Robert Motherwell:

Robert Motherwell Robert Saltonstall Mattison, 1987 **Robert Motherwell** Robert Motherwell, **Robert Motherwell** Mary Ann Caws, 2013-06-01 Robert Motherwell was by far the most intellectual and articulate of the Abstract Expressionists This book written by a friend of the artist the well known writer and critic Mary Ann Caws examines Motherwell's way of thinking and writing in relation to his paintings The artist American by birth yet simultaneously American and European in his way of visualizing and vocalizing artistic and philosophical traditions always worked between these two poles and it is this tension that imbues his work with its particular intensity The author bases her analysis of Motherwell on the artist's own writings and readings as well as on extensive conversations and interviews with him She considers his work and interests in relation to those of other Abstract Expressionists as well as to the work of the Surrealists Her book highlights his deep attraction to France and French literature and art and his concern with the idea of elegy and the tragedy of the Spanish Civil War His singularly American spirit provided him with a manner of painting and thinking unique among the Abstract Expressionists as well as with a distinctive and highly personal filter through which to interpret his fascination with European literature and history **Robert Motherwell: the Complete Prints 1940-1991** Siri Engberg, Joan Banach, Robert Motherwell, 2003 A study of the prints of Robert Motherwell covering the years 1943 to 1991 This fourth edition is based on research and scholarship In addition to cataloguing more than 500 prints in virtually every medium it includes an essay on Motherwell's print making an illustrated chronology concordance bibliography and exhibition history 500 colour 100 b w illustrations **Robert Motherwell**, 1973 **Robert Motherwell** Robert Motherwell, 1988 Books the great literature that fuels his imagination the little known sketchbooks he has kept over the years or the splendid livres de luxe he has created have always played a critical role in the life and art of renowned Abstract Expressionist Robert Motherwell Since his rise to fame as a founder of the New York School during the 1940s he has consistently returned to the works of the great Irish writer James Joyce most especially to Ulysses and the odyssey of Stephen Dedalus for inspiration During the summer of 1982 preparations for an important international Joyce symposium in Provincetown Massachusetts where Motherwell has long kept a small studio prompted him to fill two sketchbooks with pen and ink drawings in the spirit of Joyce's explorations The drawings all of which are reproduced in this volume are unselfconscious and intuitive Most of these informal witty and characteristically lyrical sketches are closely related to visual themes Motherwell has developed in his paintings but others are surprisingly direct and accessible evocations of Joyce's characters Leopold and Molly Bloom and Stephen Dedalus The Dedalus Sketchbooks therefore offers an unparalleled opportunity to see the artist's inspiration take form in intriguing and intimate ways Motherwell's famous bold shapes and gestures are here stripped down to eloquent simple divisions of space that formally and spiritually tell us much about the creative process from back cover The Prints of Robert Motherwell Stephanie Terenzio, Robert Motherwell, Dorothy C. Belknap, 1991 This magnificent volume provides a

definitive study of the great Abstract Expressionist artist's work as a printmaker This long awaited third edition documents and reproduces all his graphic work to 1990 covering more than 450 prints The text includes an extensive series of interviews with master printers and publishers

The Writings of Robert Motherwell Robert Motherwell, 2007-05-10 Robert Motherwell was not just a great painter he was a brilliant thinker As the founding editor of *The Documents of Twentieth Century of Art* he decisively shaped our understanding of modernism This new and expanded selection of Motherwell's criticism provides an essential guide to the art of the high modern period both American and European Pepe Karmel author of *Picasso and the Invention of Cubism* In the past two decades Abstract Expressionism has become one of the most dynamic subjects in art history sometimes the reading is so dense it is like swimming through peanut butter But cutting through to the essential questions that generated the movement the writings of Robert Motherwell are a treasure Written at the same time he was painting Motherwell's texts make me feel like a witness to the philosophical curiosity that generated one of the most powerful art movements of the twentieth century Michael Auping author of *Abstract Expressionism The Critical Developments* This book is essential reading for anyone thinking about the uneasy clash of modernism and postmodernism in postwar America Motherwell's writing played a decisive role and this volume is an admirably full account of it Jonathan Fineberg author of *When We Were Young New Perspectives on the Art of the Child*

Employing an interdisciplinary approach this book breaks new ground by considering how Robert Motherwell's abstract expressionist art is indebted to Alfred North Whitehead's highly original process metaphysics Motherwell first encountered Whitehead and his work as a philosophy graduate student at Harvard University and he continued to espouse Whitehead's processist theories as germane to his art throughout his life This book examines how Whitehead's process philosophy inspired by quantum theory and focusing on the ongoing ingenuity of dynamic forces of energy rather than traditional views of inert substances set the stage for Motherwell's future art This book will be of interest to scholars in twentieth century modern art philosophy of art and aesthetics and art history
