Reform And Revolution In Communist Systems:

Reform and Revolution in Communist Systems Gary K. Bertsch, 1991 **From Reform to Revolution** Minxin PEI, Minxin Pei, 2009-06-30 This is the first comprehensive effort to compare the recent political experiences of the Union of Soviet Socialist Republics and the People's Republic of China by tracing their overlapping and diverging paths of regime change The Capitalist Transformation of State Socialism David Lane, 2013-11-20 David Lane outlines succinctly yet comprehensively the development and transformation of state socialism While focussing on Russia and the countries of Eastern Europe he also engages in a discussion of the Chinese path In response to the changing social structure and external demands he outlines different scenarios of reform He contends that European state socialism did not collapse but was consciously dismantled He brings out the West's decisive support of the reform process and Gorbachev's significant role in tipping the balance of political forces in favour of an emergent ascendant class In the post socialist period he details developments in the economy and politics He distinguishes different political and economic trajectories of countries of the former USSR the New Member States of the European Union and China and he notes the attempts to promote further change through coloured revolutions The book provides a detailed account not only of the unequal impact of transformation on social inequality which has given rise to a privileged business and political class but also how far the changes have fulfilled the promise of democracy promotion wealth creation and human development Finally in the context of globalisation the author considers possible future political and economic developments for Russia and China Throughout the author a leading expert in the field brings to bear his deep knowledge of socialist countries draws on his research on the former Soviet Union and visits to nearly all the former state socialist countries including China Globalization against Democracy Guoguang Wu, 2017-04-27 This book explores how global capitalism has reconfigured state market relations and how interactions among capital labor and consumption threaten democracy It is for specialists in political economy political science economics sociology international relations and development studies and for supplemental use on undergraduate and graduate courses on globalization capitalism development and democracy **From Reform to Revolution** Minxin Pei, 1994 The author concludes with provocative statements about regime transition from communism He rejects the idealistic notion that democratization can by itself remove the structural obstacles to economic transformation and he sees high economic and political costs as unavoidable in transition from communism along either the Soviet or the Chinese path Germany and the World since 1815 Thomas Adam, 2024-09-26 This textbook provides a history of modern Germany locating the country's social cultural and political developments within their proper global and transnational context The author argues that most developments in German culture society and politics throughout the nineteenth and twentieth centuries were caused by wider global and transnational trends A history of the German people rather than the German state the book focusses on non state and non government actors intercultural transfers and applies the approach of thick description to analysing the

creation of German culture society and identity from the era of the Napoleonic wars right up to the present post unification Germany This includes an examination of German migrants journeys to their new homes in the Americas and thus the creation of a global German diaspora with cultural and social networks beyond its home country s borders The book further focusses on the transfers that connected German society and culture with those of other countries for instance chapters cover the transfer of football from England to Germany the transfer of the Christmas holiday tradition from Germany to other countries and the development of eugenics in Germany within its global context Communism in Transition Amos

Yoder,2024-04-12 Communism in Transition 1993 examines the mainstays of Communist ideology and goes on to look at the collapse of Communism in the Soviet Union and in Eastern Europe It also analyses Asian and Latin American Communist systems and their challenges to the non Communist world and concludes by evaluating the democratic revolutions in the former Soviet Union and in Eastern Europe their possible effect on other Communist states why the revolutions surprised Western pundits and the implications of these events for world peace **The Political Economy of Asian Transition**

from Communism Sujian Guo,2017-11-28 A comparative study of the political economy of the transition from communism in East and Southeast Asian countries China North Korea Vietnam Laos and Cambodia addressing the key theoretical questions generated from the debate between shock therapists and gradualists While accurately defining the pre reform model this book explores the causal variables that have contributed to reform efforts within Asia examining the significance of the sequencing of political and economic transition and the interplay between politics and the economy in determining variations in transition outcomes Comparing the real world experiences of transition nations in communist Asia with Eastern Europe prominent questions are brought to the fore will market capitalism or market socialism prevail after the grand failure of communism This book makes an important contribution to the political economy theory of comparative communist and post communist studies and provides detailed analytical insights that will prove influential in future theoretical work

Political Violence, Crises and Revolutions (Routledge Revivals) Ekkart Zimmermann,2013-04-15 First published in 1983 this extraordinary study provides a comprehensive systematic evaluation of cross national theorizing and quantitative empirical evidence on four interrelated phenomena Political violenceCrisesMilitary Coups D tatRevolutions Findings from social psychological research on aggression are integrated in this outstanding study as well as results reported in social historical studies of revolution The focus of the book is always on analytical perspectives and correspondi **Adaptation**

And Transformation In Communist And Post-communist Systems Sabrina Petra Ramet,2019-03-04 This book tackles different aspects of the adaptive and transformative process in communist and post communist systems in Eastern Europe offering competing models which locate the explanatory variable in different places and account for the unfolding of change in different ways **The Political Economy of Reform in Post-Mao China** Elizabeth J. Perry,Christine Wong,2020-10-26

