Reforming the European Union Andrew Duff, 1997 Recoge 1 State of the union 2 In with the euro 3 Building the Union 4 Security of the Union 5 Enlarging the Union 6 Justice and fair play 7 Prosperity of the Union 8 Divided we stand

Reforming the European Union Daniel Finke, 2012-07-29 For decades the European Union tried changing its institutions but achieved only unsatisfying political compromises and modest incremental treaty revisions In late 2009 however the EU was successfully reformed through the Treaty of Lisbon *Reforming the European Union* examines how political leaders ratified this treaty against all odds and shows how this victory involved all stages of treaty reform negotiations from the initial proposal to referendums in several European countries The authors emphasize the strategic role of political leadership and domestic politics and they use state of the art methodology applying a comprehensive data set for actors reform preferences They look at how political leaders reacted to apparent failures of the process by recreating or changing the rules of the game While domestic actors played a significant role in the process their influence over the outcome was limited as leaders ignored negative referendums and plowed ahead with intended reforms The book's empirical analyses shed light on critical episodes strategic agenda setting during the European Convention the choice of ratification instrument intergovernmental bargaining dynamics and the reaction of the German Council presidency to the negative referendums in France the Netherlands and Ireland

Reforming the European Commission Michael W. Bauer, 2013-10-18 Many international and supranational organisations have lately been busy modernising their internal administration But nowhere has management change received a similar amount of attention than in the case of the European Commission Although the perception prevails that the Commission has been losing out in recent years this vivid interest academic as well as public in the so called Kinnock reform suggests that this organisation still remains at the heart of the Union The proposition of this book thus is simple If it remains true that the Commission is an essential part within the admittedly complex equation of EU policy making changes of the administration basis of this actor are likely to have broader implications Consequently this special issue poses three crucial questions about the recent administrative reform of the European Commission why was such a comprehensive reform possible what are its specific implications for the Commission as an organisation and what is the likely impact for the policy process In short this book puts the organisational base of EU policy making centre stage In the quest for answers the authors of the subsequent chapters take distinct perspectives use various research strategies and methods and attempt to solve diverse empirical puzzles But all attempt to add to our understanding of this organisational base and how to systematically study it This book was published as a special issue of the *Journal of European Public Policy*

Social developments in the European Union 2010 Degryse C. and Natali D., 2011 2010 was a critical year for the European Union EU in at least three major respects First of all many EU countries started showing signs of increased financial stress while the eurozone began to be affected by a true debt crisis extending well beyond the highly publicised case of Greece Secondly the European Union strove to achieve renewal through its first steps to implement the Lisbon Treaty that had come into force on 1 December 2009 The third reason why 2010 represented a turning point for the EU is that the ten year Lisbon Strategy launched by the European Council in March 2000 as a framework for EU socio economic policy coordination formally reached its end in June 2010 when EU leaders adopted the new Europe 2020 Strategy All of these developments will have deep and long lasting effects on social policy at both national and supra national level This 2010 edition of *Social developments in the European Union* examines the ways in which the EU has tackled the main challenges related to the fiscal crisis the first steps towards implementation of the Lisbon Treaty and the launch of the EU2020 Strategy The volume sheds light on a number of aspects including the risks for the European social model and European integration project the state of the debate on revision of the Stability and Growth Pact the impact of the economic and financial crisis on pensions the new EU employment policy roadmap and more generally the tensions risks and opportunities generated by Europe 2020

CC BY NC ND licence **An American Constitution for Europe** Jeffrey P. Cajka, 2016-12-30 The European Union foresaw a united prosperous Europe free of military conflict That view has been muddled by the economic collapse of 2008 the revived aggressiveness of Russia and a refugee crisis that has divided the Union and caused Britain to begin the process of leaving Although the problems faced by the United States after the American Revolution were different the forces that threaten to collapse the EU were also present in early America At the 1789 US Constitutional Convention the delegates made their system of government stronger In short this book presents a Constitution for The Federation of European Nations FEN based on the US Constitution but including some areas that appeal to Europeans and excluding those that still cause problems in the US **Brexit and the Future of the European Union** Federico Fabbrini, 2020 This volume aims to explore the implications of Brexit for the ongoing debate on the future of Europe first by mapping the process of UK withdrawal from the EU through the Brexit referendum negotiations and extensions and then by exploring effect of Brexit on the EU institutions treaties and integration processes **Reforming European Welfare States** Jochen Clasen, 2005-08-25 Welfare state reform has been a focus of domestic policy making in many European countries in recent years Representing almost a third of the EU population and two distinctive models of European welfare states this book compares development in British and German social policy over the past 25 years During this time four periods of conservative governments were followed by centre left administrations in both countries Moreover the respective economic and social positions of the two countries have been reversed Adverse socio economic developments have contributed to the waning of the erstwhile appeal of Germany as a role model of welfare capitalism By contrast the UK is seen by some as being on its way to gaining such a position These trends provide an analytically intriguing background for a systematic contextualized comparison of reform processes in the two welfare states Concentrating on three core domains of social policy the book argues that unemployment support and public pension programmes have been subjected to retrenchment as well as to restructuring By contrast family policies have been extended in both countries However patterns of retrenchment and restructuring differ across countries and programmes In order to explain similarities and variations the book emphasizes the relevance of three sets of factors shifts in party policy preferences and power relations three institutional variables and contingent factors impinging on policy direction and profiles Within pension policy the relevance of different institutional characteristics and the respective balance between private and public forms of retirement suggest that the concept of path dependence is particularly instructive By contrast differences in programme structures and their role within national political economies prove to be most relevant for the understanding of changes in unemployment support policy Less institutionally embedded and expanding the trajectories of family policies have to be seen in the context of dynamic party policy preferences **The Budget of the European Union and German European Policy** Peter Becker, 2024-07-18 This book presents in detail the negotiations on the budget of the European Union which take place every seven years and discusses the central elements of this European budgetary

system The author explains the various interests and the resulting distributional conflicts traces the genesis of this highly complex process discusses the system of inflows and reflows and sheds particular light on German European policy
