Robert Harpur's New York Anne T. Herbert, 2003 The New-York Civil List, 1861 **The Documentary History of the Supreme Court of the United States, 1789-1800: Suits against states** Maeva Marcus, James R. Perry, 1985 Divided into two volumes The Teachings of Modern Christianity on Law Politics and Human Nature offers a landmark collection of writings from twenty Christian thinkers of the nineteenth and twentieth centuries and analyses of their work by leading contemporary religious scholars With selections from the works of Jacques Maritain Gustavo Guti rrez Dorothy Day Pope John Paul II Susan B Anthony Karl Barth Dietrich Bonhoeffer Reinhold Niebuhr Martin Luther King Jr Nikolai Berdyaev Vladimir Lossky and others Volume 2 illustrates the different venues vectors and sometimes conflicting visions of what a Christian understanding of law politics and society entails The collection includes works by popes pastors nuns activists and theologians writing from within the Catholic Protestant and Orthodox Christian traditions Addressing racism totalitarianism sexism and other issues many of the figures in this volume were the victims of church censure exile imprisonment assassination and death in Nazi concentration camps These writings amplify the long and diverse tradition of modern Christian social thought and its continuing relevance to contemporary pluralistic societies The volume speaks to questions regarding the nature and purpose of law and authority the limits of rule and obedience the care and nurture of the needy and innocent the rights and wrongs of war and violence and the separation of church and state The historical focus and ecumenical breadth of this collection fills an important scholarly gap and revives the role of Christian social thought in legal and political theory The first volume of The Teachings of Modern Christianity on Law Politics and Human Nature includes essays by leading contemporary religious scholars exploring the ideas influences and intellectual and cultural contexts of the figures from this volume **Index, The Papers of the Continental Congress, 1774-1789: Leacraft, W. - Pyttis**, 1978

Index, The Papers of the Continental Congress, 1774-1789: Aachen - East Twinsey, 1978 **Host Bibliographic Record for Boundwith Item Barcode 30112053159395 and Others**, 1895 **The Papers of Alexander Hamilton** Alexander Hamilton, Harold Coffin Syrett, Jacob Ernest Cooke, 1961 This book explores the puzzling phenomenon of new veiling practices among lower middle class women in Cairo Egypt Although these women are part of a modernizing middle class they also voluntarily adopt a traditional symbol of female subordination How can this paradox be explained An explanation emerges which reconceptualizes what appears to be reactionary behavior as a new style of political struggle as accommodating protest These women most of them clerical workers in the large government bureaucracy are ambivalent about working outside the home considering it a change which brings new burdens as well as some important benefits At the same time they realize that leaving home and family is creating an intolerable situation of the erosion of their social status and the loss of their traditional identity The new veiling expresses women s protest against this MacLeod argues that the symbolism of the new veiling emerges from this tense subcultural dilemma involving elements of both resistance and

acquiescence **Alexander Hamilton: The Formative Years** Michael E. Newton, 2015-07-01 Even though Alexander Hamilton was among the most important Founding Fathers less is known about his early life than that of any other major Founder. Relatively few records have been found regarding Hamilton's birth, childhood, and origins in the West Indies. Alexander Hamilton rarely dwelt upon his personal history and never recorded his life's story. Most of Hamilton's correspondence prior to 1777 was lost during the American Revolution. This has resulted in many gaps in Alexander Hamilton's biography, which has given rise to much conjecture regarding the details of his life. Relying on new research and extensive analysis of the existing literature, Michael E. Newton presents a more comprehensive and accurate account of Alexander Hamilton's formative years. Despite being orphaned as a young boy and having his birth be the subject of the most humiliating criticism, Alexander Hamilton used his intelligence, determination, and charisma to overcome his questionable origins and desperate situation. As a mere child, Hamilton went to work for a West Indian mercantile company. Within a few short years, Hamilton was managing the firm's St. Croix operations. Gaining the attention of the island's leading men, Hamilton was sent to mainland North America for an education where he immediately fell in with the country's leading patriots. After using his pen to defend the civil liberties of the Americans against British infringements, Hamilton took up arms in the defense of those rights. Earning distinction in the campaign of 1776-77 at the head of an artillery company, Hamilton attracted the attention of General George Washington, who made him his aide de camp. Alexander Hamilton was soon writing some of Washington's most important correspondence, advising the commander in chief on crucial military and political matters, carrying out urgent missions, conferring with French allies, negotiating with the British, and helping Washington manage his spy network. As Washington later attested, Hamilton had become his principal and most confidential aid. After serving the commander in chief for four years, Hamilton was given a field command and led the assault on Redoubt Ten at Yorktown, the critical engagement in the decisive battle of the War for Independence. By the age of just twenty-five, Alexander Hamilton had proven himself to be one of the most intelligent, brave, hard-working, and patriotic Americans. Alexander Hamilton: The Formative Years tells the dramatic story of how this poor immigrant emerged from obscurity and transformed himself into the most remarkable Founding Father. In riveting detail, Michael E. Newton delivers a fresh and fascinating account of Alexander Hamilton's origins, youth, and indispensable services during the American Revolution. *The Quarterly Journal of the New York State Historical Association*, 1925 **Proceedings of the New York State Historical Association with the Quarterly Journal** New York State Historical Association, 1925
