Reform In Nineteenth Century China:

Reform in Nineteenth-Century China John E. Schrecker, 2020-03-17 An edited volume consisting of 33 papers presented at Harvard University's East Asian Research Center's 1975 workshop on reform in China in the nineteenth century. The book is divided into eight parts each with a general thematic introduction, several essays on more specialized topics, and a summary of the discussion that took place at the conference. Reform in Nineteenth-century China Harvard University. East Asian Research Center, 1976. Proceedings of a workshop held under the auspices of the East Asian Research Center at Harvard University July 7-18, 1975. **Radicalism and Education Reform in 20th-Century China** Suzanne

Pepper, 2000-07-10 The first comprehensive book to cover the whole sweep of twentieth century Chinese education.

Speaking of Profit William T. Rowe, 2020-10-26 In the first half of the nineteenth century the Qing Empire faced a crisis. It was broadly perceived both inside and outside of government that the prosperous age of the eighteenth century was over. Bureaucratic corruption and malaise, population pressure and food shortages, ecological and infrastructural decay, domestic and frontier rebellion, adverse balances of trade, and eventually a previously inconceivable foreign threat from the West seemed to present hopelessly daunting challenges. This study uses the literati reformer Bao Shichen as a prism to understand contemporary perceptions of and proposed solutions to this general crisis. Though Bao only briefly and inconsequentially served in office himself, he was widely recognized as an expert on each of these matters, and his advice was regularly sought by reform-minded administrators. From examination of his thought on bureaucratic and fiscal restructuring, agricultural improvement, the grain tribute administration, the salt monopoly, monetary policy, and foreign relations, Bao emerges as a consistent advocate of the hard-nosed pursuit of material profit in the interests not only of the rural populace but also of the Chinese state and nation, anticipating the arguments of self-strengthening reformers later in the century. **The Cambridge**

History of China Roderick MacFarquhar, John King Fairbank, 1987. *China's Early Modernization and Reform Movement* Kwang-Ching Liu, 2009. **Discovering History in China** Paul A. Cohen, 2010-04-29 Since its first publication, Paul A. Cohen's *Discovering History in China* has occupied a singular place in American China scholarship. Translated into three East Asian languages, the volume has become essential to the study of China from the early nineteenth century to today. Cohen critiques the work of leading postwar scholars and is especially adamant about not reading China through the lens of Western history. To this end, he uncovers the strong ethnocentric bias pervading the three major conceptual frameworks of American scholarship of the 1950s and 1960s: the impact response, modernization, and imperialism approaches. In place of these, Cohen favors a China-centered approach in which historians understand Chinese history on its own terms, paying close attention to Chinese historical trajectories and Chinese perceptions of their problems rather than a set of expectations derived from Western history. In an important new introduction, Cohen reflects on his fifty-year career as a historian of China and discusses major recent trends in the field. Although some of these developments challenge a narrowly conceived China-centered

approach insofar as they enable more balanced comparisons between China and the West and recast the Chinese and their history in more human less exotic terms they powerfully affirm the central thrust of Cohen s work **China's Economic Future** Joint Economic Committee Congress of the United States,2016-12-05 This is the latest Joint Economic Committee volume on the Chinese economy With the current state of US China relations and Hong Kong s accession in 1997 the study should provide policy makers in the USA with a useful tool in guiding economic policy toward China Historical Dictionary of Modern China (1800-1949) James Z. Gao,2009-06-16 The Historical Dictionary of Modern China 1800 1949 offers a concise but comprehensive examination of the political military economic social and cultural development of modern China Instead of focusing merely on the political elites of China this reference covers a variety of significant persons including women and ethnic minorities new historical concepts cultural and educational institutions and economic activities Drawing on newly available records including a large mass of governmental and family archives the narratives presented reveal new facts offer a new interpretation in accordance with China s modernization process during the late Qing period and a revisionist perspective on the Republican history The chronology records not only political and military events but also other experiences of the Chinese people The bibliography gives prominence to current literature on China s drive towards modernization and appendixes provide the reader with detailed information on China s cultural and economic transformation

