Anderson, 2012-03-14 In the eighteenth century British Methodism was an object of both derision and desire Many popular eighteenth century works ridiculed Methodists yet often the very same plays novels and prints that cast Methodists as primitive irrational or deluded also betrayed a thinly cloaked fascination with the experiences of divine presence attributed to the new evangelical movement Misty G Anderson argues that writers actors and artists used Methodism as a concept to interrogate the boundaries of the self and the fluid relationships between religion and literature between reason and enthusiasm and between theater and belief Imagining Methodism situates works by Henry Fielding John Cleland Samuel Foote William Hogarth Horace Walpole Tobias Smollett and others alongside the

contributions of John Wesley Charles Wesley and George Whitefield in order to understand how Methodism's brand of experimental religion was both born of the modern world and perceived as a threat to it. Anderson's analysis of reactions to Methodism exposes a complicated interlocking picture of the religious and the secular terms less transparent than they seem in current critical usage. Her argument is not about the lives of eighteenth-century Methodists; rather, it is about Methodism as it was imagined in the work of eighteenth-century British writers and artists where it served as a sign of sexual cognitive and social danger. By situating satiric images of Methodists in their popular contexts, she recaptures a vigorous cultural debate over the domains of religion and literature in the modern British imagination. Rich in cultural and literary analysis, Anderson's argument will be of interest to students and scholars of the eighteenth-century religious studies, theater, and the history of gender.

Prostitution and Social Control in Eighteenth-Century Ports Marion Pluskota, 2018-10-24 In the last third of the eighteenth century, Bristol and Nantes were two of the most active commercial ports of England and France despite a slowdown of their economy. Their economies were based primarily on the maritime trade but they developed alongside Atlantic industries that attracted many migrants, both male and female, from the surrounding countryside and from abroad. The busy urban environment, the high number of sailors and single men migrating to the port, and the decline of female house-based proto-industries were factors encouraging the development of prostitution. How prostitution is perceived in the context of social control and urban change is key to understanding the evolving attitudes to gender and sexuality in the eighteenth century. In this comparative study, Marion Pluskota offers an analysis of the lives of prostitutes that looks beyond a purely criminal perspective and which encompasses their roles within their families, relationships, and social networks. Using police and judicial records, she provides a valuable corrective to the narrow analysis of prostitutes in terms of immorality or deviance. The unique forms of development and problems faced by port cities in the early modern period make them particularly interesting subjects for comparative history. This book is well suited for those who study social history, gender, and women's history.

The Love of Strangers Nile Green, 2020-10-13 How a group of Iranian students sought love and learning in Jane Austen's London. In July 1815, six Iranian students arrived in London under the escort of their chaperone, Captain Joseph D'Arcy. Their mission was to master the modern sciences behind the rapid rise of Europe. Over the next four years, they lived both the low life and high life of Regency London, from being down and out after their abandonment by D'Arcy to charming their way into society and landing on the gossip pages. *The Love of Strangers* tells the story of their search for love and learning in Jane Austen's England. Drawing on the Persian diary of the student Mirza Salih and the letters of his companions, Nile Green vividly describes how these adaptable Muslim migrants learned to enjoy the opera and take the waters at Bath. But there was more than frivolity to their student years in London. Burdened with acquiring the technology to defend Iran against Russia, they talked their way into the observatories, hospitals, and steam-powered factories that placed England at the forefront of the scientific revolution. All the while, Salih dreamed of becoming the first Muslim to study at

Oxford The Love of Strangers chronicles the frustration and fellowship of six young men abroad to open a unique window onto the transformative encounter between an Evangelical England and an Islamic Iran at the dawn of the modern age This is that rarest of books about the Middle East and the West a story of friendships
