**Manifest Destiny's Underworld** Robert E. May,2003-04-03 This fascinating study sheds new light on antebellum America's notorious filibusters the freebooters and adventurers who organized or participated in armed invasions of nations with whom the United States was formally at peace Offering the first full scale analysis of the filibustering movement Robert May relates the often tragic stories of illegal expeditions into Cuba Mexico Ecuador Nicaragua and other Latin American countries and details surprising numbers of aborted plots as well May investigates why thousands of men joined filibustering expeditions how they were financed and why the U S government had little success in curtailing them Surveying antebellum popular media he shows how the filibustering phenomenon infiltrated the American psyche in newspapers theater music advertising and literature Condemned abroad as pirates frequently in language strikingly similar to modern American denunciations of foreign terrorists the filibusters were often celebrated at home as heroes who epitomized the spirit of Manifest Destiny May concludes by exploring the national consequences of filibustering arguing that the practice inflicted lasting damage on U S relations with foreign countries and contributed to the North South division over slavery that culminated in the Civil War      *Audio and Record Review* ,1962      Podcasting For Dummies Tee Morris,Chuck

Mathilde Vialard,2024-02-26 Drawing on the recent academic interest in approaching health and wellbeing from a humanities perspective *Sensation Novels and Domestic Minds* investigates how the Victorians dealt with questions of mental health by examining literary works in the genre of sensation fiction The novels of Mary Elizabeth Braddon and Wilkie Collins two prominent writers of the genre often portray characters suffering from mental illnesses commonly diagnosed at the time among which are monomania moral insanity melancholia and hypochondria By studying the fictional works of Braddon and Collins alongside medical texts from the nineteenth century it sets out to investigate how these novels fictionally represented

real mental sufferings This book considers the different mental illnesses the characters of sensation novels develop inside and outside the home as they struggle to define their own identity against Victorian social expectations It demonstrates how these novels fictionalised the crisis of the leisured upper classes who spent most of their time at home and found themselves at odds with a society that increasingly separated the domestic and working environments while also considering the impact that a lack of a sense of domestic belonging could have on their mental health Sensation Novels and Domestic Minds further analyses the extent to which domesticity in its excess or lack could afflict the mental health of Victorian men and women through the fictional representation of suicidal thoughts and acts in the novels of Braddon and Collins Century Path ,1905
