Set Up And Sold Out Find Out What Green Really Means:

Set Up & Sold Out Holly Swanson, 1995 **It's The Sun, Not Us** L.D. den Boer, 2019-08-27 Earth's climate is changing it always has and always will. The cause may be debated but man-made global warming has become the accepted narrative and Big Oil the popular villain. Anyone daring to challenge this consensus is attacked, smeared, demonized as a denier even threatened. Researchers who refuse to toe the line are discredited, dismissed as incompetent and blacklisted regardless of their expertise, experience or credentials. This is not how science is conducted. But not everyone can be silenced. The author of this book is not incompetent. Nor was he paid to write it. He's just someone who cares about the truth, a scientist with a broad understanding of how Earth's climate works and how it has changed over time. His book is divided into two parts: science and ideology. The first part explains in language laypersons can understand how the Sun, cosmic rays and other natural factors control Earth's climate and why carbon dioxide is virtually irrelevant. The second part exposes and refutes the green ideology of man-made global warming, revealing the economic damage it causes. It may be short but it's well researched, packed with information and an enjoyable, rewarding read.

On the Road with Janis Joplin John Byrne Cooke, 2014-10-28 One of Parade's Top Ten Rock n Roll Reads. As a road manager and filmmaker, he helped run the Janis Joplin show and record it for posterity. Now he reveals the never-before-told story of his years with the young woman from Port Arthur who would become the first female rock and roll superstar and depart the stage too soon. In 1967, as the new sound of rock and roll was taking over popular music, John Byrne Cooke was at the center of it all. As a member of D.A. Pennebaker's film crew, he witnessed the astonishing breakout performances of Janis Joplin and Jimi Hendrix at the Monterey Pop Festival that June. Less than six months later, he was on a plane to San Francisco taking a job as road manager for Janis and her band Big Brother and the Holding Company. From then on, Cooke was Joplin's road manager amid a rotating cast of musicians and personnel, a constant presence behind the scenes as the woman called Pearl took the world by storm. Cooke was there when Janis made the difficult decision to leave Big Brother and form a new band. He was with her when the Kozmic Blues Band toured Europe in the spring of 1969 when they performed at Woodstock in August and when Janis and Full Tilt Boogie took their famous Festival Express train trip across Canada. He accompanied Janis to her friend and mentor Ken Threadgill's 70th birthday party and was at her side when she attended her tenth high school reunion in Port Arthur, Texas. This intimate memoir spans the years he spent with Janis, from her legendary rise to her tragic last days. Cooke tells the whole incredible story as only someone who lived it could. **INCLUDES PERSONAL PHOTOGRAPHS**
