The Politics of Ritual Kinship Nicholas Terpstra,2000 Confraternities were the most common form of organized religious life in medieval and early modern Europe They were at once the lay face of the church the spiritual heart of civic government and the social kin who claimed the allegiance of peers and the obedience of subordinates In this 1999 collection fifteen scholars examine the development of confraternities in Italy where they emerged first and had the greatest impact Individual essays explore a common set of themes across Italy from the twelfth to the eighteenth centuries the ubiquity of confraternities social construction and devotional ethos their ritual culture and civic religion their antagonistic and collaborative relations with both civic and ecclesiastical authorities and their role in social welfare and social control of marginal groups The authors demonstrate how the ritual kinship expressed in confraternities emerged in the Middle Ages and became a powerful force in civilizing early modern Italian society **Caste and Kinship in Central India** Adrian

Mayer,2023-07-28 Caste and Kinship in Central India A Village and Its Region offers an in depth exploration of the intricate social dynamics within a multi caste village and its surrounding region The book delves into the pivotal role of caste as the foundational axis of political economic and kinship structures in Indian village life It meticulously unpacks the layered relationships between caste subcaste and kinship emphasizing the local and regional frameworks within which these social units operate The analysis reveals three levels of caste membership the kindred of cooperation kindred of recognition and broader subcaste all of which influence individuals social roles and interactions Through this nuanced lens the study sheds light on the mechanisms of social control marriage alliances and group interactions providing a comprehensive account of how caste functions both within and beyond the village boundaries This scholarly work also addresses the broader implications of caste in regional and inter village contexts challenging the conventional notion of the village as a self

contained entity By distinguishing between intra caste subcaste based and inter caste dynamics the book highlights how individuals navigate their dual identities as members of both caste and subcaste influenced by patrilineal and exogamous practices The study s innovative approach bridges local and regional analyses offering a fresh perspective on caste systems as both static and adaptive entities within India s socio cultural landscape This book is an essential resource for scholars of anthropology sociology and South Asian studies seeking a deeper understanding of caste s multifaceted role in shaping community life This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1960 **Godparents and Kinship in Early Medieval Europe** Joseph H.
