Richter, 2015-01-23 Few institutions were as central to nineteenth century American culture as the home Emerging in the 1820s as a sentimental space apart from the public world of commerce and politics the Victorian home transcended its initial association with the private lives of the white native born bourgeoisie to cross lines of race ethnicity class and region Throughout the nineteenth century home was celebrated as a moral force domesticity moved freely into the worlds of politics and reform and home and marketplace repeatedly remade each other At Home in Nineteenth Century America draws upon advice manuals architectural designs personal accounts popular fiction advertising images and reform literature to revisit the variety of places Americans called home Entering into middle class suburban houses slave cabins working class tenements frontier dugouts urban settlement houses it explores the shifting interpretations and experiences of these spaces from within and without Nineteenth century homes and notions of domesticity seem simultaneously distant and familiar This sense of surprise and recognition is ideal for the study of history preparing us to view the past with curiosity and empathy inspiring comparisons to the spaces we inhabit today malls movie theaters city streets and college campuses Permitting us to listen closely to the nineteenth century's sweeping conversation about home in its various guises At Home in Nineteenth Century America encourages us to hear our contemporary conversation about the significance and meaning of home anew while appreciating the lingering imprint of past ideals Instructor's Guide      **Domesticity And Dirt** Phyllis Palmer, 2010-09-23 Examining the cultural norms of women after Suffrage to define labor based on color      **Housework and Housewives in American Advertising** Jessamyn Neuhaus, 2011-11-07 An analysis of how since the end of the 19th century advertising agencies and their housework product clients utilized a remarkably consistent depiction of housewives and housework illustrating that although Second Wave feminism successfully called into question the housewife stereotype homemaking has remained an American feminine ideal      A Companion to American Women's History Nancy A. canonical and otherwise *Playing House in the American West* argues for a distinct regional literary tradition characterized by strategic representations of unconventional domestic life. The controlling metaphor Cathryn Halverson uses in her engrossing study is playing house. From Caroline Kirkland and Laura Ingalls Wilder to Willa Cather and Marilynne Robinson from the mid nineteenth to the late twentieth centuries western authors have persistently embraced wayward or eccentric housekeeping to prove a woman's difference from western neighbors and eastern readers alike. The readings in *Playing House* investigate the surprising textual ends to which westerners turn the familiar terrain of the home evaluating community arguing for different conceptions of race and class and perhaps most especially resisting traditional gender roles. Western women writers Halverson argues render the home as a stage for autonomy resistance and imagination rather than as a site of sacrifice and obligation. The western women examined in *Playing House in the American West* are promoted and read as representatives of a region as insiders offering views of distant and intriguing ways of life even as they conceive of themselves as outsiders. By playing with domestic conventions they recast the region they describe portraying the West as a place that fosters female agency individuality and subjectivity.

*The Shadow Of The Mills* S. J. Kleinberg, 2017-03-17 The profound disruption of family relationships caused by industrialization found its most dramatic expression in the steel mills of Pittsburgh in the 1880s. The work day was twelve hours and the work week was seven days with every other Sunday for rest. In this major work S J Kleinberg focuses on the private side of industrialization on how the mills structured the everyday existence of the women men and children who lived in their shadows. What did industrialization and urbanization really mean to the people who lived through these processes? What solutions did they find to the problems of low wages poor housing inadequate sanitation and high mortality rates? Through imaginative use of census data the records of municipal charitable and fraternal organizations and the voices of workers themselves in local newspapers Kleinberg builds a detailed picture of the working class life cycle marital relationships the interaction between parents and children the education and employment prospects of the young and the lives of the elderly.

**American Home Life, 1880-1930** Jessica H. Alva Vanderbilt Belmont Sylvia D. Hoffert, 2018-11-01 A fascinating biography of the New York socialite who played a surprising role in the fight for suffrage Born in the middle of the nineteenth century Alva Vanderbilt Belmont was known to be domineering temperamental and opinionated She married two millionaires and pressured her daughter to wed an aristocrat This resolve to get her own way regardless of the consequences stood her in good stead when she joined the American woman suffrage movement in 1909 Thereafter she used her wealth her administrative expertise and her social celebrity to help convince Congress to pass the 19th Amendment and then to persuade the exhausted leaders of the National Woman s Party to initiate a worldwide equal rights campaign In this book Sylvia D Hoffert argues that Belmont was a feminist visionary and that her financial support was crucial to the success of the suffrage and equal rights movements She also shows how Belmont s activism and the money she used to support it enriches our understanding of the personal dynamics of the American woman s rights movement Drawing upon and analyzing Belmont s own memoirs she illustrates how this determined woman went about the complex and collaborative process of creating her public self Engaging Highly recommended Choice
