Eagleman, 2021-01-04 An understanding of severe and unusual weather should be a fundamental part of everyone's storehouse of knowledge We live in a world that is at least occasionally dominated by severe and unusual weather Many types of severe weather are sufficiently rare that a common defense mechanism of many people is to assume that they will never be directly affected However there is hardly a place in the whole world that does not have some peculiar aspect of weather that requires some degree of understanding and preparedness in order to avoid loss of property and perhaps even life itself Fortunately no particular location has all the different kinds of unusual and severe weather thus coastal areas are exposed to the tremendous power of the hurricane that bring high winds and frequently produce flood conditions while within the interior United States where hurricanes are not a threat such severe types of weather as tornadoes hailstorms and blizzards are sufficiently frequent that an understanding of these storms is essential when traveling or living in this part of the United States Although lightning is a greater hazard in some parts of the world than others there are very few locations including Alaska and the Desert Southwest where occasional severe thunderstorms do not develop numerous lightning strokes A proper understanding is important for flash flooding derechos mountainades haboobs and other unusual weather People have different responses to everyday weather from resistant to feeling dominated by it You can find your level of response from a self test that is provided **Severe and Unusual Weather** Jessie Ann Foley, 2025-05-13 In this poignant novel a young girl leaves her troubled home and while investigating a destructive tornado with the class outcast learns the importance of letting her guard down A must read for fans of Erin Entrada Kelly Dan Gemeinhart and Corey Ann Haydu Nadine has rules for surviving as the new kid Keep your head down Mind your own business Don't stick your neck out for anyone Especially not for Francis Pepper the boy everyone in school picks on Nadine just wants to get through the rest of the year without any trouble She knows that once her mom is out of rehab it'll be back to the unpredictable in Chicago But when she's paired with Francis for a project about Centralia Illinois her new hometown she's drawn to his story Francis was born the exact day that a tornado the Great Tornado of the New Millennium GTNM destroyed the area The cyclone even killed his mom Then Nadine finds a mysterious book that contains instructions for channeling weather Before she can blink she and Francis are caught in the swirling whispers and lies that surround the GTNM Try as they might they can't figure out two things Who would want to summon a tornado to Centralia And why would they want to hurt Francis's family Severe and Unusual Weather Joe R.
