

THE ROAD
TO DELPHI

MICHAEL WOOD

"The Road to Delphi is a refreshingly original and sometimes startling rereading of ourselves, from ancient antiquity on through Shakespeare to our current perplexities of medicine and terrorism. For Wood, the gods keep returning, but only to confound us."

Road To Delphi The Life And Afterlife Of Oracles:

The Road to Delphi Michael Wood, 2003 In this lively and engaging work an erudite eloquent and wide ranging examination of oracles is offered by one of the world's most creative literary critics **Road to Delphi: The Life and Afterlife of Oracles** Michael Wood, 2004-07-01 Cultures of all epochs have consulted oracles in times of need This fascinating exploration of the enduring popularity of oracles examines how they are interpreted and why Taking examples from literature and history from the oracles at Delphi to those in Macbeth and further still to the works of Kafka and Bob Dylan and even in the film The Matrix Wood combines storytelling and commentary to provide a lively account of humanity's persistent faith in signs which continues to exert an important influence on the course of civilization *The Road to Delphi* Michael Wood, 2004-07 Cultures of all epochs have consulted oracles in times of need This fascinating exploration of the enduring popularity of oracles examines how they are interpreted and why Taking examples from literature and history from the oracles at Delphi to those in Macbeth and further still to the works of Kafka and Bob Dylan and even in the film The Matrix Wood combines storytelling and commentary to provide a lively account of humanity's persistent faith in signs which continues to exert an important influence on the course of civilization **The Devil's Tabernacle** Anthony

Ossa-Richardson, 2013-07-21 The Devil's Tabernacle is the first book to examine in depth the intellectual and cultural impact of the oracles of pagan antiquity on modern European thought Anthony Ossa Richardson shows how the study of the oracles influenced and was influenced by some of the most significant developments in early modernity such as the Christian humanist recovery of ancient religion confessional polemics Deist and libertine challenges to religion antiquarianism and early archaeology Romantic historiography and spiritualism Ossa Richardson examines the different views of the oracles since the Renaissance that they were the work of the devil or natural causes or the fraud of priests or finally an organic element of ancient Greek society The range of discussion on the subject as he demonstrates is considerably more complex than has been realized before hundreds of scholars theologians and critics commented on the oracles drawing on a huge variety of intellectual contexts to frame their beliefs In a central chapter Ossa Richardson interrogates the landmark dispute on the oracles between Bernard de Fontenelle and Jean François Baltus challenging Whiggish assumptions about the mechanics of debate on the cusp of the Enlightenment With erudition and an eye for detail he argues that on both sides of the controversy to speak of the ancient oracles in early modernity was to speak of one's own historical identity as a Christian

Life Writing and the End of Empire Emma Parker, 2024-03-21 The dismantlement of the British Empire had a profound impact on many celebrated white Anglophone writers of the twentieth century particularly those who were raised in former British colonial territories and returned to the metropole after the Second World War Formal decolonisation meant that these authors were unable to go home to their colonial childhoods a historical juncture with profound consequences for how they wrote and recorded their own lives Moving beyond previous discussions of imperial and colonial nostalgia Life Writing and

the End of Empire is the first critical study of white memoirists and autobiographers who rewrote their memories of empire across numerous life narratives By focussing on these processual homecomings Emma Parker's study asks what it means to be at home in memories of empire whether in the settler farms of Southern Rhodesia or amidst the neon lights of Shanghai's International Settlement These discussions trace the legacies of empire to the habitations and detritus of everyday life from mansions and modest railway huts to empty swimming pools heirlooms and photograph albums Exploring works by Penelope Lively J G Ballard Doris Lessing and Janet Frame this study establishes new connections between authors usually discussed for their fiction and who have been hitherto unrecognised as post imperial life writers Offering close sustained analysis of autobiographies memoirs travel narratives and autofictions and identifying new subgenres such as speculative life writing this book advances rich new readings of autobiographical narrative By tracing the continuing importance of colonialism to white subjectivity the role of imperial memory in Britain and the ways that these unsettling forces move beneath the surface of modern and contemporary literature this study offers new conceptual insights to the fields of life writing and postcolonial studies

Mercury's Wings Richard J. A. Talbert, Fred S. Naiden, 2017-04-27 Mercury's Wings marks a milestone as the first ever volume devoted to ancient communications Its eighteen wide ranging essays by art historians Assyriologists Classicists and Egyptologists explore communications as a powerful vehicle not just for the transmission of information but also for the conduct of religion commerce diplomacy culture and more

Kierkegaard and Climate Catastrophe Isak Winkel Holm, 2023 This volume argues for the relevance of Kierkegaard's employment of the prophetic noir modelled after the prophetic books of the Hebrew Bible to understanding how to live in a time of climate change

Classics and Media Theory Pantelis Michelakis, 2020 Introducing a largely neglected area of existing interactions between Greco Roman antiquity and media theory this volume brings together a range of interdisciplinary studies to address the question of why interactions in this area matter and how they might be developed further

Freudian Mythologies Rachel Bowlby, 2007-02-22 Rachel Bowlby suggests that with the multiplication of sexual roles family forms and reproductive technologies Freud's Oedipus complex may have lost its relevance This book takes two Freudian routes to think about some of the entanglements of identity

Antiquity and the Meanings of Time Duncan F. Kennedy, 2013-05-30 Society and contemporary culture seem forever fascinated by the topic of time In modern fiction Ian McEwan's *The Child in Time* and Martin Amis's *Time's Arrow* have led the way in exploring the human condition in relation to past present and future In cinema several cultural texts *Memento* *Minority Report* *The Hours* have similarly reflected a preoccupation with temporality and human experience And in the sphere of politics debates about the end of history prompted by Francis Fukuyama indicate that how we live is deeply determined by our relationship not only to place but also to the passing of time But what did the ancients think about time Is our interest in chronology a relatively recent phenomenon Or does it go further back In his major new work Duncan Kennedy indicates that our own fascination with time reckoning is by no means unique Discussing a number of key texts such as

Homer's *Odyssey*, Sophocles' *Oedipus Rex*, Virgil's *Aeneid* and Ovid's *Metamorphoses* and imaginatively setting these side by side with modern works such as Sterne's *Tristram Shandy* and Joyce's *Ulysses* he shows that from era to era and in different ways human beings have uniformly striven to understand the unfolding of history and their relationship to it. This sophisticated cross disciplinary book will appeal not only to classicists but also to scholars and students in the humanities more broadly as well as beyond.
