Dorrien, 2006-01-01 In this first of three volumes Dorrien identifies the indigenous roots of American liberal theology and demonstrates a wider longer running tradition than has been thought The tradition took shape in the nineteenth century motivated by a desire to map a modernist third way between orthodoxy and rationalistic deism atheism It is defined by its openness to modern intellectual inquiry its commitment to the authority of individual reason and experience its conception of Christianity as an ethical way of life and its commitment to make Christianity credible and socially relevant to modern people Dorrien takes a narrative approach and provides a biographical reading of important religious thinkers of the time including William E Channing Ralph Waldo Emerson Horace Bushnell Henry Ward Beecher Elizabeth Cady Stanton and Charles Briggs Dorrien notes that although liberal theology moved into elite academic institutions its conceptual foundations were laid in the pulpit rather than the classroom **The Interface of Science, Theology, and Religion** Dennis Ngien, 2019-03-07 In celebration of Alister E McGrath s sixty fifth birthday in 2018 this Festschrift aims to highlight him as a lauded scholar who exemplifies an interface of science theology and religion It comprises works by McGrath s theological allies and colleagues from diverse ecclesial homes including Graham Ward Oliver Crisp Tony Lane Sung Wook Chung Randall Zachman Veli Matti K rkk inen Jonathan Wilson Jeffrey P Greenman Robert Kolb Sister Benedicta Ward Michael Lloyd Bethany Sollereder and Patrick Franklin Critical but appreciative is the posture with which these contributors engage the wide range of McGrath s own scholarly pursuits and publications This volume edited by Dennis Ngien covers these themes that are central to the life and witness of the church atonement Christology Trinity eschatology mission Reformation science nature culture evangelism and theodicy there is much to ponder and reap here Readers will join with the contributors and pay tribute to McGrath who has risen to a life of significance as a scientist turned theologian professor author Christian apologist and churchman *Joseph Mazzini. Melodies of a New Monasticism Craig Gardiner, 2018-03-09 The New Monastic Movement is a vibrant source of

renewal for the church's life and mission. Many involved in this movement have quoted Dietrich Bonhoeffer's conviction that the church must recover ancient spiritual disciplines if it is to effectively engage the powers that be. Melodies of a New Monasticism adopts a musical metaphor of polyphony, the combination of two or more lines of music to articulate the way that these early Christian virtues can be woven together in community. Creatively using this imagery, this book draws on the theological vision of Bonhoeffer and the contemporary witness of George MacLeod and the Iona Community to explore the interplay between discipleship, doctrine and ethics. A recurring theme is the idea of Christ as the *cantus firmus*, the fixed song around which people perform the diverse harmonies of God in church and world, including worship, ecumenism, healing, peace, justice and ecology.

Changing Views of the Human Condition Paul W. Pruyser, 1987

Emancipation Still Comin' Kortright Davis, 2008-04-01

The Caribbean awash with sun and water is a meeting place of many races, religions and cultures. There, North and South, Latin and Anglo, native Carib, African, black, French and English, white races and cultures meet. In a religious melting pot, Protestant and Catholic, Christian, Afro-Caribbean, Hindu and secularist faiths intertwine, cross-pollinate and go their ways, separate yet together in the divine milieu. Such a place has a rich and revealing story to tell of history, nature and humanity, of the understanding of freedom, of the meaning and scope of theology itself. The key in Caribbean society with its experiences of slavery, colonialism, neocolonialism and structural dependence is emancipation, the pursuit, proclamation and practice of human freedom. Emancipation is the key to Caribbean theology as well. This is the focal point of Kortright Davis's work. He introduces the complex tapestry of this unique society, its social and cultural pluralism, its particular strengths and weaknesses, poverty, dependence, alienation and divisiveness. Davis explores many aspects of Caribbean religion and spirituality, especially the complexities of carnival and its uniquely African soul. He notes too a theological dependency and posits again a unique Caribbean emancipatory theology to establish a theological self-reliance. In emancipatory theology, as in Latin American liberation theology, the source for praxis and reflection is faith linked to historical experience. And the Caribbean experience of continual struggle for identity distinguishes and yet unites Caribbean Christians with Christians everywhere.

Summer Sermons, Winter Thoughts Peter C. Hodgson, 2018-05-31

The summer sermons have been delivered in the Presbyterian Church of Eagles Mere, Pennsylvania, over a period of fifteen years. When someone first arrives in Eagles Mere for the summer, people ask how their winter has been, winter meaning the whole time that has elapsed since the previous summer. In the author's case, winter means Nashville, Tennessee, where he has lived since 1965 when he joined the faculty of Vanderbilt Divinity School, retiring after thirty-eight years. Winter Thoughts consists of autobiographical reflections on three topics: lives, theologies and politics. The lives are those of Peter and Eva Hodgson. The longest section, Theologies, describes the various influences and directions the author's work has taken in systematic and historical theology. Politics reflects on the decline of the liberal democratic consensus. The whole is loosely held together by an underlying question: How is God efficaciously present in history without violating the fabric of history?

illuminating Ellison's understanding of democracy and art Ellison hoped that his novel by providing a tragicomic look at American ideals and mores would make better citizens of his readers The contributors also explain Ellison's distinctive views on the political tasks and responsibilities of the novelist an especially relevant topic as contemporary writers continue to confront the American incongruity between democratic faith and practice Ralph Ellison and the Raft of Hope uniquely demonstrates why *Invisible Man* stands as a premier literary meditation on American democracy

Creation and Salvation: A companion on recent theological movements E. M. Conradie, 2012 Christians trying to save the planet have to relate creation with salvation This volume explores the ways in which this task is approached by a wide range of recent theological movements

Josef Pieper on the Spiritual Life Nathaniel A. Warne, 2023-03-15 Warne's original study provides an insightful analysis of the role of contemplation and

creation in the thought of Josef Pieper illustrating the importance of this practice to earthly happiness and human flourishing What is the relationship between creation contemplation human flourishing and moral development Nathaniel Warne s Josef Pieper on the Spiritual Life offers a sophisticated answer to this question through a systematic analysis of philosopher Josef Pieper s 1904 1997 thought Warne s examination centers on the role of contemplation and creation in Pieper s thinking arguing that contemplation of the created order is a key feature of earthly happiness By emphasizing the importance of contemplation Pieper illustrates the deep interconnections between ethics creation and spirituality For Warne to posit a binary between the contemplative life and active life creates a false dichotomy Following Pieper Warne claims that theology and spirituality cannot be bracketed from ethics and social action indeed our lived experience in the world blurs the lines between these practices Contemplation and action are closer together than are typically assumed and they have important implications for both our spiritual development and our engagement with the world around us Ultimately Warne s emphasis on creation and contemplation represents an attempt to resist a view of ethics and the spiritual life that is divorced from our environment In response to this view Warne argues that we need a renewed sense that creation and place are important for self understanding Contemplation of creation is fundamentally a form of communion with God we thus need a more robust sense of how ethics and politics are rooted in God s creative action Taking Pieper as a guide Warne s study helps to deepen our thinking about these connections