In December 1978 the Chinese Communist Party announced dramatic changes in policy for both agriculture and industry

that seemed to repudiate the Maoist road to socialism in favor of certain capitalist tendencies The motives behind these changes the nature of the reforms and their effects upon the economy and political life of countryside and city are here analyzed by five political scientists and five economists Their assessments of ongoing efforts to implement the new policies provide a timely survey of what is currently happening in China Part One delineates the content of agricultural reforms including decollectivization and the provisions for households to realize private profits and examines their impact on production marketing peasant income family planning local leadership and rural violence Part Two examines the evolution of industrial reforms centering on enterprise profit retention and their impact on political conflict resource allocation investment material and financial flows industrial structure and composition of output Through all ten chapters one theme is conspicuous the multiple interactions between politics and economics in China s new directions since the Cultural Revolution

Apostles of Revolution? Marxism and Biblical Studies Christina Petterson,2020-04-20 In Apostles of Revolution Marxism and Biblical Studies Christina Petterson sheds light on the collaboration between Biblical studies and liberal ideology Marxist analysis of the bible is spreading but clarity about what constitutes Marxist readings and Marxist categories of analysis is lacking a lack of clarity compounded by the different strands within Marxist politics and its subtle resonances in biblical scholarship The author examines the interplay between Biblical studies and liberal ideology in two ways First by presenting and discussing some of the central Marxist categories of analysis namely history ideology and class and how these categories have been co opted into biblical studies and in the process lost their radical edge Second by discussing the emergence of the discipline of biblical studies during the Enlightenment and to what extent the containment strategies of biblical studies overlap with those of capitalism

Problems of Democratization in China Thomas G. Lum,2015-01-28 While evaluating competing theories of why countries become democratic this study argues why China has not democratized Also discusses are the Communist Party s methods of social control and examines four groups Party and government cadres intellectuals workers and peasants

Communist Systems and Challenges Amos Yoder,1990 Sets forth a framework of facts and analyses to better understand the changing aspects of communism today It asks What are the basic elements of the communist ideology that have allowed it to influence the thinking of half the world as well as other critical questions

The Revolutions of 1848 Karl Marx,2010-08-31 Karl Marx was not only the great theorist of capitalism he was above all else a revolutionary In Paris in 1844 he made the connection between radical philosophy and the proletariat that would guide his future work first with the Communist League and later with the International Workingmen s Association Marx s Political Writings display a profound understanding of history and politics that is still relevant to the very different conditions of today Volume 1 The Revolutions of 1848 Marx and Engels had already sketched out the principles of scientific communism by 1846 Yet it was from his intense involvement in the abortive German revolution of 1848 that Marx developed a profound practical understanding he would draw on throughout his later career This volume includes his great call to arms The Communist

Manifesto and also demonstrates Marx's unsuccessful attempt to spur the German bourgeoisie to decisive action against absolutism. His articles offer trenchant analyses of events in France, Poland, Prague, Berlin, and Vienna while speeches set out changing communist tactics.

Policy Making in China Kenneth Lieberthal, Michel Oksenberg, 2020-11-10. The description for this book *Policy Making in China* will be forthcoming.

Unparalleled Reforms Christopher Marsh, 2005-01-01. The reforms of the Soviet and Chinese communist regimes were unparalleled both in the radical precedent setting reforms attempted by the two countries and in the outcomes of these attempts. While the Soviet Union collapsed quickly in the midst of its reforms, more than a decade later China, the world's most populous country, still stands as a testament to the resilience of Communist rule. It is this phenomenon that Christopher Marsh explores in *Unparalleled Reforms*. Marsh goes beyond simply discussing the differing initial conditions, the sequencing of reform, and cultural differences to also consider the objectives and intentions of the policy makers and leaders that directed the reform processes and the interdependent nature of politics on the world stage. *Unparalleled Reforms* offers the reader a sophisticated understanding of the nature of political reform and develops a theoretical model that can account for commonly overlooked factors that affect political processes in all types of political systems. In a class all its own, this is an important work for scholars interested in comparative politics, international relations, economics, Asian studies, and Russian studies.

Reform and Reaction in Post-Mao China Richard Baum, 2018-09-18. The decade of the 1980s began in China with great expectations of the societal benefits of modernisation and ended with gunfire in Tiananmen Square. This book, first published in 1991, presents essays that explore the political and economic reform policies that emerged in post-Mao China under Deng Xiaoping. In general, they conclude that the advent of partial marketization and structural reform tended to magnify structural contradictions rather than solve them.

Economic Reforms in the Socialist World Stanislaw Gomulka, Yong-Chool Ha, Se-wŏn Kim, First Published in 1990. Routledge is an imprint of Taylor & Francis, an Informa company.

Popular Protest And Political Culture In Modern China Jeffrey N. Wasserstrom, 2018-02-07. This innovative and widely praised volume uses the dramatic occupation of Tiananmen Square as the foundation for rethinking the cultural dimensions of Chinese politics. Now in a revised and expanded second edition, the book includes enhanced coverage of key issues such as the political dimensions of popular culture addressed in a new chapter on Chinese rock and roll by Andrew Jones and the struggle for control of public discourse in the post-1989 era discussed in a new chapter by Tony Saich. Two especially valuable additions to the second edition are art historian Tsao Tsing-yuan's eyewitness account of the making of the Goddess of Democracy and an exposition of Chinese understandings of the term revolution contributed by Liu Xiaobo, one of China's most controversial dissident intellectuals. The volume also includes an analysis by noted social theorist and historical sociologist Craig C. Calhoun of the similarities and differences between the new social movements of recent decades and the old social movements of earlier eras.
