put you in touch with such seemingly unrelated endeavors It will open your eyes and broaden your mind as little else could Roger W Sinnott Sky Telescope *Celestial Sleuth* Donald W. Olson,2013-10-02 For a general audience interested in solving mysteries in art history and literature using the methods of science forensic astronomy is a thrilling new field of exploration Astronomical calculations are the basis of the studies which have the advantage of bringing to readers both evocative images and a better understanding of the skies Weather facts volcano studies topography tides historical letters and diaries famous paintings military records and the friendly assistance of experts in related fields add variety depth and interest to the work The chosen topics are selected for their wide public recognition and intrigue involving artists such as Vincent van Gogh Claude Monet Edvard Munch and Ansel Adams historical events such as the Battle of Marathon the death of Julius Caesar the American Revolution and World War II and literary authors such as Chaucer Shakespeare Joyce and Mary Shelley This book sets out to answer these mysteries indicated with the means and expertise of astronomy opening the door to a richer experience of human culture and its relationship with nature Each subject is carefully analyzed As an example using the study of sky paintings by Vincent van Gogh the analytical method would include computer calculations of historical skies above France in the 19th century finding and quoting the clues found in translations of original letters by Van Gogh making site visits to France to determine the precise locations when Van Gogh set up his easel and what celestial objects are depicted For each historical event influenced by astronomy there would be a different kind of mystery to be solved As an example How can the phase of the Moon and time of moonrise help to explain a turning point of the American Civil War the fatal wounding of Stonewall Jackson at Chancellorsville in 1863 For each literary reference to astronomy it was determined which celestial objects were being described and making an argument that the author is describing an actual event For example what was the date of the moonlit scene when Mary Shelley first had the idea for her novel Frankenstein These and more fun riddles will enchant and delight the fan of art and astronomy Van Gogh Landscapes Cristina Berna, Eric Thomsen, Vincent Van Gogh 1853 1890 is often mentioned as one of the best examples of Japonism Western art inspired by Japanese art Van Gogh was infatuated with a vision of Japanese art He experienced this mainly from Japanese woodblock prints which became widely available after Commodore Matthew Perry forced Japan to open with the Convention of Kanagawa in 1854 after abt 250 years of seclusion Van Gogh and his brother Theo dealt in these prints for a while and Van Gogh s studio was literally plastered with them Van Gogh vision of Japan was a mythical fantasy an ideal for the artist and he even tried to establish an artist s colony to live out this dream Japan on the other hand and especially the woodblock print artists were inspired by earlier Dutch engraved prints which had a profound influence on artists like Katsushika Hokusai from abt 1800 It was from these prints Western perspective entered into Japanese art In the period from abt 1800 to 1850 Japanese prints evolved with Hokusai s 36 Views of Mt Fuji and became the inspiration that met painters like van Gogh In a way what these Western artists saw was a Japanese mirror of their own processed artistic tradition **Soul Federation**

Toshio Suzuki,2010-04-30 The basic topic of this book is to advocate the establishment of a world federation and world government and to consider the philosophy on how we can be happy As for the establishment of a world federation and world government the benefits of a world federation and world government are introduced As for the philosophy on how we can be happy some religious thoughts are introduced For example an idea which improves Einsteins theory of relativity is introduced The Basic philosophy is that we must do good if we want to be happy Our mission from God is to make a world where all people can live happily These thoughts lead to the establishment of world federation and world government

The Passions of Vincent van Gogh B. Ione Mutchler Ph. D.,2014-04-16 Vincent van Gogh s life was driven by passions from the religious to the romantic These passions illuminated his work as an artist but also led to his many disappointments in life Whether attempting to be a missionary falling in love with his cousin sheltering a prostitute and her children proposing to his neighbor s spinster daughter or establishing an art colony with Paul Gauguin failure haunted him Although his uniquely vibrant colors and dramatic brushstrokes redefined impressionist painting success eluded him Only after his tragic death was his artwork finally recognized for its intensity appeal and enduring impact
