars in the field This handbook provides a thorough multidisciplinary reference guide to the literature on the various elements of the international relations of Latin America and the Caribbean Citing over 1600 sources that date from the nineteenth century to the present with emphasis on recent decades the volume's analytic essays trace the evolution of research in terms of concepts issues and themes The Handbook is a companion volume to Atkins Latin America and the Caribbean in the International System Fourth Edition but also serves as an invaluable stand alone reference volume for students scholars researchers journalists and practitioners both official and private

Reforming the State Luiz Carlos Bresser Pereira, Peter Spink, 1999 The authors of this volume explore general themes of managerial public administration and government reform then focus on specific Latin American experiences and trends Discussions of accountability empowerment citizen values and new institutions are also included

Modern Catholic Social Documents and Political Economy Albino F. Barrera, 2001-08-09 As western economies have moved from feudalism to industrialism to the information age Catholic social thought has kept pace responding to the economic realities of the day Linking Catholic social teaching with modern economic theory Albino F Barrera examines the changing political economy embedded within the moral theology and social justice documents issued by the Church during the last hundred years Barrera discusses the evolution of Catholic social teachings from scholastic thinking on the concept of the just price to a modern emphasis on the importance of a living wage As the conduct of economic life according to traditional custom and common law has given way to institutional and impersonal market forces these teachings have moved from a preoccupation with personal moral behavior to an intense scrutiny of the structures of society Amidst these changes the Church's social documents have sought to address systemic shortcomings as a means of promoting the common good through economic justice Barrera also looks ahead to the challenges posed by a postindustrial society characterized by a global knowledge based economy arguing that Catholic social thought will likely shift its focus from advocacy of the living wage to demands for greater equality of socioeconomic participation Written for scholars and students of economics theology and political science interested in religious social thought this book bridges the gap between moral theology and economic theory

Migration, Urbanization, and Development Richard E. Bilsborrow, 1998 Internal migration and urbanization are key dimensions of the process of socioeconomic development The

unprecedented movement of peoples within the borders of their own countries is one of the greatest transformations witnessed in the 20th century Policy analysts especially those from developing countries where internal migration can be felt at first hand view migration as one of the most important factors affecting the course of development It is within this context that UNFPA convened the Symposium on Internal Migration and Urbanization in Developing Countries in January 1996 in preparation for the United Nations World Conference on Human Settlements in Istanbul in June 1996 The final results of the symposium are found in this book This volume provides a better understanding at global level of internal migration issues of concern to policy analysts
