Sex And Champagne:

Treating Sex Offenders Sarah Brown, 2013-07-04 This book aims to provide an introduction and overview of sex offender treatment programmes designed for students and practitioners coming to this field. It seeks to describe the development, theoretical underpinnings, treatment goals and operation of cognitive behavioural and other programmes to an audience unfamiliar with this form of rehabilitation. In addition, it aims to examine the effectiveness of these programmes and the difficulties associated with assessing this, the public response to treatment and also the effects on staff responsible for implementing them. The book is concerned particularly to assess the operation of sex offender treatment programmes in the UK context, considering also the issues associated with implementing programmes developed in other contexts, especially the USA and Canada. It will be of interest to practitioners, particularly those who are beginning work on sex offender treatment programmes or others such as health workers, social workers, probation officers who come into contact with these programmes indirectly.

Sex in Cyberspace Sarah Earle, Keith Sharp, 2016-04-01 Sex in Cyberspace offers a bold and provocative yet sensitively written account of an under-investigated area of sociological enquiry. While there is a considerable amount of research documenting the experiences of sex workers, very little data exists on their male clientele. The first empirically based volume on the experiences of men who pay for sex, this work presents a significant new source of data. The book is based upon an extensive study of on-line forums in which both the purchasers of sexual services and the workers themselves can exchange information and views, information which is otherwise extremely difficult to obtain. Sarah Earle and Keith Sharp argue that such sites represent a significant change in the social organization of sex work and those who seek and use the services of sex workers. Shedding new light on men's sexual identity, Sex in Cyberspace makes a major contribution to the study of sexuality.

facts which alone bring little light I have tried to get at the facts and having got at the facts to look them simply and squarely in the face If I cannot perhaps turn the lock myself I bring the key which can alone in the end rightly open the door the key of sincerity That is my one panacea sincerity
