

SEX & SPIRIT

The background of the entire slide is a dark, textured space filled with small, glowing red and white specks, resembling a starry night sky or a nebula. In the center, there is a stylized illustration of two figures, possibly representing a man and a woman, shown in profile and facing each other. Their heads are tilted towards a bright, glowing white light source that emanates from the space between them. The figures are rendered in a dark, almost black color, with their hair appearing as flowing, dark waves. The overall color palette is dominated by deep reds, blacks, and the bright white of the central light.

Durban, 2023-02-28 Winner in the LAMMY Awards Lambda Literary Awards LGBTQ Studies category Evangelical Christians and members of the global LGBTQI human rights movement have vied for influence in Haiti since the 2010 earthquake Each side accuses the other of serving foreign interests Yet each proposes future foreign interventions on behalf of their respective causes despite the country s traumatic past with European colonialism and American imperialism As Erin L Durban shows two discourses dominate discussions of intervention One maintains imperialist notions of a backward Haiti so riddled with cultural deficiencies that foreign supervision is necessary to overcome Haitians resistance to progress The other sees Haiti as a modern but failed state that exists only through its capacity for violence including homophobia In the context of these competing claims Durban explores the creative ways that same sex desiring and gender creative Haitians contend with anti LGBTQI violence and ongoing foreign intervention Compelling and thought provoking The Sexual Politics of Empire examines LGBTQI life in contemporary Haiti against the backdrop of American imperialism and intervention

Queer Excursions Lal Zimman, Jenny Lynn Davis, Joshua Raclaw, 2014 Across scholarship on gender and sexuality binaries like female versus male and gay versus straight have been problematized as a symbol of the stigmatization and erasure of non normative subjects and practices The chapters in Queer Excursions offer a series of distinct perspectives on these binaries as well as on a number of other less immediately apparent dichotomies that nevertheless permeate the gendered and sexual lives of speakers Several chapters focus on the limiting or misleading qualities of binaristic analyses while others suggest that binaries are a crucial component of social meaning within particular communities of study Rather than simply accepting binary structures as inevitable or discarding them from our analyses entirely based on their oppressive or reductionary qualities this volume

advocates for a re theorization of the binary that affords more complex and contextually grounded engagement with speakers own orientations to dichotomous systems It is from this perspective that contributors identify a number of diverging conceptualizations of binaries including those that are non mutually exclusive those that liberate in the same moment that they constrain those that are imposed implicitly by researchers and those that re contextualize familiar divisions with innovative meanings Each chapter offers a unique perspective on locally salient linguistic practices that help constitute gender and sexuality in marginalized communities As a collection *Queer Excursions* argues that researchers must be careful to avoid the assumption that our own preconceptions about binary social structures will be shared by the communities we study
