*Sociology of the Professions* Keith M Macdonald, 1995-11-13 The Sociology of the Professions is essential reading for any student of this increasingly important area of study. Lucid, clearly written and argued, Keith M Macdonald has written an essential primer on sociology and the professions. Keith M Macdonald's work is richly nuanced, eminently comparative, and singularly suggestive and thoroughly engrossing to boot. It begins with the assertion that the currently regnant framework for dealing with professions is considerably less illuminating than that provided by scholars in the symbolic interactionist tradition, i.e. the collective mobility project of the drive of occupations toward professional status. For Macdonald, this is the professional project whose components he describes.

*The Success Formula* Andrew Kakabadse, 2015-03-12 What do successful organizations and smart leaders have in common? They deliver outstanding value to their stakeholders. Interviews with over 80 leading organizations in private, public, and third sectors from all over the world have led Andrew Kakabadse to a fascinating insight: organizations where stakeholder engagement was highest were not those led by charismatic and visionary leaders but by a culture of delivering outstanding value. Through his research, he found two different approaches at work. In strategy-led organizations, senior management has a clear notion of how value can be created and enacts a strategy to achieve it with the support of key managers and board members. Value delivery-led organizations approach value creation differently. In these organizations, the leadership gathers evidence from internal and external stakeholders to determine the value the organization is delivering today and can deliver in the future. A strategy is then put in place to support those findings and is deliberately exposed to challenges from stakeholders to create engagement. The Success Formula demonstrates how value delivery-led organizations are outperforming their strategy-led counterparts and how the world's best organizations deliver value to their stakeholders with examples drawn from Anglo American, Deutsche Bank, Citibank, Jaguar Land Rover, Microsoft, BMW, and Alfa Bank. This authoritative guide shows leaders how to improve the way they gather meaningful evidence to create a value delivery culture that maximizes the benefits for their organizations and stakeholders.
