critical days spanning his life and revealing his contributions to our modern world Gottfried Wilhelm Leibniz 1646 1716 was the Benjamin Franklin of Europe a universal genius who ranged across many fields and made breakthroughs in most of them Leibniz invented calculus independently from Isaac Newton conceptualized the modern computer and developed the famous thesis that the existing world is the best that God could have created In *The Best of All Possible Worlds* historian and Leibniz expert Michael Kempe takes us on a journey into the mind and inventions of a man whose contributions are perhaps without parallel in human history Structured around seven crucial days in Leibniz's life Kempe's account allows us to observe him in the act of thinking and creating and gives us a deeper understanding of his broad reaching intellectual endeavors On October 29 1675 we find him in Paris diligently working from his bed amid a sea of notes and committing the integral symbol the basis of his calculus to paper On April 17 1703 Leibniz is in Berlin writing a letter reporting that a Jesuit priest living in China has discovered how to use Leibniz's binary number system to decipher an ancient Chinese system of writing One day in August 1714 Leibniz enjoys a Viennese coffee while drawing new connections among ontology and biology and mathematics *The Best of All Possible Worlds* transports us to an age defined by rational optimism and a belief in progress and will endure as one of the few authoritative accounts of Leibniz's life available in English [Rethinking Caste and Resistance in India](#) Murzban Jal, 2023-06-23 This book is a collection of essays by prominent thinkers on the historicist and humanist transcendence of the caste system such that an authentic democracy can bloom in India It locates caste as not only a social problem but a moral evil and schizophrenia affecting India civilization Besides reflecting on Jotiba Phule Karl Marx and B R Ambedkar this book also traverses through Nietzschean genealogy communalism in colonial India the need for radical education to fulfil the democratic revolution the literature of Triveni Sangh questions of social exclusion and inequality the story of Eklavya in the Mahabharata and the asking of pertinent questions to the Indian left This book is co published with Aakar Books Print edition not for sale in South Asia India Sri Lanka Nepal Bangladesh Pakistan and Bhutan *Indian National Bibliography* B. S. Kesavan, 2005 *Lessing's Philosophy of Religion and the German Enlightenment* Toshimasa Yasukata, 2002-01-31 Gotthold Ephraim Lessing 1729 81 stands as a key figure in German intellectual history a bridge joining Luther Leibniz and German idealism Despite his well recognized importance in the history of thought Lessing as theologian or philosopher of religion remains an enigmatic figure Scholars refer to the riddle or mystery of Lessing a mystery that has proved intractable because of his reticence on the subject of the final conclusions of his intellectual project Toshimasa Yasukata seeks to unravel this mystery Based on intensive study of the entire corpus of Lessing's philosophical and theological writings as well as the extensive secondary literature Yasukata's work takes us into the systematic core of Lessing's thought From his penetrating and sophisticated analysis of Lessing's developing position on Christianity and reason there emerges a fresh image of Lessing as a creative modern mind who is both shaped by and gives shape to the Christian heritage The first comprehensive study in English of Lessing's theological and philosophical thought this book will appeal to

all those interested in the history of modern theology as well as specialists in the Enlightenment and the German romantic movement

The German Gita Bradley L. Herling, 2014-02-04 How did the Bhagavadgītā first become an object of German philosophical and philological inquiry How were its foundational concepts initially interpreted within German intellectual circles and what does this episode in the history of cross cultural encounter teach us about the status of comparative philosophy today This book addresses these questions through a careful study of the figures who read translated and interpreted the Bhagavadgītā around the turn of the nineteenth century in Germany J G Herder F Majer F Schlegel A W Schlegel W von Humboldt and G W F Hegel Methodologically the study attends to the intellectual contexts and prejudices that framed the early reception of the text But it also delves deeper by investigating the way these frameworks inflected the construction of the Bhagavadgītā and its foundational concepts through the scholarly acts of excerpting anthologization and translation Overall the project contributes to the pluralization of Western philosophy and its history while simultaneously arguing for a continued critical alertness in cross cultural comparison of philosophical and religious worldviews

The Indian National Bibliography , 2005-07 *Deutsche Nationalbibliographie und Bibliographie der im Ausland erschienenen deutschsprachigen Veröffentlichungen* , *Beckett Matters* S.E. Gontarski, 2016-10-27 Representing a profound engagement with the work of Samuel Beckett this volume gathers the very best of Stan Gontarski's Beckett criticism on practical theoretical and critical levels Such a range suggests a multiplicity of approaches to a body of work itself multiple produced by an artist who underwent any number of transformations and reinventions over his long writing career a Many of the essays collected here explore Beckett's debt to his age Beckett very much a product of a culture in transition which change he would help foster But much of Beckett's creative struggle was to find a new way his own way a Most of the essays that comprise this volume detail that struggle toward a way we now call Beckettian