Reform in 19th-century China Paul A. Cohen,John E. Schrecker,1976 **Translating Science** David Wright,2000 This fascinating richly illustrated account of the translation of Western science particularly chemistry into late nineteenth century China provides new insights both into the lives of the Chinese and foreign translators and into the processes and influences of science translation **Different Worlds of Discourse** Nanxiu Qian,Grace S. Fong,Richard Joseph Smith,2008 During the late Qing reform era 1895 1912 women for the first time in Chinese history emerged in public space in collective groups They assumed new social and educational roles and engaged in intense debates about the place of women in China s present and future These debates found expression in new media including periodicals and pictorials which not only harnessed the power of existing cultural forms but also encouraged experimentation with a variety of new literary genres and styles works increasingly produced by and for Chinese women Different Worlds of Discourse explores the reform period from three interrelated and comparatively neglected perspectives the construction of gender roles the development of literary genres and the emergence of new forms of print media *The Columbia Guide to Modern Chinese History* R. Keith Schoppa,2000-08-05 China the world s oldest and most populous state remains an enigma to most people in the West even at a time when that country is playing an increasingly prominent role on the international stage At the heart of modern Chinese history have been the efforts of the Chinese people to transform their polity into a modern nation state the Confucian orthodoxy into an ideology that can help direct that process and an agrarian economy into an industrial one These efforts are ongoing and of great importance This book is both an introduction to the major features of modern Chinese history and a

resource for researchers interested in virtually any topic relating to the Chinese experience of the last 220 years This valuable reference contains a historical narrative providing a comprehensive overview of five core aspects of Chinese history domestic politics society the economy the world of culture and thought and relations with the outside world a compendium of 250 short descriptive articles on key figures events and terms a resource guide containing approximately 500 annotated entries for the most authoritative sources for further research in English as well as descriptions of important films depicting modern China and a guide to electronic resources and appendices including a chronology excerpts from key primary source documents and a wealth of tables and graphs on demographic social and economic trends

Education, Culture, and Identity in Twentieth-century China Glen Peterson, Ruth Hayhoe, Yongling Lu, 2001 A comprehensive collection on twentieth century educational practices in China

Chinese Business Groups in Hong Kong and Political Change in South China 1900-1925 S. Chung, 1998-04-27 Politics can be a profitable business as can be found in Republican era Canton amidst a politically fragmented China Competing merchant groups in Hong Kong sought to finance the regional Canton government in return for financial concessions This patronage system made commercial endeavours dependent on politics and embedded business in politics

Assessment of China Into the 21st Century A. M. Canyon, 1997 This book examines the future prospects of China including military economic and social considerations

Intellectuals and the State in Modern China Jerome B. Grieder, 1983-04 Traces the lives and accomplishments of Chinese intellectuals from the Boxer Rebellion to the birth of the Peoples Republic and details their responses to change and tradition

V.K. Wellington Koo and the Emergence of Modern China Stephen G. Craft, 2014-10-17 Chinese diplomat V K Wellington Koo 1888 1985 was involved in virtually every foreign and domestic crisis in twentieth century China After earning a Ph D from Columbia University Koo entered government service in 1912 intent on revising the unequal treaty system imposed on China in the nineteenth century believing that breaking the shackles of imperialism would bring China into the family of nations His pursuit of this nationalistic agenda was immediately interrupted by Chinese civil war and Japanese imperialism during World War I In the 1930s Koo attempted to use international law to force western powers to honor their treaty obligations to punish Japanese expansion Koo also participated in creating the League of Nations and later the United Nations in the hope that collective security would become reality

The Qing Dynasty and Traditional Chinese Culture Richard J. Smith, 2015-10-23 The Qing dynasty 1636 1912 a crucial bridge between traditional and modern China was remarkable for its expansiveness and cultural sophistication This engaging and insightful history of Qing political social and cultural life traces the complex interaction between the Inner Asian traditions of the Manchus who conquered China in 1644 and indigenous Chinese cultural traditions Noted historian Richard J Smith argues that the pragmatic Qing emperors presented a Chinese face to their subjects who lived south of the Great Wall and other ethnic faces particularly Manchu Mongolian Central Asian and Tibetan to subjects in other parts of their vast multicultural empire They were attracted by many aspects of Chinese culture but far

from being completely sinicized as many scholars argue they were also proud of their own cultural traditions and interested in other cultures as well Setting Qing dynasty culture in historical and global perspective Smith shows how the Chinese of the era viewed the world how their outlook was expressed in their institutions material culture and customs and how China's preoccupation with order unity and harmony contributed to the civilization's remarkable cohesiveness and continuity Nuanced and wide ranging his authoritative book provides an essential introduction to late imperial Chinese culture and society China's Quest for National Identity Lowell Dittmer, Samuel S. Kim, 2018-07-05 How to define a Chinese national identity remains as hotly contested a question among today's Chinese citizens as it has been among foreign observers This volume brings together ten new essays by an interdisciplinary group of leading sinologists and offers a comprehensive framework for understanding the nature of Chinese national identity in past and contemporary settings
